THE CITY COUNCIL DID ITS BUSINESS WITH COAL OIL LAMPS.

Requested Government to Build Breakwater to Protect the Harbor—Ald. Carson's Fire Scheme.

Last evening, half a dozen coal oil lamps shed light in the city council chamber...

Members of the council present were: Mayor Howat, and Alds. Angrove, Carson, Chown, Cooper, Craig, Douglass, Elliott, Free, Gaskin, Givens, Graham, Hanley, Kent, McCann, Millan, Nickle, Ripney, Robertson, Ross, Toye.

Communications. These communications were referred to committees.

A. E. Ryan, asking for the decision of the council re notification of accident notice which was sent in June, 1906.

Thomas Mills, notifying council that Cataragui Bridge company had declared a dividend of three per cent.

W. G. Frisell, applying for a position on fire department.

D. J. Laidlaw, president of Citizens' League, requesting council to pass a bylaw providing for a substantial reduction in the number of tavern licenses.

F. Milo, of the waterworks, and Miss Flanagan and Miss Melroy, of the city clerk's office, applying for increase of salary.

John McIntyre, K.C., resigning as member of the board of health.

W. J. Crothers, asking permission to cut a hole in the harbor ice and channel, in 100 loads of earth excavation.

Finance Report. The finance committee made the following recommendations, which were adopted.

That the following amounts be placed to the credit of the following accounts as temporary appropriations:

Board of works, \$3,000; fire and light, \$750; printing and stationery, \$200; city property, \$200; contingencies, \$250.

That the communication from Mr. Treasurer, assistant engineer, board of railway commissioners, re the overhead bridge, be referred to the board of works.

That the request of the deputy returning officers for an increase of pay be not granted.

That on the communication of Ernest Villard, for remission of street watering tax, his request be not granted.

That the communication from the mayor, re Mrs. John Sande, be referred to the committee on fire and light.

That the request of Abraham S. Barnick, for a refund of \$25, be granted.

That the city accounts be kept with the Bank of British North America, for the present year, on the same terms as last year, and that the city solicitor be instructed to prepare the necessary by-law and agreement.

Request to Government. The board of works report contained the following recommendation, which was adopted:

That the city council petition the dominion government, setting forth the need of the outer harbor of Kingston for protection, and suggesting that such protection can best be furnished by the construction of a breakwater extending from the harbor to Clark's mill, such that a sufficient distance, that such a breakwater would make the outer harbor safe for large vessels in all matters and greatly increase the capacity of the harbor; your committee recommends that the petition be placed in the hands of Hon. Mr. Hart, for presentation to the proper authority, and that if deemed necessary, a deputation of this council attend at Ottawa to urge the prayer of said petition upon the government.

Ald. Chown pointed out that the building of such a breakwater would probably involve the city in a large expenditure for a change in its sewage disposal system.

John Routley, tobaccoist, Princess street, has bought the bankrupt stock from the creditors, J. J. O'Connell, King street, and purposes carrying on the business at both places.

What is Reported. It is said that H. A. Calvin, ex-M.P., is anxious to re-enter parliamentary life, and will endeavor to get the conservative nomination for Frontenac at the next general election.

The only store you can buy high class candy in, Gibson's, Red Cross Drug Store, McCann's and Hayler's, is sold there.

Employees of the gas department are being thawed out from services.

Free Protection Scheme. Ald. Carson brought forward a free protection scheme in opposition to the proposed last year by placing another team at No. 2 station, but

TWO DEPUTATIONS WAITED UPON CITY COUNCIL LAST EVENING.

Citizens' League Asked For Reduction of Tavern License—Board of Trade Seeks the Abolition of the Market Tolls.

A good part of the city council's time last evening was occupied by two deputations, one from the Citizens' League and the other from the Board of Trade.

The Citizens' League deputation was present to ask council to reduce the number of liquor licenses this year.

J. Laidlaw stated that just a month ago the league waited upon the council of 1906, upon the same question.

The league had anticipated that the majority would be perhaps 500 or 600. He pointed out that the two deputations, one from the Citizens' League and the other from the Board of Trade, had voted in favor of reduction, giving a majority of 140.

The league had anticipated that the majority would be perhaps 500 or 600. He pointed out that the two deputations, one from the Citizens' League and the other from the Board of Trade, had voted in favor of reduction, giving a majority of 140.

Abolition of Market Tolls.

William T. Minnes, president of the board of trade, addressed the council on the question of wine out of the market tolls.

The board of trade had discussed the matter, and had come to the conclusion that it would be in the interests of the city if tolls were no longer levied.

The markets were decreasing, and it was held that if the tolls were removed the markets would increase.

Dr. Ryan pointed out that tolls were an injury to an interchange of commerce. The tolls had been gradually decreasing, showing that the farmers were not coming to the market.

Two years ago the marine men of Canada petitioned the government to abolish the tolls. The government did so, and the result has been that the amount of shipping through the Canadian canals has increased immensely.

The same would apply to Kingston. Free from tolls the roads leading to Kingston and the city markets, the trade of Kingston will be increased with the farmers.

Dr. Ryan claimed. The abolition of the market tolls will have a beneficial effect on the county to wipe the tolls of the Perth road leading to the city. As to the loss of revenue \$1,400, that amount would be made up by the increase of business with the farmers.

Market tolls were aggravating and annoying to the farmers. The board of trade was made up of the heaviest taxpayers of Kingston, who were willing to pay their share of the loss of revenue. Their opinions should be seriously taken into consideration.

John Hewson pointed out that the effort to-day was to get the farmers as easy as possible for those who wish to trade with cities and towns. Kingston should see that no hindrance was kept in the way of farmers.

Ald. Gaskin declared that abolition of market tolls would not bring the farmers to Kingston. When five or six tolls were levied a farmer away from the market, he would see the king of man Kingston desired. When the county retained its tolls on the road why should the city abolish its market tolls.

Ald. Elliott said that the county would very well afford to give serious consideration to the matter in question. He thought a cordial invitation should be given to both board of trade and Citizens' League deputations to come back to the council meeting, when the matters would be up for discussion again.

THE HOSPITAL AID. Good Work Done and Much Projected.

There was a large meeting of the Woman's Aid of the General Hospital, on Monday evening, about fifty members being present.

The meeting was held in the laundry. Final arrangements were also made for a tea to be held on Mrs. James Hensley's King street, on St. Valentine's day.

For some time there has been talk of holding a "Made in Canada" exhibition, in October, and the project will be definitely taken up.

Consultations have been held with some of the Brockvilleans, who made such a success of a similar exhibition that town, and next week further details will be received from them.

Among the contributions, gratefully acknowledged, was a gift of six dozen table napkins, from a man who sympathizes warmly with the aid, and who sent his gift through Mrs. R. E. Sparks. All things were in a most satisfactory state at the hospital now, and only words of praise are heard from the inmates.

John McIntyre Resigns. Although elected as chairman of the board of health John McIntyre, K.C., does not intend to act again as a member of that body.

He was not present at the inaugural meeting yesterday. On January 14th the council re-appointed him without his consent.

Now he has sent his resignation to the council. No action has yet been taken upon it. The mayor was not certain as to what committee he should refer it to.

"I suppose it should go to the council," he said. "That committee is out of existence now, your worship," said Ald. Ripney. The vacancy will likely be filled at the council's next meeting.

Threatens to Resign. Dr. Evans threatens to resign from the board of health as a result of that body's action in making a provisional change in the ice limits it had already decided upon.

He declares it to be dangerous to take any risk in allowing ice for steamboat or other vessel purposes to be cut nearer shore than now allowed. He would not change limits to suit anybody's convenience, holding that the health of the citizens and the sailors should be the first consideration.

The doctor is being urged to remain on the board and show further usefulness.

Peck's Kidney and Liver Pills. A scientific remedy for kidney, liver and bladder troubles. These pills have a direct action on the kidneys, flushing, cleansing, healing and strengthening them.

They can be depended upon to cure backache, urinary disorders, or any ordinary kidney ailment. Results are prompt and permanent. The remedy is both harmless and sure. In boxes, 25c. For sale only at Wad's Drug Store. Money back if not satisfied.

A Very Long Trip. F. J. Pope, M.A., one of the experts with Guggenheims, of New York, has received orders to inspect a mine in Chile. On Saturday he sailed for Southampton, England, from thence he takes steamer for Chili, going by way of Portugal and the Canary Islands. He will be joined in Kingston by one of the Guggenheims firm. The trip will involve a voyage of 25,000 or 30,000 miles. It will be April or May before Mr. Pope returns to New York.

William Allan, who has been treasurer of the township of North, has retired and is succeeded by John F. Ferrier.

DR. SCOTT'S WHITE LINIMENT. Is the best for all pains. No family should be without it. It cures Frost bites, Sprains, Burns, Swellings, &c.

Concert at Portsmouth. An entertaining programme was given by the Sunday school and members of the John's church, Portsmouth, on Monday night, in aid of the organ fund.

The concert, held in the Sunday school, was a great success and the audience was large. Those who contributed to the programme were: Misses Halliday, Bates, Waldron, Macmorris and Doherty. Mrs. Doherty, Rev. Mr. Ripley, Rev. J. O. Friel, J. W. Foster, and the members of the church quartet.

Removal Sale. If you have had to leave our store during this sale without being waited on (and many have) please accept our apology, but the immense crowds that have thronged our store since this sale has started has been more than we could handle properly.

It will pay you to come early to-morrow morning. MUFFS

BOARD OF HEALTH RE-ELECTED JOHN MCINTYRE AS CHAIRMAN.

Another Discussion as to the Ice Limits—Only Two Cases of Typhoid Fever Reported This Month.

The inaugural meeting of the board of health was held on Monday afternoon. In attendance were Mayor Howat, Dr. Evans, Dr. Hanley, S. S. Corbett, John Lemmon, Medical Health Officer Bell and Sanitary Inspector Gordon.

On motion of Mayor Howat, seconded by S. S. Corbett, the board re-elected John McIntyre, K.C., as chairman. The mayor stated that Mr. McIntyre had proved a most efficient, painstaking and enthusiastic chairman, and it was wise for the board to try and retain him as its presiding officer.

In the absence of the chairman-elect the mayor was called upon to preside. Applications were received from the St. Lawrence Ice company, M. T. company, William Drury and D. J. Millan for the privilege of cutting ice in the harbor for cooling purposes.

Dr. Evans wanted to know what was meant by "cooling purposes." One dealer had one view of it and another dealer another. The speaker said that the board should be very careful in regard to the ice that is placed on the boats, as many cases of typhoid fever have originated there during the past few years.

Mr. Corbett said it was a hardship to ask the M. T. company, D. J. Millan and others to go away out of the harbor when they were using ice only for cooling purposes as technical understanding—that is for refrigerator use by themselves. Mr. Lemmon and Dr. Hanley agreed with Mr. Corbett. If pure ice could be got near the shore an effort should be made to do so and the applicants allowed to cut there.

Mr. Corbett moved, seconded by Mr. Lemmon, that nearer limits be laid out by the sanitary inspector and health officer, and that Dr. W. T. Connel make a test of the ice as to its purity. If pure then that the four applicants be allowed to cut there.

Dr. Evans said that he didn't propose to run any risk in granting permission to parties to cut ice for cooling purposes outside the limits already laid. The board should not go back upon what it decided upon last week. He said that men on the various boats, including those of the M. T. company, had declared that there was only one kind of ice aboard, and that it went not only into the refrigerator but into the drinking water as well. He didn't intend to make any exception for the M. T. company. Public sentiment was stirred up over the ice question, and both press and people demanded that a safe limit be set. The board had set the limit at the fast meeting, and that limit should be maintained.

Mr. Corbett held that if pure ice could be obtained nearer to shore than where should dealers not be allowed to cut it. The board, he claimed, was protecting the people, and would do nothing that would be dangerous to health. The M. T. company manager, Mr. Corbett said did not want impure ice, and would not cut anything that was not safe, but he didn't want to go a long distance out if it was not actually necessary.

The motion of Mr. Corbett was carried. In the meantime the applicants will have to cut ice in the limits already set. The board should not go back upon what it decided upon last week. He said that men on the various boats, including those of the M. T. company, had declared that there was only one kind of ice aboard, and that it went not only into the refrigerator but into the drinking water as well. He didn't intend to make any exception for the M. T. company. Public sentiment was stirred up over the ice question, and both press and people demanded that a safe limit be set. The board had set the limit at the fast meeting, and that limit should be maintained.

Medical Health Officer Bell reported that during January there were reported to him only two cases of typhoid fever and four cases of diphtheria.

Dr. Evans asked concerning the farmer from whom meat was confiscated on the market two weeks ago. Why had he not been prosecuted, he asked, and whose duty was it to prosecute? He moved that the matter be referred to the police commissioners for report. The police party should be prosecuted, but no one seemed to know what official should take the action. Dr. Evans' motion was adopted.

A Cold Error. Because you have always had colds and had little success in curing them you are apt to think that there is no escape from the ailment. This is an error. Wad's Cold Cough Tablets (Laxative), do cure colds—usually in 12 hours. If you start treatment early, though you need have no colds at all. These tablets also cure headache and constipation. Sold in boxes, 25c. Sold only at Wad's Drug Store. Money back if not satisfactory.
