FOSTER CALLED ATTENTION TO A LETTER.

The Best Agency to Administer Industrial Co-operation—Seeking to Get the Details of the G. T. P. Statement Put in to the Department For Construction Expenditure.

From Our Own Correspondent.

Ottawa, March 13.—No fewer than six members of parliament died since this session began—an unprecedented number. Yesterday, Thomas Martin, M.P. for North Wellington, passed away, after an illness of considerable duration, though he had only been in the hospital for a week. He suffered from jaundice and last Friday was operated upon for gall-stones. After the operation he seemed to rally, but the improvement was short lived and he gradually succumbed to the disease. Mr. Martin had only been a member of the House of Commons since the last general election in 1904, when he was elected as a government supporter. The last time he took part in a debate in the house was when Mr. Blain's cigarette resolution was under discussion. He was fifty-six years of age and was born at Fergus, Ont.

Sued For Telling a Lie.

New York, March 13.—Wall street has had a bit of astonishment. Here's a suit brought against a prominent man which has pointed out the fact he told a lie. The man is no less a personage than Charles W. Morse, and the charge is made by three citizens of Massachusetts, who claim that Morse did not keep his agreement, and also that he abused the property they turned over to him. It is probable that Morse was also astonished at having such an accusation made about himself. Mr. Morse, however, has not brought to book for them. If the thing spreads there will be a great overturning in Wall street.

May Go On Stage.

Des Moines, Iowa, March 13.—Miss Dolly Vernon Cash, the winner of the beauty prize, given by the Daily News, of Des Moines, is considering an offer from "The Man on the Box," to go on the stage. The offer is \$25 a week, and was drawn out by the girl's beauty, which struck the manager very decidedly. She has been offered the part of Mrs. Conway, Betty's friend. She was very solicitous to learn whether a girl could go on the stage and keep straight.

Hoag, at last, having behind him all bridges leading to a lunacy commission and has irrevocably pointed his course toward proving that Thaw was sane the night he shot and killed Stanford White, and that being sane, crime constituted murder in the first degree. A BIG BLOW UP

Over Eighty Blue Jackets Killed.

FRENCH BATTLESHIP

BODIES WERE HURLED THROUGH THE AIR.

Toulon, March 13.—The blowing up of the powder magazines on board the French battleship Ionia, yesterday afternoon, resulted in the death of Capt. Adigard, the vessel's commander. Capt. Verrier, chief of staff of the Mediterranean squadron, and from seventy-five to eighty blue-jackets, and frightful injuries to Rear Admiral Maneyron and hundreds of other men. Practically the entire after part of the Ionia was blown to pieces.

The bodies of the victims were hurled through the air by a succession of explosions, and the panic-stricken workmen at the arsenal fled from the deck for their lives. Scores of the men on board the Ionia jumped either overboard or to the stone quays and sustained serious injuries.

The primary cause of the accident was the explosion of a torpedo. Why this instrument exploded is unknown, but the powder magazines of the Ionia were set on fire and their contents, including, ruined one of the finest vessels in the French navy.

The Ionia had just undergone a final inspection of her hull and machinery preparatory to her joining the squadron to-day. The crew was at its full strength, being composed of the rear admiral, twenty-four other officers and 629 men. The magazines had been replenished recently, and contained many tons of both smokeless and black powder, as well as a number of charges for torpedoes.

It will be within the scope of such a foundation to investigate and study the causes of adverse social conditions including ignorance, poverty and vice, to suggest how those conditions can be remedied or ameliorated, and to put in operation any appropriate means to that end."

CAUSE OF TYPHOID FEVER.

What Doctors Had to Say in Toronto.

Toronto, March 13.—A controversy has arisen over statements made by Dr. McPhedran and Dr. Amyot before the Young Men's Municipal Club, last night, that the percentage of typhoid fever, in Toronto, was larger than in any city in America and that Toronto water was impure. City Engineer Root said, this morning, that these statements were not borne out by the facts. Professor Shuttleworth, city analyst, while admitting that the death rate from typhoid fever was higher, than in many American cities

Pittsburg, Pa., March 13.—A freight train on the western division of the Pennsylvania railway, went through a bridge at Harnersville, near this city, this morning. Meeting Adjourned.

Montreal, March 13.—The annual meeting of the West India Electric Company is adjourned until June 21st, as the comptroller's office at Kingston, Jamaica, was destroyed during the earthquake, and all the records and reports lost.

WAR IN FIVE YEARS.

United States and Japan Will Be in Conflict.

Washington, March 13.—"Within five years we shall have war with Japan," is the prediction of Hudson Maxim, of New York, one of the world's greatest inventors of munitions of war. Maxim is on his way to Indianhead, where tests of smokeless powder invented by him are being made.

"I measure my words when I make this prediction," he continued. "Our interests on the Pacific conflict, and our wealth is alluring the Japanese, who have gained their estimate of the white man's race from the Russians. And we are totally unprepared for such a struggle."

Maxim says the Japanese could land 200,000 men on the Pacific coast, and get them as far as the Rockies before we could check them. He says we ought to spend two hundred million dollars to equip a fleet in the Pacific as large as Japan's.

DEMAND FOR CHILDREN.

Storekeepers Are Very Anxious to Employ Them.

Toronto, March 13.—The special committee of the legislature, enquiring into the question of child labor, heard some interesting evidence at this morning's session. J. J. Kelso, superintendent of neglected children, declared that the truancy laws were not enforced and he suggested the appointment of women, as well as men officers to see to the enforcement of these laws, stating that during the last few years the number of children employed in stores had greatly increased. Mr. Kelso expressed his opinion that boys under fourteen and girls under sixteen years of age should not be allowed to work.

Playing on River Ice They Broke Through.

Alvinston, Ont., March 13.—Charles, the eighteen-year-old son of Mrs. Archibald McKellar, and Milton, the sixteen-year-old son of James Walls, were drowned in the river here this morning. With a companion they were crossing on the ice when one of the boys went through the ice and the other, in trying to rescue him, also went in and both were drowned before the third boy could do anything to help them. The bodies were carried by the current under the ice and have not yet been recovered.
