SILVER BIRD.

About eighteen months ago there were several Cobalt companies organized, and their shares offered for subscription in Cobalt and near-by towns. Many of the laborers, clerks and other wage-earners, being on the ground, manifested their faith in the camp by placing their earnings in sums varying from \$100.00 to \$1,000.00 in these shares. There is not a single exception known where these shares have not advanced from 100 to 10 times the first price. This seems almost like a fairy tale, but it is the truth. There are many men who can be seen every day walking about the uneven streets of Cobalt who eighteen months ago were known as common day laborers, working for \$2.00 per day, who are now actually working from \$50,000.00 to \$100,000.00, all gained from pinning their faith in Cobalt and placing their savings in Cobalt mining stocks.

We are now offering for public subscription the first allotment of 200,000 shares at the low price of 15 cents per share. Now, just think of it! Compare this price with the price of the Colonial, only a stone's throw away, now selling at \$3.50 to \$4.00 per share, at a valuation of about four million dollars. Compare it also with the stock of the Right of Way, selling at from \$7.00 to \$8.00 per share. If the O'Brien mine was an incorporated Company to-day and offered for sale its stock would undoubtedly bring on the open market \$10.00 to \$12.00 per share on the capital of a million and a half. We have been informed from a trustworthy source that the ore blocked out and in sight in the Timmins mine is estimated at from \$10,000,000 to \$15,000,000. We venture to say that if this property were incorporated for \$10,000,000 and placed upon the market, it would sell for \$2.00 per share. It should be understood that we are in no way endeavoring to depreciate the values of the Colonial, Right of Way, O'Brien or Timmins stocks or properties, for, indeed, we believe they would be bargains at those prices and valuations. We are only endeavoring to show that Silver Bird, which is located in close proximity to these mines, is at

15 CENTS PER SHARE

In comparison with those valuable properties, positively the greatest and best purchase that has ever been offered in the Cobalt camp. The safest and best purchase in the whole Cobalt camp to-day, considering capitalization, location, work done, results obtained, and price of the stock. There has never been a stock offered in the Cobalt district, from the opening up of the camp to the present day, that could compare with it when taking these points into consideration. Silver Bird is situated directly in the centre of the most active operations, and is surrounded by some of the most wonderful producing silver mines the word has ever known.

One of the highest recommendations for the shares of Silver Bird is the fact that the investors at Cobalt and Haileybury are buying heavily of these shares. Within the last several days we have received orders from investors in that section for more than 40,000 shares. The employees of the Nipissing, the O'Brien and the Red Rock are buying these shares. Silver Bird is situated between and close to these mines, and these miners should know what they are buying.

Now, just consider for a moment! Here are men right on the ground, employed on the properties that surround and are in the immediate vicinity of Silver Bird, placing their money in these shares at the present market price—15 cents. THESE MEN ARE MINERS. They know the property. They can see Silver Bird every day. They are in a position to know whether these shares are a bargain or not. It is no trouble to see the property, as it is only about 15 to 20 minutes' walk from the railway station or postoffice at Cobalt to the Silver Bird mine.

Many people are visiting the property, and we do not know of one exception where they have not purchased these shares after once examining Silver Bird. Just recently a gentleman claiming to be a mining engineer and mineralogist came into our office, stating he was just from Cobalt and had made an examination of Silver Bird Property. He placed his order for 20,000 shares for himself and friends. This speaks for itself!

Now, a word to investors: Buy the shares of Silver Bird at the present first allotment price of 15 cents. Buy all you can of these shares. Place your faith in the most wonderful mining district the world has ever known. Back it up with all the money that you can see your way clear to invest. You will never regret it, but will always rejoice.

WATCH Silver Bird.

Silver Bird will be paying dividends equal to its present purchase price within the next year on every share of its stock. Invest your money in Silver Bird, the greatest bargain that has ever been offered in the Cobalt camp.

FACTS
We have been asked by brokers and mining men who are interested in properties at Cobalt: Why do you sell Silver Bird at 15 cents? It looks to us too cheap; you might as well sell it at 30 or 40 cents; it would sell just as fast, and would not be too high. Our answer to all has been: We are strongly recommending Silver Bird as the best investment that has been offered in the Cobalt camp. We are saying to our friends and clients: It is worth more money; it is sure to advance, etc.

We want to be able to meet these friends and clients of ours in six months face to face; we want them to smile and give us the glad hand. We want them to say to us: "You gave us the right advice on Silver Bird; you have made us some money." "We want you to do all our brokerage business." That is why we are selling Silver Bird at 15 cents, and the reason it is meeting with such a big sale is the more Silver Bird is investigated the more evident it becomes to investors that we are not misrepresenting, but giving them

FACTS
Within the past year you could have purchased Buffalo Queen at 80 cents, and that if you had done so you could now sell it at \$2.10? Don't you remember that you could have bought Buffalo within the past year at \$1.00, and if you had a few shares of it to-day you could sell it at \$3.50 per share without any trouble? And now, again, don't you remember the Temiskaming & Hudson Bay Company offering their shares at 40 cents and begging the dear public to take it? Perhaps you didn't buy any of it, but if you did you could get \$200.00 to-day for every 40 cents that you put into it? Now, again, it has only been some two or three months since you could have bought Nancy Helen at \$1.00. Perhaps you have some of it. If you have you can get \$2.50 per share for it to-day. Less than one year ago you could have got Nipissing at \$4 per share, and if you had it to-day you could get \$12.00 per share. The same can be said of the Colonial, the Right of Way and other shares. If you had bought them at their first issue you could sell them to-day at from 300 to 700 per cent. advance. If you have not got any of these stocks referred to above, perhaps it is because some wise friend or neighbor advised you not to buy. Perhaps you went to some good and wise friend and said, "What do you think about buying this stock or that stock?" Perhaps he said to you, "Well, I don't know about this Cobalt proposition; there may or may not be silver up there. If I were you I would not buy." Now, are you going to go to your friend again and ask him whether you shall buy some of the first issue of Silver Bird at 15 cents per share, or are you going to back your own judgment? Here is the cheapest and best buy that was ever offered in the camp, and at the first issue price of 15 cents per share—inside property as much so as were any of these other companies of which we have written at the time they were placed upon the market. Use your own judgment. Be your own money-maker. Don't discount your own business ability. Your own judgment will tell you that Silver Bird is a purchase. Look at the map and see where it is. Your own judgment will tell you it is bound to advance in price. Why hesitate longer? Why not get in on the ground floor and make some money? The first allotment of 200,000 shares is not going to last forever, the way it is going. The best evidence as to whether Silver Bird is a bargain or not is the fact that we are receiving many reservations from Cobalt. We want to call to your mind this fact: If you had placed \$500 in Temiskaming & Hudson Bay at its first issue price of 40 cents per share you would now have the neat little fortune of \$250,000 at the present market value, and still, if you had bought \$500 worth of this stock at 40 cents per share, per-

This map shows the operating and working mines in the most active portions of Coleman, Buck and Lorraine Townships. While the lot and concession lines are not marked, the shaft houses indicate most accurately the exact location of the working mines. The map is drawn on the same scale and in accordance with the official map of the Cobalt district. Silver Bird will be found in the centre of the map. There are other mines North, South and West, which do not show on this map, our purpose being to show the location of Silver Bird and other properties surrounding and adjacent thereto.

SILVER BIRD is surrounded by the greatest producing mines in the Cobalt District.

SILVER BIRD is absolutely inside property, consisting of twenty acres (patented), being the west half of the north-east quarter of the north half of lot 8, concession 8, Coleman.

SILVER BIRD is a mine in full operation, with two 25 h. p. boilers, steam hoist, steam drills and all machinery and buildings necessary to complete an operating mine.

SILVER BIRD is working two shifts and is in full operation both day and night, sinking upon three veins, all in the same formations identically as in the O'Brien, Timmins and Right of Way mines, and lying immediately between these mines and the Green-Mountain, Red Rock, Cobalt Contact and Nipissing Extension. The veins are broadening out and increasing in value with depth now 40 ft. in shaft.

SILVER BIRD has no indebtedness; there are no incumbrances against the property or stock of the company. The capitalization of THE SILVER BIRD CO. LIMITED is \$1,000,000, but value of the shares \$1.00 each, fully paid and non-assessable with 100,000 shares in the treasury. The first allotment of 200,000 shares are reserved to the public for subscription at 15 CENTS PER SHARE.

Considering the inside location of the property, development done, results obtained, low capitalization and the large amount of shares in the treasury, this is unquestionably one of the best bargains (if not the greatest bargain) that has been offered in Cobalt mining shares.

We predict this first allotment will be largely over-subscribed, and we urge the early application be made.

To guard against over-issue and to guarantee to investors the genuineness of the certificates when issued—also the prompt and safe delivery of same—arrangements have been made with the Trusts & Guarantee Company, Limited, 14 King street west, Toronto, to act as Transfer Agents and Registrars.

Orders may be telephoned or telegraphed direct to Law & Co., Traders' Bank Building, at the expense of Law & Co. Applications and remittances, however, should follow by mail direct to the Trusts & Guarantee Company, Limited, 14 King street west, Toronto.

perhaps your legal adviser or your kind, wise neighbor or friend would have laughed at you at the time you purchased it, and told you you had thrown your money away. Now, don't understand us as inferring that by putting \$500 into Silver Bird it will be worth \$250,000 within the next year. We don't mean to say that. Of course, it is possible, but we don't claim it will positively do it. We are only drawing an example of how foolish it is for one man who thinks an investment is a good one asking another man, who knows nothing at all about the investment whatever, whether he thinks it would be well for him to make the investment. We know from personal knowledge that many investors have been kept from investing in the first issues of Cobalt stocks, and who would have made thousands of dollars simply because some one else advised them to keep out of it. We claim that the greatest profits are made by investing when the first issues are first placed upon the market. Now is the accepted time and the golden opportunity in Silver Bird. We firmly believe that Silver Bird will sell in the open market within the next six months at a dollar a share or more. We have come to this conclusion after having had the property thoroughly examined by competent and able mining men of years of experience. Silver Bird will never sell a penny less than it is offered to-day.

We have mentioned the great advances that occurred in Temiskaming & Hudson Bay, in the Nancy Helen, McKinley-Barragh, Silver Queen and the Buffalo. We want to call your attention to the fact that Silver Bird is not as far away from the original discovery made by La Rose, on the railway at the point known as the Timmins mine, as these properties are. Let us again call your attention to the fact that Silver Bird is on a direct line with these properties and other properties that have developed far beyond the Silver Bird.

There is no question about it! This is one of the greatest opportunities, taking everything into consideration, that has ever been offered in the Cobalt camp.

Don't get the foolish idea that there is going to be any permanent depreciation in Cobalt mining shares or properties. Cobalt is only in its infancy. Within the present year Cobalt is going to see the greatest boom it ever had—for that matter the greatest boom that has ever occurred in mining shares on the American continent. Every indication points to this; besides, the development and production justify this assertion. The deeper the shafts are sunk the richer the ore becomes. The older the camp the further the developments are spread out from the original discovery.

We believe that NOW IS THE TIME TO MAKE MONEY IN COBALT, and within the coming year our judgment will be fully carried out in this respect.
