

E LIFE

Are Susceptible to Many Intelligent Women Prepare Their Experiences.

Dr. E. Powless

I took it for five months and then off and on until the critical period had passed, and it restored me to perfect health. My advice to suffering women is to try your Vegetable Compound, and they will not be disappointed.

Another Woman's Case.

Dear Mrs. Pinkham— "As I owe my splendid health to Lydia E. Pinkham's Vegetable Compound, I am very pleased to write and tell you my experience with it. I am the mother of three children grown to womanhood, and have safely passed the change of life, and feel as young and as strong as I did twenty years ago, and I know that this is all due to your woman's friend, Lydia E. Pinkham's Vegetable Compound. I used it before my children were born, and it greatly assisted nature and saved me much pain during the change of life. I took it off and on, for four years, and had but little trouble and sickness that most women have to endure.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Powless and Mrs. Mann, it will do for other women at this time of life. It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

Compound Succeeds Where Others Fail.

RIOT AND ANARCHY

MOORISH TROOPS LOOT DEFENCELESS TRIBES.

Women Violated and Children Carried Off For Sale to Highest Bidder.

Tangier, Feb. 22.—It may be said of the situation in Morocco that the more it changes, the more it remains the same thing.

Raisuli's stronghold in the hills of Zinat is destroyed, but the brigand himself has got safely away, and it is said in more quarters than one, that he has friends at court who are by no means anxious that his career should be brought to a close.

The "regular army," its professional labours ended, settled down to its favorite occupation of looting, and far from being content with picking up what it could be seized in Zinat, it raided the neighboring villages, violated women and carried off children of both sexes to sell to the first bidder, killing all who attempted to interfere with them.

Commissariat arrangements hardly exist in the Moorish army, as an expeditionary force is supposed to live upon the villages through which it passes. The progress of the sultan's soldiers through the country round Tangier has deepened the feelings of abhorrence that are never very far from the minds of the hill tribes.

It is a significant fact that Europeans are warned against going outside the town after sunset. Soldiers have straggled back from the hills to sell loot openly in the streets of Tangier, and much of this property has been stolen from innocent villagers who were in no way associated with Raisuli, though some were killed, and others were sent in chains to Tangier to make "the bag" look larger.

The situation is as bad as ever it was before the conference, and means at the disposal of France and Spain are totally inadequate to restore order.

INCIDENTS OF THE DAY.

Newspapers Picked Up By Reporters at Their Rooms.

Try Bibby's special \$1 sweaters. Glasses that satisfy. Dr. Chown's. The fire brigade has not had a call for over two weeks.

50c. Tape Girde corsets for 35c. New York Dress Reform.

Free samples of Zam-Buk, the great healer, at Best's, 10th and York, at the royal rink, Friday night, 10th and York, good prizes.

2 bottles for 25c. Gibson's Red Cross cough syrup. It cures any cough.

New collars, two for 25c. Bibby's. This week has been very quiet in police circles, only two cases coming before the magistrate.

Chown's for perfect fit in glasses. E. J. Reid has awarded Morley & Free the contract for refitting his undertaking rooms.

The Rovers and the Central school boys are booked to play hockey on the Zion rink this afternoon.

Dr. Shoon's preventive for colds and grippe, 50c, at Gibson's Red Cross Drug Store.

Try Bibby's special \$12.50 suits. The city council on Monday evening will have the proposed plumbing by-law before it for discussion.

Tell your eye troubles to the expert optician at Chown's Drug Store.

The process from the tea, in all of the general hospital, held at Mrs. James Hendry's, now total \$200.

Try Bibby's new \$1 shirts. Tobogganing at the fort hill, is now on in earnest. Last night there was a large crowd in attendance, and the hill was in fine shape.

Sale of stockings, worth 35c, for 25c. Underwear fleece lined, also all kinds of underwear of every description, at the greatly reduced, New York Dress Reform.

Try Bibby's special \$1 trousers.

MAKE A PROTEST

Against the Modus Vivendi Arranged.

Halifax, N. S., Feb. 22.—The legislative council, the upper house of the Newfoundland legislature, has adopted, by a vote of eleven to two, an address of thanks for the British secretary of state for the colonies, protesting against the modus vivendi arranged, last October, between the British and American governments, for the regulation of the horring fishery on the west coast of the island.

The lower house adopted the same address, last week, by a vote of twenty-three to three.

The address, which will be presented to the governor, to-morrow, for transmission to London, sets forth that the modus vivendi was agreed upon by the two governments without the British officials consulting the Newfoundland government or endeavoring to learn the views of the residents of the colony.

TO MAKE RULES

For the Navigation of the Detroit River.

Detroit, Mich., Feb. 22.—A Washington special says the war department has acceded to the request made by the Lake Carriers' Association to make a set of rules for the navigation of the Detroit River, at the narrow channel known as the Line Killee, crossing at Amherstburg, which will compel vessels to move up and down the channel in single file and not to attempt to overtake or pass each other within certain boundaries. The government will station a patrol boat there, under command of an army officer, to patrol and police the channel. Passenger vessels will have privileges not given to freighters.

Should Make Enquiry.

It was only a few months ago that Ald. David Givens publicly complained of the license inspector of Kingston doing an insurance business while holding a government job. A similar condition of affairs is under review in Toronto, the man concerned, however, being a license commissioner. He said business had improved since he was made a commissioner. Ald. Givens should enquire if a similar advance in business has resulted here.

ROAD REBUILDING.

What City Engineer Beckwith Reports and Advises.

The following is the report made by City Engineer Beckwith to the board of works on the question of road-rebuilding.

In accordance with your instructions I beg to submit a further report on the making-up of the streets.

Twenty blocks can be made up with ordinary limestone macadam for \$15,000, or about \$750 for a block 330 feet long. This includes reforming the foundation and putting on six inches of rolling macadam and a concrete water channel. About thirty blocks could be done if no concrete water channel is included, but I consider this one of the most essential parts of a good macadam road, as it allows the water to quickly run off, thus giving the road a chance to dry and prevents soft parts forming, which quickly get up by traffic and start the destruction of the road.

I am of opinion that on the residential parts of the city where there is hardly any traffic, ordinary macadam, considering the small cost at which it can be procured, can be used to advantage, but in the centre of the town and in those streets where there is a good deal of traffic, something more permanent should be put down.

The great trouble with the limestone is the different grades of durability. Some being much softer than others it is almost impossible to obtain any quantity of the same grade. Consequently, roadbeds of this material under traffic soon become uneven, as the soft grades wear away quicker than the harder kinds and leave hollows, which, as soon as any rain falls, get filled up and the water, not being able to get away, soon makes very soft places, which cut up by the least traffic.

In the states for treating the roads, there is a coal tar preparation called "tar mac," which is used with surface of macadam roadbeds at a very small cost, and I would suggest that your committee give it a trial on one block, as it is very satisfactory here it would be of great advantage in maintaining good streets.

For the centre of the city, where there is much traffic, we should either bitulithic or tar macadam. Bitulithic is really a better grade of tar macadam, but is somewhat expensive, its use being covered by purchase of the same.

In Ottawa special attention has been given and experiments made with tar macadam, and it has, under the latter specification, proved quite satisfactory. The stone used is practically the same in Ottawa as Kingston, so that it should also prove satisfactory if used.

I would strongly recommend, as in my report made last year, that if possible, before a by-law is submitted to the people to borrow the money to make the roads, the council be asked to vote a sum of \$5,000, and that one block of tar macadam be put down in the centre of the city, and that residents of the streets two or three blocks made with ordinary macadam, one being treated with tarvia.

The people will then be able to see better what the cost of the roads is, and what the results of the use of such a large amount of spent, and will vote on the by-law accordingly.

SHOT BY MILLIONAIRE'S WIFE.

Chicago Art Dealer Dies at Hands of Woman.

Chicago, Feb. 22.—Louis Fisher, thirty-eight years of age, an art dealer, was shot to death in his office, today. A fashionably dressed woman was arrested. The woman and Fisher are said to have quarrelled and later a shot was heard. She is declared to be holding a revolver in her hand while she was in the office.

The woman was later identified as Mrs. F. J. McDonald, the wife of Michael C. McDonald, a former prominent democratic politician and a millionaire. When she appeared at the office to buy a pair of shoes, she was ordered by her office boy to go away for a while.

The dead man later was identified as Walter S. Fisher, who lived in the city street. He also used the name of Fisher.

ONTARIO BANK DIVIDEND.

Shareholders Will Have to Wait Two Years.

Toronto, Feb. 22.—When asked what period of time was likely to elapse before definite information was given the shareholders of the Ontario Bank as to the result of liquidation of the Bank of Montreal, a spokesman of the Bank of Montreal stated that it would probably be two years before actual conditions were made known. He would venture no assurance as to when the shareholders would be called upon to vote on the liquidation of the bank.

NEWS OF DISTRICT

LOCAL NOTES AND THINGS IN GENERAL.

The Tidings From Various Points in Eastern Ontario—What People Are Doing And What They Are Saying.

Jonas Steacy, Athens, has a severe sickness. E. T. Wilkie, C.E., Carleton Place, is at present engaged surveying and preparing plans for the proposed railway line.

The friends of W. R. Beale, Athens, in Toronto for treatment, will regret to hear that he has had to have one of his eyes removed. Miss Gerie Knowlton, Athens, who recently underwent an operation for appendicitis, at Brockville General Hospital, has returned home.

Anna Barbara Zimmerman, wife of Charles P. Gieson, Lanark, passed away last Friday night and the whole community is heavy with sorrow and regret. Mrs. Silas F. Morris, a young married lady, who passed away at Burnston last Sunday at the early age of thirty-one years.

At Burnston, on February 12th, a happy event took place in the celebration of the twenty-fifth anniversary of the marriage of Mr. and Mrs. William McFarlane. All the children were present.

At Tweed on February 20th, William Herbert Hinesby, of Waskada, Man., was united in marriage to Miss Bertha Black, of Tweed. The young couple left immediately for their home in the west.

A pretty wedding took place on February 12th, at the home of Stewart Baird, when their second daughter, Agnes J., was married to James A. Proven, a prosperous farmer from the vicinity of Arver, Sask. Willie, the eight-year-old son of George S. McNeill, Tatlock, has been suffering since last fall with an affection of his ears, resulting in considerable suffering and partial deafness. Treatments of all kinds, skilled and unskilled, failed to bring relief. His ears were treated with a molten seal, coated with wax, emerged from the ear.

SAFETY PINS—all sizes, worth 5c. paper. On Sale, 2 papers for... 05

HOOKS AND EYES—in black and white, worth 4c. card. On Sale, per card... 02

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the Northwest Provinces, excepting 9 and 20, not reserved, may be homesteaded by any person the sole head of a family, or being over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry or for pre-emption must be made in person by the applicant at the office of the local Agent or Sub-Agent.

An application for entry or inspection made personally at any Sub-agent's office may be filed to the local Agent by the Applicant, and if the latter, applicant, is absent on receipt of the telegram such application will be held until the necessary papers to complete the transaction are received by mail.

In case of "pre-emption" the entry will be summarily cancelled and the applicant will forfeit all property claim.

An applicant for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

Where an entry has been in good standing and not liable to cancellation, may, subject to approval of the Department, be cancelled in favour of father, mother, son, daughter, brother or sister, if eligible to be one such, on filing a declaration of abandonment.

Where an entry has been summarily cancelled or voluntarily abandoned, subsequent to institution of cancellation proceedings, an application for inspection will be entitled to prior right of entry.

An application for inspection will state in what particulars the homesteader is in default, and if an application for inspection is found to be incorrect in material particulars, the applicant will lose his right of pre-emption should the land become vacant, or if entry has been granted it may be annulled, pending the duties a settler is required to perform the conditions under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father or mother (or mother if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for by such homesteader the requirement as to residence may be satisfied by the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement may be satisfied by residence upon such land.

(4) If the settler is a tenant farmer, the settler must give six months' notice in writing to the Commissioner of the Dominion Lands at Ottawa, of his intention to do so.

WEST MINING REGULATIONS. (1) Coal Lands may be purchased at \$10 per acre for each coal and \$20 for anthracite. Not more than 320 acres can be purchased by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the output.

Quartz—A free miner's certificate is granted upon payment in advance of \$5 per annum for an individual, and from \$25 to \$100 per annum for a company according to the number of men employed. A free miner, having discovered a vein of gold, may locate a claim 1,500 feet.

The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or held in the recorder in last thereof. When \$500 has been expended or paid, the locator may, upon having a survey made, proceed to comply with other requirements, purchase the land at \$1 per acre. The patent provides for the payment of a royalty of 24 per cent on the value of the mineral output, and 100 feet square claim—\$5, 250 square feet—\$10.00.
