Java and Mocha Coffee

It is healthful too, as the following extract from "The Spice Mill," written by a coffee expert, proves—"It is our sincere conviction that Coffee, viewed in the broadest sense, is one of the blessings of existence, to millions and millions of people it is as necessary as the bread they eat and as beneficial to them as that staff of life."

THE BUILDING OUTLOOK

Is Not Very Promising Here So Far.

The outlook for general building operations in Kingston this coming spring and summer is not very bright so far. The increase in wages of mechanics will put a damper on any speculative building. So far all the building operations projected are as follows: Extensions to the store on Princess Street for George Mills & Co., (Arthur Ellis, architect), erection of a brick residence at the corner of Johnson and Bagot streets for P. S. Mahood; extension to D. G. Lindlaw's house on Earl Street and extension to the store of James Reid & Co., Princess Street. William Newlands is architect for the latter three works. Mr. Newlands has the supervision of some buildings in Picton and is also preparing plans for some dwellings in Edmonton.

Want Queenstown As Mail Port.

Dublin, Feb. 19.—At a meeting of the Irish parliamentary party in the Rotunda, last night, John Redmond, M.P., presiding, resolutions were passed urging Irishmen in the United States to take steps to induce the American government to adopt Queenstown for the retention of Queenstown as a landing place for American mails, instead of sending them to Plymouth. Resolutions were received from all public bodies in the country calling upon the entire body of the Irish members of parliament to oppose any withdrawal of the American mail service from Queenstown and urging all railway companies and public bodies to co-operate in resisting the withdrawal.

HYMAN CASE

Is Worrying The Opposition In House.

GOES TO COMMITTEE

AND UNTIL REPORT WRIT WILL BE DELAYED.

The Federal Government Can Give No Further Power to the Provinces—Reorganization of the Senate Will Not Be Considered This Session.

From Our Own Correspondent.

Ottawa, Feb. 19.—The opposition seems determined to make all the capital possible out of the Hyman affair. Mr. Borden brought up the question again yesterday, and expressing doubts as to the validity of the resignation, asked that it be referred to the committee on privileges and elections.

Sir Wilfrid Laurier at once agreed, and stated that until the committee disposed of it, the issue of the writ for the London bye-election would be stayed.

There were one or two other little interesting matters throughout the day. In discussing the bill respecting the Qu'Appelle Long Lake and Saskatchewan railway Mr. McCraney proposed for three cent fares, and declared that the regulation of railway fares should be the duty of the railway commission.

W. F. Allen asked if the government intended to grant the provinces power to appropriate the plant of any telephone company it found convenient or necessary to acquire. The premier replied that it was in the power of the federal government to give any further power to the provinces than they already possessed.

Annual average was ninety with questions. He learned from Sir Wilfrid Laurier that the colonial conference would open on April 15th.

He was also told by the premier that though the government had the re-organization of the senate under consideration nothing would be done this session as it was hoped to have the house rise early.

In this connection it might be said that it is probable the house will sit for some weeks after the premier's departure.

A deputation from St. John, N.B., headed by Major Sears, is in town, and has had interviews with several of the ministers. Hon. Mr. Emmerson was seen yesterday with regard to the proposed bill to give railway powers to the C.P.R. over the Intercolonial to Halifax. Sir Richard Cartwright was interviewed with reference to the proposal that the Atlantic steamer company should be transferred to the C.P.R. and Mr. Fisher, acting minister of public works, was presented with a request for additional dredging in St. John harbor. A petition for an amnesty will be laid before the legislature for the repeal of the three-fifths clause of the local option law.

Prince Fushimi, special envoy of the Japanese emperor to the king with a distinguished suite, is en route for England.

Application has been made by a party of Boston capitalists to the parliament for a charter to build a railway from the northern boundary of British Columbia to Dawson City.

Robert W. Gouldlock, one of the best known travelling men in Ontario and Western Canada, died in Toronto on Monday. Mr. Gouldlock was on the road for the Perkins law company, during the last thirty-two years.

The latest political sensation in Manitoba is the alliance of R. L. Richardson, ex-M.P., editor of the Tribune, and leader of certain independent elements, with the opposition. He will be a government seat.

SOLDIER'S DARING EXPLOIT.

Masquerading and Deporting Himself Cleverly.

Cardiff, Wales, Feb. 19.—Private Morgan, of the Royal Welsh Fusiliers, is being court-martialled here to-day, for a remarkably daring exploit. Morgan, whose parents reside in Stratford, while on furlough, recently conceived the idea of masquerading in his master's uniform. He appeared sometimes in full uniform, and sometimes in mufti. He reprimanded several private soldiers on furlough for appearing in slovenly uniform and threatened to report them to the commanding officer. Even blackbirds did not escape his attention. One able seaman was actually escorted to the railway station by Morgan, and sent back with his kit, to rejoin the Channel Fleet. Morgan's crowning joke was at the expense of the local recruiting sergeant and drill instructor, whom he visited in the Volunteer army. Smartly dressed in civilian clothes, he adopted an imperious air, and accused both officers of laxity in not notifying men improperly dressed on furlough. He had sixteen private soldiers arrested for not submitting him to the sergeant and ordered a second lieutenant to report himself as under arrest for appearing in public without a cane. On several occasions he turned out the guard at Stratford and sometimes the sergeant of the guard for the slow manner in which he turned out.

W. G. Bolly, rector of St. George's church, Chateaufort, Ont., was appointed town clerk.

George P. Graham introduced a bill in the legislature for the repeal of three-fifths clause of the local option law.

Prince Fushimi, special envoy of the Japanese emperor to the king with a distinguished suite, is en route for England.

Application has been made by a party of Boston capitalists to the parliament for a charter to build a railway from the northern boundary of British Columbia to Dawson City.

SLEW HER CHILDREN.

Lived To Be Happy.

Boston, Mass., Feb. 19.—Rev. F. A. Wiggins, in a sermon on "The Written Law," predicted that Harry K. Thaw would go free for the murder of Stanford White. The speaker said: "Thaw will go free even from the millstone. He is not insane any more than any of you are insane. He has been insane, of course. The storm cloud came to him as it has many times come to most men. A storm cloud came to Thaw and broke over him. Then he was insane."

Evelyn Thaw was declared by Rev. C. J. Hawkins, at the Central Congregational church, to be "no bad" she had just lived to be happy."

Six Lost Their Lives.

Highland Light, Mass., Feb. 19.—Six seamen lost their lives when the Phaladhin and Rowing company's barges, Gibraltar and Alaska, went ashore and broke up here. Yesterday two men were saved, Capt. Larsen and another member of the crew of the Gibraltar. The two barges, with a third, were in tow of the tug Valley Forge, and began in a gale.

HOT DEBATE

Over Plans For Ireland's Relief.

BREAKING PLEDGES

AN ACCUSATION AGAINST THE GOVERNMENT.

Nothing Novel in the Declaration That Some Form of Home Rule is the Solution of the Irish Problem—The Colonials Will Be the Nation's Guests.

London, Feb. 19.—The Irish question again played a prominent part in the House of Commons, last night, the opposition leaders accusing the minister of breaking the election pledges by the endeavor to give Ireland an installment of home rule. Chancellor of the Exchequer Asquith, in the absence of Premier Campbell-Bannerman, who is suffering from a cold, replied to the question of the details of the government's Irish plans and contented there was nothing novel in the declarations made by the premier and Winston Churchill, in the House of Commons, yesterday, stated that the representatives of the colonies to the colonial conference would be the guests of the nation. Mr. Churchill also, stated that it was not proposed, at present, to lay any further papers on the table regarding the Newfoundland fisheries question.

Money Set Aside For Prosecution of Slayer.

New York, Feb. 19.—"I never wanted to shoot the creature. I never meant to kill him. I knew he was a foul creature, destroying the mothers and daughters of America, but I wanted, through legal means, to bring him to trial. I wanted to get him into court to bring him to justice, but Providence took charge of it; it was an act of Providence."

This is Harry K. Thaw's own account of the killing of Stanford White. It was given by him to Dr. Britten D. Evans, the alienist, last August, in the Tombs. Monday Dr. Evans reported the matter to Miller to the jury, which is trying Thaw for his life.

The will and the codicil, as read to the jurors to-day, were offered in evidence as corroborative evidence of Thaw's mental unsoundness prior to the shooting of White. In his will Thaw provided that his executors should set apart the sum of \$50,000 for the education of his children, and that the balance of his estate should be divided equally among his children.

Entered an Action.

Toronto, Feb. 19.—Charles A. Richardson, Halleyburg, has entered an action against William B. Russell of Toronto for delivery of 2,000 shares of the capital stock of the Cobalt Silver Queen, Limited, and for the dividends declared on the stock and also for damages for alleged breach of contract.

Skull Of Girl.

Cheltenham, G., Feb. 19.—A skull, believed to be that of Pearl Bryan, who was murdered and her body dumped into the river, was found yesterday on February 1st, 1896, by Jackson and Walling medical students, who afterwards were hanged, was found across the river from here yesterday afternoon.

Accused Of Poisoning.

Cayuga, Ont., Feb. 19.—Mrs. Perkins was arrested, to-day, by Chief Constable Farrell, on the charge of poisoning her husband, Henry Perkins. She was accompanied to the jail by her sister, Mrs. Hyalip.

He Will Wait.

Toronto, Feb. 19.—Allan Studholme, M.P.P. for East Hamilton, will not submit his telephone bill, regulating the hours of employees, until after the finding of the commission.

TONGUE TIED YOUTH CURED.

Unruly Member Frozen to Pump Handle.

Rome, Feb. 19.—George Crofoot, Jr., son of Mr. and Mrs. George Crofoot of Law Center, and his little sister, Etta, were playing about the yard when George, who is only six years old, placed his tongue against an iron pump handle, and because of the frost in the iron he was stuck fast so the handle and could not loosen his tongue.

His little sister went into the house for assistance, but by the time she returned with her mother George had taken out his jackknife and cut his tongue free from the handle, slicing out a big piece of the tongue. He suffered terribly. A physician was summoned and attended the little fellow, but it is not thought that any ill-effects will follow.

LIFE THROUGH ERROR.

Provided Wrong Cartridges and a Murder is Averted.

Galt, Ont., Feb. 19.—A lively scene was enacted in the moulding shop of the Galt & McCallough Co., when Evlin Georgius, a husky Albanian, employed in the works, rushed at his wife's brother, Brusso Petro, with a loaded revolver, and snapped the trigger four times.

Luckily the hardware clerk who sold the outfit to the would-be murderer supplied him with rim-fire cartridges, while the revolver was the center-fire pattern. It appears Petro owed his brother-in-law \$40, which he was tardy in repaying, hence the attack. Georgius is now locked up on a charge of attempted murder.

SUING FOR FULFILLMENT

Of the Terms Under Which They Sold Roads.

Windsor, Ont., Feb. 19.—Suit is being brought against the Windsor, Essex and Lake Shore railway company, by A. J. Nelles and William Newman, the original promoters of the road, for the alleged non-fulfillment of the contract under which the plaintiffs sold out their interests in 1905. Messrs. Nelles and Newman allege they were to receive \$72,000 in stock and \$48,000 in first mortgage bonds, and declare they have not yet received either.

Baby Named After Evelyn.

Kalamazoo, Mich., Feb. 19.—Because her maiden name was Holman, Mrs. Alexander Babcock, mother of a daughter born ten days ago, christened the little one Evelyn Nesbit, after the wife of Harry Thaw, on trial for the murder of Stanford White, in New York city. The father had serious objections, it is said, to the child being given the name. In attendance at the ceremony, however, were so many that voted in favor of the name that the father finally consented to the youngster being named after the former chorus girl.

Fell And Was Killed.

Harrisburg, Ont., Feb. 19.—J. L. Miller, engineer, in jumping from his engine, in the yards, here, last night, attempted and fell into another train. This picked him up and carried him a distance of about three-quarters of a mile, where the ronee was picked up badly mangled. Miller was about twenty-six years old, and leaves a wife and two small children, all now on beds of sickness.

Will Stay In Government.

Windsor, Ont., Feb. 19.—Hon. R. F. Sutherland, speaker of the House of Commons, denies emphatically that there is any truth in the rumor that he will accept a position with the Canadian Pacific railway, as one of the legal advisers of the road. He says he has no intention of resigning his position with the government.

Entered an Action.

Toronto, Feb. 19.—Charles A. Richardson, Halleyburg, has entered an action against William B. Russell of Toronto for delivery of 2,000 shares of the capital stock of the Cobalt Silver Queen, Limited, and for the dividends declared on the stock and also for damages for alleged breach of contract.
