BIG SLUMPS

Railway Stocks Fell With A Crash.

WORST SINCE 1901

THE DECLINE BEGAN IN FOREIGN CAPITALS.

There was a Mad Scramble in New York to Get Rid of the Falling Stocks and This Simply Helped to Make the Disaster More Complete.
New York, March 14.—The average prices of the twenty railway stocks usually selected for comparison fell off \$5.10 a share, yesterday, the break being the worst since the panic induced by the Northern Pacific corner in May 1901, when the break was a fraction over \$5 a share. The decline began abroad. London, it is estimated, sold here, in the course of the day, about 60,000 shares on balance. Thousands of shares besides were sold for the account of continental centres of finance. New York holders, some of them from alarm, others from necessity, threw stocks overboard so that there was a mad scramble to sell when the going sound. An hour and a half later there was a depreciation in market values to the amount of about \$80,000,000 in the seventy railway and industrial stocks, which prior to the opening of the market, had declined about \$1,600,000,000 from the high mark of last year.

Demoralized To-Day.
London, March 14.—The stock market was partly demoralized to-day, which is settling day. Two small failures are announced and all stock opened flat. Later there was a general recovery, including American railways, which advanced half a dollar a share. The general opinion is that the worst is over, and further improvement of Americans is expected.

PITH OF THE NEWS.
The Very Latest Culled From All Over the World.

The Pere Marquette will run no passenger trains through Canada on Sunday.
The G.T.R. will build two new and faster Expresses, steamers for the Atlantic route.
The son of Mrs. H. D. Cunningham, Ridgeway, was killed by a street car in Kansas City.
The Canadian Pacific railway has decided to make Muskoka a divisional point on its new line.
Six persons were killed, Wednesday, at Khatov, Russia, by the explosion of a bomb in a student's room.
Lieut.-Col. George A. Peters, commander of the Toronto Light Horse died suddenly of heart failure.
The London county council is about to investigate the effect of restrictions on the importation of foreign cattle.
A million-dollar shipbuilding plant will be erected at Fort William if arrangements can be made with the city.
A syndicate, headed by Charles Miller, of Toronto, secured a lease of the North Temperance pap mill, paying in addition to the dues, a bonus of \$40,000.
Kidnaping in Canada has demanded \$1,000 in gold as their price for sparing the life of four-year-old Horace N. Marvin, Jr., of Kitts Hamock, Delaware.
Sir Frederick Borden, Canadian minister of militia, says one of the most potent forces in maintaining decorum in the militia camps, is the work of the Y.M.C.A.
The offer made by William Southern to give \$15,000 for the erection of a wing for incurable consumptives in connection with the city hospital in Hamilton, has been accepted.
Adam Jameson, M.P., ex-commissioner of lands, was killed, with twelve other persons, in the wreck of a train at Alkmaar, on the Delagone line, due to a washout. Eleven persons were injured.
While insane, Irving T. Peckham, superintendent of the Glenark Knitting Mills of Woonsocket, R.I., shot and seriously injured his father, Samuel O. Peckham, and afterwards committed suicide.
Jean Bureau, four years old, was burned to death at St. George de Beauce, Que., the result of being left alone in the house of his parents and playing with matches.
The American steamer, City of Para, having on board one thousand rifles destined for Amapala, Honduras, was recently overhauled by a Nicaraguan gunboat, which seized the rifles. The steamer was permitted to proceed to her destination.

To Lease Arsenal.
Madrid, March 14.—The government is reported to be concluding arrangements for the lease of the Ferrol arsenal to a foreign company. Several vessels on the new naval program of Spain are destined to be built there. Ferrol or El Ferrol is the chief naval arsenal of Spain.

A Towboat Sunk.
Pittsburg, Pa., March 14.—The towboat Crutcher, one of the largest in the coal shipping trade, on the Ohio river, is reported to have gone down near Zwiesky, about twenty miles down the river from this city. Five of the crew

AVERTED A DISASTER.

Albert Dashington Quiets Frenzied Audience.

Newport, Ky., March 14.—Between forty and fifty persons, principally women and children, in state dress, when lightning struck the Grand Theatre, last night, were quieted and many were saved from death by the presence of mind of a comedian performing on the stage. As it was, scores of women and children were crushed under foot. While the performance was in progress there was a flash and the theatre was in darkness. The audience rose to its feet and made a rush for the exits. Wailing women, screaming children, and shouting men aroused the crowd to an excited frenzy. In the midst of the wild panic, Albert Dashington, a comedian, appeared on the stage, with a candle in his hands and began making jokes on the thunderbolt and subsequent darkness. His words soon pacified the audience.

E. H. SHACKLETON.
Who is to lead the new British South Polar expedition. In England Mr. Shackleton occupies the same position that Commander Peary occupies in America. He took part in the famous expedition of the "Discovery."

HOUSE OF COMMONS.

The Exportation of Electric Power.

Ottawa, March 14.—The first government business taken up in the Commons, yesterday, was Mr. Aylesworth's bill regarding the exportation of electric power. An amendment was submitted by himself giving the licensing power to the governor-in-council instead of the minister of customs.
Hon. John Haggart asked what authority the federal government would have to permit export at Niagara, if the same was forbidden by the Ontario government, which owned the land upon which the power was generated.
Mr. Aylesworth said he had given no thought to the matter. He presumed that any land owner could resist a trespass.
Mr. Lancaster proposed an amendment limiting the quantity to be exported by any licensee to the amount which he is actually using in Canada, and requiring always a surplus in Canada of 25,000 horse-power.
Mr. Aylesworth opposed this. At Niagara, he said, the three power companies would generate 400,000 horse-power and the Canadian market, in his opinion, was only 40,000 horse-power. But double that estimate, then why let 320,000 horse-power go to waste. Wasting it would not help Canada.
Mr. Smith, of Wentworth pleaded for the small users. They were not being served and no effort was being made to serve them.
R. L. Borden asked if this government had communicated with Ontario, and Mr. Aylesworth replied in the affirmative.
Mr. Borden criticized the bill generally, after all the governor-in-council was a political body. Every year the most important functions of parliament were given up to the cabinet. He suggested that the powers under this bill should be vested in the railway commission. That commission should be re-organized, and called the public utilities commission.
Mr. Aylesworth could not understand why members of the opposition accused his bill of promoting export. It put some restriction at least upon exportation. At present there was no restriction whatever.
Mr. Lancaster's amendment was defeated and the bill stands for third reading.

TO PRESCRIBE TIME.

Ottawa, March 14.—The railway commission has ordered its inspector of accidents to report at once with a view to the issue of an order by the commission fixing a limit to the time during which engineers, conductors, operators, brakemen, switchmen and other officials responsible for the running of trains may be continuously on duty, and prescribing the time which must be taken for rest after each period of duty.

KISSES SHROUD.

Chicago, March 14.—Rachel Fisher, twenty-six years of age, was seriously injured in the crowd of persons who thronged around the bier of John Alexander Dowe, at Zion City, Pa., yesterday. Mrs. Fisher, suffering from locomotor ataxia, kissed the hem of the shroud, and believing she was cured, tried to walk. She fell down a flight of stairs and was seriously bruised.

Resigns From Church.

Fort William, Ont., March 14.—Owing to objections raised against his action in the street car question, now before the Ontario Legislature, Dr. Snedden, local member, has resigned his membership of St. Andrew's church, and withdrawn from its membership.
A lively time is anticipated when the doctor returns, as he promises to meet his critics on the platform and defend his action.

They Rely On Wade's Ointment.

Wade's Ointment is depended upon in hundreds of homes for the cure of all injuries to the skin as well as the various skin diseases. There is not a family that would not find this ointment invaluable. Cures eczema, dandruff, rheum, scaly or itching eruptions of the skin, itches, blotches, dandruff, etc. In big boxes, 25c. at Wade's Drug Store.

Killed in Street Fight.

Belgrade, Serbia, March 14.—A serious fight occurred, to-day, between the police and strikers at the sugar and leather factories. The police finally fired on the strikers, killing four men and wounding twenty.

Have you seen the "Globe" window at Gibson's Red Cross?

HE IS TO QUIT

If Congregation Lets Him Go.

THOMAS SPURGEON

WANTS TO LEAVE THE METROPOLITAN TABERNACLE.

The Bill to Do Away With Barmaids Will Not Be Considered This Session—A Criminal Investigation Department to Be Established in Spain.

London, March 14.—Rev. Thomas Spurgeon, pastor of the Metropolitan Tabernacle, has tendered his resignation, partly owing to ill-health. The deacons oppose the resignation and suggest that Mr. Spurgeon take a long holiday. A poll of the congregation will be taken on the question. There has long existed an element of discord in the church, due to the overruling of those members who wished the Rev. Mr. Pearson to succeed Rev. Charles H. Spurgeon, father of the present incumbent, who died in 1892.

The bill to do away with the employment of women as barmaids, in the United Kingdom, will not be introduced at this session of parliament, the Home Secretary Gladstone having promised to deal with the question in his forthcoming general licensing reform bill.
King Alfonso has decided to revolutionize Spanish police methods and to establish a criminal investigation department modelled on the English Scotland Yard. He has offered the position of chief of the re-organized force to Inspector Arroyave, the London force, with a salary of \$5,000. It is stated his majesty was much impressed by the police methods when he was here.

HOUSE OF COMMONS.

The Exportation of Electric Power.

Ottawa, March 14.—The first government business taken up in the Commons, yesterday, was Mr. Aylesworth's bill regarding the exportation of electric power. An amendment was submitted by himself giving the licensing power to the governor-in-council instead of the minister of customs.
Hon. John Haggart asked what authority the federal government would have to permit export at Niagara, if the same was forbidden by the Ontario government, which owned the land upon which the power was generated.
Mr. Aylesworth said he had given no thought to the matter. He presumed that any land owner could resist a trespass.
Mr. Lancaster proposed an amendment limiting the quantity to be exported by any licensee to the amount which he is actually using in Canada, and requiring always a surplus in Canada of 25,000 horse-power.
Mr. Aylesworth opposed this. At Niagara, he said, the three power companies would generate 400,000 horse-power and the Canadian market, in his opinion, was only 40,000 horse-power. But double that estimate, then why let 320,000 horse-power go to waste. Wasting it would not help Canada.
Mr. Smith, of Wentworth pleaded for the small users. They were not being served and no effort was being made to serve them.
R. L. Borden asked if this government had communicated with Ontario, and Mr. Aylesworth replied in the affirmative.
Mr. Borden criticized the bill generally, after all the governor-in-council was a political body. Every year the most important functions of parliament were given up to the cabinet. He suggested that the powers under this bill should be vested in the railway commission. That commission should be re-organized, and called the public utilities commission.
Mr. Aylesworth could not understand why members of the opposition accused his bill of promoting export. It put some restriction at least upon exportation. At present there was no restriction whatever.
Mr. Lancaster's amendment was defeated and the bill stands for third reading.

STANDS OVER.

Ottawa, March 14.—At the opening of the supreme court, today, G. E. Shepley, K.C., suggested that, for the convenience of the attorney-general, of the dominion and of all the provinces, the ease as to constitutional limitations in reference to the incorporation of companies, which were ordered by the court in the case of P. R. versus Ottawa Fire Insurance company, be postponed until next session. It was placed at the head of the list for May sessions. Meantime, all the parties will file papers on the constitutional questions involved.

TO HAVE PATROL BOAT.

Amherstburg, Ont., March 14.—United States District Engineer Davis will recommend the United States survey steamer Hancock as a patrol boat for the lower Detroit river district, especially that part of it in the narrow Lime Kiln Channel, opposite this town. Captain Wilson, master of the lower Detroit river district, has expressed his approval of the proposal, and all craft passing through the channel.

Our Davenport \$2.25 hat is our leader and we think it the best hat for the money to be had of any body anywhere. The H. D. Bibby Co.
"Sulphur and Molasses." The great spring system cleanser, 15c. bottle at

THE SITE CHOSEN.

For the Kaiser's Gift to London.

London, March 14.—London newspapers are still agog over the statue of William III, which the Kaiser has presented to London. The site for the statue in front of Kensington Palace, has been selected by King Edward, for the reason that Kensington was the favorite home of William, and it was there that he entertained Peter the Great, and there he died March 8th, 1702. King William has not been fortunate in post-mortem tributes to his greatness. When he died the privy council, for some good reason of their own, resolved to bury him unobtrusively in the Abbey, and to erect a monument to him there, as well as an equestrian statue in some public square. The good resolutions of the privy council were never fulfilled. All that Westminster Abbey holds in memory of the king is his effigy. Tardy homage was, however, done by the placing of a marble statue, in the great hall of the Bank of England in 1735, Hull, in the previous year, had put up one to the memory of "Our Great Deliverer." Petersfield is the only other English town that has honored the silent, morose hero of the House of Nassau. Ireland thinks she has done more than her share by planting his statue in College Green.

Ball Room To Cost \$80,000.

Newport, R.I., March 14.—"Belcourt," the summer home of O. H. P. Belmont, at this place, before another summer will be improved extensively and beautified, contracts already having been awarded, that amount to nearly \$300,000. The principal addition and alteration will be the transformation of the coach house into a ball room, fashioned in Louis XIV style. The cost of this alone will amount to more than \$80,000, and when completed it will make one of the most beautiful ball rooms to be found anywhere in Newport's summer colony. The main staircase, according to the plans, is to be altered at a cost of \$18,000, and the decorative scheme of the whole house is to undergo a complete change.

What Is In Prospect.

Los Angeles, Cal., March 14.—In an interview, Dr. Nicholas Murray Butler, president of Columbia University, said: "President Roosevelt will not run for president again, no matter what pressure is brought to bear upon him. The principles which Roosevelt stands for are greater than the republicanism party must support these principles, no matter who its standard-bearer may be at the next election. With Mr. Root as president and Mr. Taft chief justice of the supreme court, conditions would be pretty nearly ideal. But I hardly look for such a combination to occur."

\$15,000 For Three Kisses.

Newburg, N.Y., March 14.—Five thousand dollars a kiss is demanded by Miss Laura White, a pretty girl, twenty-two years old, from John J. Scannell, former New York city fire commissioner and intimate friend of Richard Croker. Papers have been served on Scannell in a suit by Miss White in the Orange county supreme court for \$15,000 damages for being hugged and kissed three times. Miss White's mother was employed as housekeeper on Scannell's farm near Fishkill landing, and Miss White lived on the place with her mother.

Prevented Spreading.

Moorefield, Ont., March 14.—Schider's large grain elevator and cider mill were burned to the ground at one o'clock this morning. For a time the whole village was in great danger on account of sparks from fire settling on the roofs of the houses but through the heroic efforts of the villagers, with buckets, the fire was prevented from spreading. Considerable grain was also burned. Loss heavy, no insurance on building.

Gives Wife \$3,000 For Hat.

Chicago, March 14.—Mrs. William Wambaugh, formerly Sophie Finley, of Denver, who was married in 1881, on Friday after being arraigned for obtaining \$3,000 from her prospective husband, disappeared with \$3,000 more which he gave her. Wambaugh is a farmer in Colorado. Asked by the police why he gave his wife such a large sum, Wambaugh replied: "Well, she said she wanted to buy a hat."

Town Abolishes Saloons.

Bristol, Tenn., March 14.—The election of the city voted to abolish all saloons. Only seventeen votes were cast in favor of the shops. The dealers did not go to the polls. A street parade of 2,000 men, women and children, headed by a band, was a feature. Bristol, Va., just across the state line, votes on a like proposition April 22nd. The existence of twenty-five saloons is at stake.

To Have Patrol Boat.

Amherstburg, Ont., March 14.—United States District Engineer Davis will recommend the United States survey steamer Hancock as a patrol boat for the lower Detroit river district, especially that part of it in the narrow Lime Kiln Channel, opposite this town. Captain Wilson, master of the lower Detroit river district, has expressed his approval of the proposal, and all craft passing through the channel.

Manchester Is A Busy Port.
New York, March 14.—Gloster Armstrong, local representative of the Manchester Ship Canal company, has made public a statement concerning the grain and lumber developments at the port of Manchester. The imports for lumber during the year 1906 amounted to 566,491 loads, as against 445,619 loads in 1905, this being an increase of over 100,000 loads, a better record than that made by any other port in Great Britain, including London and Liverpool. The importation of wheat, maize, etc., during 1906 amounted to 331,505, as against 273,350 tons in 1905, approximating an improvement of 60,000 for 1905, an increased record not excelled even by London itself.

In view of the shortage of cars the Canadian Pacific has issued a circular to agents in Ontario to request all shippers to load cars to their capacity.
