THE BEST FRIENDS OF PE-RU-NA ARE THE MOTHERS OF CHILDREN

Per-na Should Be Kept In Every Household

Where There Are Little Children.

Per-na should be kept in the house all the time. Don't wait until the child is sick, then send to a drug store.

Children are especially liable to acute catarrh. Indeed, most of the affections of childhood are catarrh.

All forms of sore throat, quinsy, croup, hoarseness, laryngitis, etc., are but different phases of catarrh.

Per-na Contains No Narcotics. One reason why Per-na has found permanent use in so many homes is that it contains no narcotic of any kind.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh.

Mr. F. Brookman, 818 Meade street, Appleton, Wis., writes: "I have never had a return of the catarrh, which had made me so miserable and unhappy before I began taking Per-na."

"I would not be without it in the house, now."

"I have a baby boy, two years old, to whom I give Per-na for a cold, and my husband also takes Per-na."

"I thank you and wish you well."—Mrs. F. Brookman.

No Doctor Required. Mr. Edward Otto, 227 De Soto street, St. Paul, Minn., writes: "I cannot say enough for Per-na. It has done great work in my family, especially for my oldest boy. We had doctored with three or four different doctors and they did not seem to do him any good."

"We gave up hope of cure, and so did they, but we pulled him through on Per-na."

"We had several doctors and they said they could do no more for him, so we tried Per-na as a last resort, and that did the work. Since then we use Per-na in the house all the time, and no doctor is required."—Edward Otto.

There are a multitude of homes where Per-na has been used off and on for twenty years.

Such a thing could not be possible if Per-na contained any narcotics.

The Benefit Which the Children of the United States Have Received From Per-na Can Never Be Put Into Words.

The chronic ailments it has prevented, the suffering it has mitigated, will never be fully recorded.

But at least this much can be said that the coming generation owe a great debt to Per-na, for it is in the tender years of youth that slight ailments are liable to develop into lasting diseases, thus blasting the whole career of the individual.

The mothers who are bringing up their children to-day to believe in Per-na are speaking from their experience.

These children brought up to believe in Per-na from the start, will, when they become heads of families themselves, use Per-na with unquestioning faith.

Mrs. J. C. Sterling, 132 Brown Avenue, Norfolk, Va., writes: "My little boy, Meredith, suffered with indigestion so badly he could not eat anything without it making him very sick, so I thought (as many others have) that I would try Per-na, and it worked like a charm."

"Now he eats anything he wishes, and I would not be without it for anything."

"My other little boy, Alfred, two and a half years old, has taken it and received as much benefit from Per-na as his brother."

"I hope my testimonial may be of some benefit to others, as I feel as though I cannot praise it enough."—Mrs. J. C. Sterling.

Mr. Howard Andrew Sterner, Muddy Creek, Pa., writes: "I have Per-na in my house all the time and won't be without it. It is good for children when they take a cold or croup. It cured my baby boy of croup."

"I have introduced Per-na into six families since I received your last letter, and four have seen relief already."

—Howard Andrew Sterner.

Per-na Protects the Entire Household. As soon as the value of Per-na is appreciated by every household, both as a preventive and cure, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of catarrh will be prevented.

A Child's Life Saved. Mr. G. H. Farmer, New Martinsville, W. Va., writes: "Our little son, Harry, is well and healthy now and we think if we do as you directed us, he will keep his health and grow strong."

"We know that our little son's life was saved by your wonderful medicine, Per-na, and we shall always praise Per-na and use it in our family when needed."

"Should we have any more catarrhal trouble in our family, we shall always write to you for treatment."—G. H. Farmer.

FINDS NEW STARS.

Miss Annie J. Cannon

"It is all in the day's work," Miss Annie J. Cannon will remark, inconspicuously, when anyone congratulates her upon the fact that her record in scientific work includes the discovery of a new star.

Announcements of the discovery of new stars are not accepted by scientists. There must be long and patient observation to verify the claim.

Official verification of Miss Cannon's discovery has come only after several years of such investigation.

Connected with the photographic research department of the Harvard Observatory, it is not part of Miss Cannon's duties to sweep the heavens with a powerful telescope in search of new stellar worlds.

As the discovery of what is now officially designated as Nova Ophiuchi No. 3 was made while the young woman was examining photographic plates of the heavens, this enrichment of science, was really, as she puts it, "in the day's work."

Since her discovery has been officially verified and Nova Ophiuchi No. 3

HOW'S THIS? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDEB, KINMAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

NATURE SPARES.

The Stricken Rose From Grief. What a fortunate provision of nature it is, that deprives the rose of mental suffering, for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable storehouse of blessing rewards for those who seek her aid in the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ, or parasite that burrows into the hair follicles. Nembro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c. and \$1. G. W. Mahood, special agent.

Rare Heroine.

Toronto Globe. The burning of the Protestant school at Hochelaga, near Montreal, was the occasion of a manifestation of heroism as sublime as it has ever been the privilege of a woman to exhibit.

The school was under the charge of a lady principal, Miss Sarah Maxwell. After assisting the other young lady pupils on the lower floors, she went alone to the third floor to save the little ones in the kindergarten department. The place was already stifling with heat and smoke, but she succeeded in hauling out all, except sixteen, when her strength failed, and soon afterwards she was taken out dead with the little ones for whom she had deliberately given her life.

There is in such an incident a redemption of pain that enables a sympathetic community to endure the awful tragedy, and helps even the bereaved parents to submit with resignation to their unspendable loss. Miss Maxwell has erected for herself a monument more enduring than brass, but the community to which she belonged with heat and smoke, but she succeeded in hauling out all, except sixteen, when her strength failed, and soon afterwards she was taken out dead with the little ones for whom she had deliberately given her life.

Following this came a greater piece of work, the complete bibliography of all the variable stars which she had recently completed.

This work was begun by Professor Reed, who wrote some 15,000 cards for it. It has since been continued by Miss Cannon, and now contains some 34,000 cards, each giving a complete detailed history of every star.

"New" or "temporary" stars are phenomena of rare occurrence. According to a noted authority "but few undoubted examples of the class are recorded in the annals of astronomy."

Some "new" stars, it is thought, have been simply variable stars of irregular period, while others, doubtless, have been the result of collisions in the heavens.

GANANOQUE DEATHS

DAVID J. REID A PROMINENT CITIZEN. Passed away on Thursday Evening—A Man Fined For Cruelty to a Horse—A Railwayman Married.

Gananoque, March 1.—At the Maple Leaf rink, the high school girls defeated the Selects in a friendly game of hockey. R. D. Kende acting as referee. The score was 3 to 1.

On Tuesday evening last the home of Mr. and Mrs. John Hubbard, King street, was the scene of a very pleasing event, the occasion being the marriage of Mrs. Hubbard's sister, Miss Lillian E. Knight, to Thomas H. McElmott, of Brockville. Rev. W. H. Lipscomb performed the ceremony. The young couple left for their trip west. On their return they will locate in Brockville, where Mr. McElmott holds a position as baggage-man with the C.T.R. Co.

Joseph Dunton passed away at the residence of his parents, Mr. and Mrs. J. Dunton, on Wednesday evening last, in the seventeenth year of his age. The funeral took place today at 9 a.m., to Brewer's Mills cemetery.

David John Reid passed away on Thursday evening, in the sixtieth year of his age. Deceased was a son of Mr. and Mrs. Thomas Reid, and leaves two brothers, T. C. Reid, of New York, and W. J. Reid, of Gananoque, and two sisters, Mrs. William McLellan, and Mrs. Harvey Stewart, both of Gananoque, also a wife and four daughters. Mr. Reid was for many years active in municipal matters at the council board and in connection with Ancient Order of United Workmen. He was also a member of the Royal Arcanum and Forsters. In partnership with Messrs. William McLellan and O. J. Shaneman, he was for many years one of the milling firm of McLellan, Reid & Shaneman.

Cured her Father's Drunkenness by a Simple Remedy. Her father from a drunkard's grave, free from the taint of Samarra's Taintless Prescription checks his drinking and leads to a complete cure.

PATHETIC PLAINT

DAUGHTER OF KING DEEPLY IN DEBT.

Princess Louise of Belgium in Difficulties With Many Creditors in Paris.

When Sickness Comes to the Little Ones It is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick. Her sympathy is deeper than that of any other member of the family.

The mother looks forward with dread to the torrid heat of summer, thinking of her children and the many liabilities to disease that are before them.

Spring and summer are sure to bring ailments, especially among the little folk.

It does not take a mother very long to discover that Per-na is the best friend she has in time of illness among the children.

A Multitude of Mothers Have discovered that Per-na is their stand-by, and that in many of the ailments of spring and summer to which the children are subjected, Per-na is the remedy that will generally quickly relieve.

Whether it is spring fever or stomach derangement, whether it is indigestion or bowel disease, a catarrhal congestion of the mucous surfaces is the cause.

Per-na quickly relieves this condition of the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effects in any part of the body.

It simply removes the cause of the disagreeable symptoms and restores the health.

Every mother who has not tried Per-na in her family should familiarize herself with Dr. Hartman's booklet, The Ills of Life. This booklet should be in every family. It gives most valuable advice as to the use of Per-na for the various catarrhal diseases so general to-day.

Per-na is a household remedy for all catarrhal ailments of winter and summer, acute or chronic.

The mothers all over the United States are the best friends that Per-na has.

The Mothers Hold Per-na in High Esteem. Not only because it has cured them of their various ailments, but because it promptly restores the children from the throes and grasp of catarrhal diseases.

We have in our files many testimonials from mothers whose children have been cured by Per-na. However, the large majority of mothers who use Per-na, we never hear from.

But we do hear from a great number of mothers who are so overjoyed at some special good they have received from Per-na, that they cannot restrain their enthusiasm. They are anxious to share these benefits with other mothers.

The funeral will take place on Saturday afternoon and will be conducted by Gananoque lodge, No. 247, A.O. U.W.M.

Albert Cowan was arraigned in the police court to answer to a charge of cruelty to animals in allowing his horse to stand for several hours without proper care. He was fined two dollars and costs.

Two sleigh loads of Daughters of Rebeccah drove over from Clayton, Friday afternoon on invitation from Harmony lodge, of this town, to assist in a pleasant social evening, after the regular session of the lodge, a supper was served by the local sisters.

Miss Fanny Balfour Timberlake entertained the members of the choir of Grace church at the parsonage, on Thursday evening. Mr. and Mrs. Robert Orser, South street, entertained a number of their friends at their home on Thursday evening. Mrs. Frederick C. Skinner, King street, held a reception at her home on Thursday afternoon.

Mrs. Henry Johnston, of Iroquois, is spending a short time with her daughter, Mrs. J. S. Webb, of James Root, of Montreal, spent Wednesday in town with his parents, Mr. and Mrs. Gilbert Root, Brock street. Maj. John B. Robinson spent a few days this week in Ottawa on business. T. C. Reid, of New York, spent a few days this week at the bedside of his brother, D. J. Reid, since deceased.

Miss Hattie McNickel is assisting on a short holiday season in Belleville, the guest of her sister, Mrs. J. N. Miller.

Hockey At Sydenham. Sydenham, Feb. 28.—The swiftest game of hockey played here this year, was seen when the members of the Sydenham high school team trimmed the Stricks and Straws of Bailey's broom factory, Kingston. The Kingston men were a heavier bunch on the whole, but the superior combination of the school boys more than counterbalanced this advantage. The score at half-time was 3 to 0 in favor of Sydenham. The second half was a repetition of the first; again the combination work of the victorious team told and three more goals were added to the conquerors' score. During this half the visitors' goalkeeper, King, caught Letch sleeping and scored on a very long shot, leaving the score 6 to 1. The teams were: Kingston—Goal, Springs; point, Walker; cover-point, King; rover, Herbert; centre, Hughes; wings, Walker and Gowen.

Sydenham—Goal, Letch; point, Brezoz; cover-point, Leacock; rover, Van Blakeslee; centre, Darling; wings, N. Blakeslee and Lacey. Referee—Tilson.

Going To Japan. T. H. Billings, M.A., of Queen's, a son of Bruce Billings of Brookville, will leave in a few days for Japan as the representative of the Canadian students at the World's Christian Student Federation Convention, to be held at Tokio from April 2nd to 7th.
