From what can be learned the various steel companies at present have no intention of increasing prices. The product of the United States Steel corporation for 1906 has now been estimated at 12,000,000 pig iron and about 13,000,000 tons of ingots, and about 10,000,000 tons of semi-finished and rolled products. All furnaces are working full time to meet orders up to July next.

The causes of the 1,289 failures in Caneda during last year have been classified by Bradstreets. It is noteworthy that the failures due to extravagance or lack of capital were both less than in 1905. The classification is as follows:—Faluerience, 41; lack of capital, 626; untion, 4; Fraud, 108; total, 0,239.
