A BRAVE BOY

Laverge Talked To The Government.

READ DOCUMENTS

AS TO VARIOUS STATEMENTS HE MADE.

His Various Votes Against the Government—He Was True to Liberal Principles—Ready to Go to Montgomery and Face His Constituents.

From Our Own Correspondent.

Ottawa, Feb. 6.—The first real sensation of the parliamentary session occurred, yesterday, when Armand Laverge, who has been ruled out of the liberal party by the powers that be, rose to his own defence, and invited the young Laverge, who has been ruled out of the government, or, indeed, anybody that liked to take it.

Laverge is a mere boy, and up to yesterday was reckoned but a supporter of Mr. Bourassa—not of a brilliant type either; but after a remarkable oration in which he cited a case that was full of facts, lived with courage, Laverge must be considered a force to be reckoned with. It proved one of the brilliant bits of modern times. We may not consider his young Laverge, but his attitude is, politically incorrect, but it must be conceded that the boy is brave, that he is honest, and that these two characteristics carry weight in any Canadian community. So Laverge and the other nationalists have to be met squarely. His indictment of the government was warm. The answer will be awaited with interest.

Meanwhile the patronage of his constituency of Montigny has been given to Senator Choquette, "a man who dragged the premier into court," said Mr. Laverge. Then he entered upon his defence.

He was never a ministerial supporter. When he ran in Montigny first he was asked to sign a document— which he read—declaring his independence of the government, his independence of the policy, whatever that might be. He refused. Nevertheless the government endorsed his candidature, and a helpful line to him. At the last general election he again ran as a straight liberal, but not as a ministerial supporter. He was not given any help by the government, not the premier, but he was asked by the government to support the candidature of C. R. Drevin, but he refused. Apparently he was not at all prepared to discard his independence, Mr. Laverge read documents to prove all this.

Four times, continued the member for Montigny, he had voted against the government. The first time was against sending troops to South Africa. In that he pointed out, as Sir Wilfrid Laurier, though the premier had afterwards, upon pressure, received from his position. He did not, but he could hardly be said to have been in the methods and transactions of this company were exposed the government announced that the contract with it had been cancelled. He was against the government in connection with the French autonomy bill. He had moved a sub-amendment to Mr. Peche's amendment. His amendment was defeated, but the point he fought for, in the senate, and decided it came back to the commonsense was accepted by the government. He was against the government in connection with the contract with the government. He was against the government in connection with the contract with the government.

MISS FLORENCE WEISE, GRADUATE pupil of Ontario Ladies College is now prepared to take pupils in Piano and Theory, at 121 Princess street.

HIT ROYALTY

When it Was Only Intended For Plebeian.

Berlin, Feb. 6.—While the kniser was automobile in "Enter" der Linden yesterday, he was struck, full in the face, with a snowball. The culprit, a boy, stood aghast when he saw his missile, which was intended for another boy, land on his majesty's face. The kniser brushed off the snow, laughed good humoredly, and playfully shook a menacing finger at the boy, who, recovering from his momentary terror, hid his face.

If you are constipated, dull or bilious, or have a sallow, listless complexion, try Laxative just once to see what they will do for you. Laxative are little chocolate candy tablets— nice to eat, nice in effect. No griping, no pain. Just a gentle laxative effect that is pleasingly desirable. Handy for the vest pocket or purse. Laxative meet every desire. Sold by all dealers.

To be strong you must have good appetite, good digestion and good assimilation. Miller's Compound Food Pills bring all these. For sale by W. H. Medley.

Lieut. Col. Ward, of the Royal Canadian Regiment, is increasing engineering corps in the different colleges in Canada.

THE RESULTS

Of The German First And Second Ballots.

GOVERNMENT WIN

IT HAS THE MAJORITY IT NEEDED.

On Which to Rely on Purely National and Colonial Questions—A Demonstration Made at The Royal Palace—Ride Down Everybody and Everything in Her Way.

Berlin, Feb. 6.—The following are the total results of the first and second ballots for members of the new Reichstag, which meets on February 19th: Conservatives, 81, against 74; national liberals, 56, against 51; progressives, 48, against 26; social democrats, 43, against 79; Poles, 29, against 16; anti-Semites, 16, against 21; other parties, 12.

The general result of the elections, politically, is that the government obtains a desired conservative-liberal majority, on which it can rely on purely national, including colonial questions.

When the results of the re-balloting became known, a crowd of about 5,000 persons proceeded to the royal palace to make a congratulatory demonstration. The Kaiser, in full uniform, with military cloak and helmet, addressed the crowd, saying: "I thank you from my heart for your ovation. The result of the election is such as to give me confidence in the government of Germany can ride in the saddle. If my people remain united both of high and low degree, and all confiding in me, I have no doubt, but that also will know how to ride down everybody and everything which stand in her way. Germany has learned her lesson, and she will continue to use the art she has learned."

The speech was frequently interrupted by enthusiastic cheers.

FIRE OF THE NEWS.

The Very Latest Culled From All Over The World.

The C.P.R. is to build a new West-mount station. The work will be completed in a few weeks, and the new station will be on the line between the Prince Albert and Regina.

Baton Hayashi, of Tokio, declares that the news of his arrest in the United States is unfounded.

Four persons were burned to death in a Liverpool stable fire at Felham, N.Y., on Tuesday.

At Rochester, N.Y., Mary D. Anthony, sister and lifelong co-worker of Susan B. Anthony, died on Tuesday.

The city of Toronto will ask the government to take a pledge to establish a public office telephone system.

The railway committee, at Ottawa, knocked out the two-cent passenger rate and long distance telephone connection clauses of W. F. McLean's bill.

In the Ontario legislature on Tuesday, Premier Whitney and Mr. Graham expressed the sympathy of the house and province with Earl Grey and family in their recent bereavement.

Between Leithbridge and Medicine Hat thousands of antelopes are struggling in deep snow without food on which to subsist. There are thousands upon thousands of them. Around the animals are wolves snarled upon their hanches, ready to seize any antelope that might happen to fall.

Paul Monty, a French miner, who has been working in a St. Boniface mine, on Sunday met with a terrible mishap, a result of the bitter cold. Feeling his feet freezing, he foolishly took off his boots, in order to keep them from getting so stiff that it would be impossible to get the boots on again. He then started, barefoot, to walk two miles through the snow, and when he reached the hotel at St. Boniface, which he is the proprietor, both feet were frozen solid.

Quebec Graphite.

Quebec, Feb. 6.—Owing to the supplies of graphite in Quebec having nearly become exhausted, the discoveries of large deposits in this province are looked upon as a matter of great importance to the country. As there has been a long period of over-production in Bavaria, it now looks as if the world will have to depend for its supply from the new graphite regions here. Mining has commenced in Levesque and a large grinding and refining mill is ready to start at Calumet, which is in the same region, and at Buckingham still more extensive work has been undertaken. At the latter place it has been found that there is some lime mixed with the ore, but millions of dollars are to be expended in machinery to remove it.

A Northern Wheat Grower.

Edmonton, Alta., Feb. 6.—Frederick S. Lawrence, who grows wheat farther north than any other man in America, is in the city from Vermilion on the Peace River. He took him twenty-five days to make the seven hundred miles trip. He is going west to Chicago and St. Louis, and it is understood that he has something big to announce. He says that the wheat crop at Vermilion last year was capital. Four reports that the wheat crop at Vermilion this year will total 22,000 bushels.

NOT DISAPPOINTED

REALISM ON STAGE OF PARIS THEATRE.

The Grande Guignol Playhouse, Where People Go to Get Painful Impressions.

Paris, Feb. 6.—A play produced at the Grande Guignol Theatre escapes in its story "The Captain's Wonder," which excites so much comment in London.

It is called "Blind," and is by Carl Hollem and Paul de Koster. A blind man has turned out of doors his son by the name of Jacques, who is in love with his second wife. The son returns, and is having a stormy scene with his stepmother, when his father comes into the room.

The woman and her stepson remain motionless, and the blind man hears nothing, but he sits down just in front of the cable leading out of the room. He talks to his wife about his son, and from her nervousness guesses that something is wrong.

"There is somebody in this room," he says, and he insists on his wife preceding him out of the door, which she looks behind him.

The son tries to get away, but his blind father, who was sitting in a side room, with a revolver in his hand, rushes in with a revolver and shoots. He misses, but his shot brings in an old servant, who involuntarily calls out the son's name. "Then my wife and the unhappy father, and he shoots himself."

The piece, which was admirably getting, made a very painful impression; but it is in order to receive painful impressions that people go to the Grande Guignol.

To Explore Alaska.

Philadelphia, Pa., Feb. 6.—Dr. George B. Gordon, curator of the department of ethnology in the museum of science and art, has nearly all arrangements made for the starting of the expedition to Alaska. The United States government has agreed to explore Alaska. It is announced that special attention will be given to the bearing Sea and that the habits and customs of the people living in this bleak region will be carefully studied.

A \$35,000,000 Bridge.

New York, Feb. 6.—A new suspension bridge, 150 feet above high water, with a span of 2,900 feet, the longest in the world, and estimated to cost \$35,000,000, is being projected here. It will probably be built between Fort-teenth and Forty-second streets, the New Jersey side. However, another part of the project would reduce this sum by \$500,000, for the promoters also agree to construct a suspension bridge close by which would cost that sum.

Miller's Grippe Powders cure. For sale by W. H. Medley. Semi-remedy clothing for men.

CAN YOU SELL COODS?

GOOD SALESMEN ARE ALWAYS WANTED.

A WHIG WANT

WILL FIND A "GOOD BERTHA" FOR YOU.

AT OLD BARRIEFIELD.

The Village Girls in Glee Over Their Boys Hockey Team.

Barriefield, Feb. 5.—The Barriefield junior hockey team, the Thistles, organized only a few weeks since, made an agreement to play five games against the Beavers and St. James' Club, of the city. They secured their colors, red and white, and met the St. James club at the rink and beat them badly, two to four, although their opponents were larger and older boys. On Wednesday, last week, the second game was played. The Beavers had no better success, and were beaten three to two. Tuesday evening the Barriefield club met the St. James' Club on the city rink to play the third game of the series and beat them four to one. Only the weather was so cold, the Barriefield girls would have been present to see their boys play the Kingston "kids" how to play. The names of the Barriefield players are: Russell Lotto, goal; Neil Davy, point; Huby Tisdale, cover point; Gordon Murray, rover; John Stanton, centre; Rodger Davy and William Murray, wings; George Tisdale is treasurer; Richard Dowler, manager.

Mrs. Bennett, who underwent an operation at the Hotel Dieu, is improving, and will return home on Sunday. Miss Betsy Melley, living with her niece, Mrs. Lotto, is dangerously ill and there are not much hopes of her recovery. Mrs. Belva, confined to the house for several weeks, is improving. Miss Grimshaw is visiting her cousin, Miss Della Hutton. Mrs. Hutton, with her brother, William Hewster, of the North-West, is visiting her daughter, Mrs. McCaberty, of Stratfordville. Miss Della Hutton held a card party on Monday evening. Visitors: Miss Donaldson, of Ottawa, at her sister's, Mrs. Pugh; E. L. Warden, of Rochester, N.Y., at Mrs. Brynes'.

ASKING DAMAGES

FOR HIS ARREST—RETURNED THE HORSE.

Martin Will Not Benefit By the Aldermanic Change—Who Will Get the County Judgeship in Essex.

Windsor, Ont., Feb. 6.—Last September James Jackson, a local drayman, hired a horse of Mrs. Logan, of Chatham. He returned the horse but first and supposing it had been carried away by him, had Chief of Police Holmes, of Chatham, telegraph the Windsor police and provincial detective to arrest Jackson. This was done before Mrs. Logan found that the horse was at home. Jackson was detained a short time at police headquarters and then released. Now he has begun an action against Chief Holmes, Chatham, for false arrest, claiming \$2,000 damages.

R. M. Keogh has stepped into the place, as an alderman, vacated by Ald. Blair upon the latter being threatened with quo warranto proceedings by Joseph Martin, who is trying to break into the council. Ald. Blair probably would be succeeded upon a technicality and therefore resigned. Martin will not benefit, however.

Two names are mentioned as successors to the late Judge Horne, county judge of Essex. They are those of Speaker Sutherland, K.C., and A. H. Clarke, K.C., M.P., for South Essex. As Speaker Sutherland's ambitions lie along another line it is thought very improbable he would accept the appointment, but if Mr. Clarke would accept it it is believed he would make an ideal judge.

BROUGHT TO THE PEN.

John Currie Found Guilty of Stealing Baggage.

Deputy Sheriff Benjamin Waterworth, of London, Ont., was in the city, today, with John D. Currie, sentenced to two years and six months in the penitentiary for stealing baggage from a baggageman at the Grand Trunk station at Glencoe, and was found guilty of stealing baggage. Four charges were laid against him, and he was found guilty on each of them.

Currie's trial took place at London, and in passing sentence, Judge Macbeth commented on the sad case of the case, but the admitted facts (that the man, who was a trusted employee of the G.T.R., had been daily robbing the baggage passing through his hands for a period of over seven months), left him no alternative but to impose a sentence of a term of years in Kingston.

Throughout the rest of the Thaw hearing, Delphin Delmas will be in charge, assisted by Attorney Daniel O'Reilly, Attorney Gossow, Hartley, McPhike and Peabody will act in an advisory capacity.

A million dollar brewing company may establish new works in Montreal in opposition to present concerns.

IF CHILDREN CATCH COLD, RUB ON "NERVILLE."

It seems as if Nerville was made specially for the little ones. Rubbed on throat and chest, it breaks up a cold in a few hours. Taken hot when retching it drives out the last traces of sickness, and all danger is past. For the aches and pains of the whole family, nothing has the power of Nerville. Good for neuritis, rheumatism, toothache and rheumatism. Guaranteed to relieve and cure any muscular pain, external or otherwise, and for 25c a bottle. Try Nerville.
