science. Curling has taken a firm

hold upon its votaries, and has drawn

narrative, poetry and anecdote.

The history of curling is given in large volumes, in which the etymology, history and literature of the

game have been treated exhaustively.
A cold climate and man's inherent

tendency to throw stones make the foundation of the game, but its ori-

gin, like other origins, is uncertain. Though the game has been scientifically developed in Scotland, it had

its origin probably in the Netherlands,

which have had a great influence on

the arts and industries of Great Bri-

probably brought over to Scotland

In Scotland the laird and the minis

ciations of the game are honorable,

and it has been noted that the char-

acter of curlers in public and proessional life is kind and honest.

The first type of stone used was the kutting stone, without handles, with

a hollow or notch for the finger and

"The Perfect Food"

## Now 10 cts.

Halfa-Vita "The Perfect Food," malt life, as its name implies, stands for that intense vitality that results from the daily use of a food skilfully prepared from the whole of the wheat, of which, after being cooked, each kernel has been subjected to the searching digestive action of the diastace and other enzymes of barley malt. This makes it a "predigested" food of highest nourishment value, which explains the remarkable results obtained in cases of nervous debility decorated stampeds and constinution. Resides it is the best debility, deranged stomachs and constipation. Besides, it is the best

"We have used several boxes of Malta-Vita and think it the finest food we have tried yet. Having used different kinds, we find sinked like has a flavor could-cat without being distressed. He had, since birth, been a constant sufferer we began feeding him Malta-Vita he has improved wonderfully in health and is entirely cured of constination. In fact, myself and husband realize a great benefits since using the food, as we have suffered from general debility. We find it fure Food Co.,

MAITA-VITA is a food with a "taste." It does not belong to the tasteless variety of "flaked foods" and too great credit cannot be claimed for Maita-Vita on present in a proportion exceeding eight per cent and sometimes ten per cent. This is a healthy, digestible sugar, formed by the action of the malt diastase upon starch and it causes the stomach no inconvenience. This is not the case with flaked foods that are sweetened by came augar, beet sugar, maple sugar, boiled cider, glucose or grape sugar, as all these cause acidity in the stomach and are seriously injurious.
