his distressing and unfortunately very common malady ly takes rank among the very "meanest" of the diseases which people living in this climate are liable. oung and the old, the rich and the poor with the utmost

scept in the cases where Pneumonia develops, La ope is seldom directly fatal; the real danger lies in the effects. Even when the patient has fairly well recoviron an attack (and it is very hard to tell just when he ly recovered) the muscles are relaxed, the nerves ritable and tender and the whole system depre

run-down and in no condition to resist the attack of any other disease to which it may be exposed.

This condition is fraught with danger and demands instant and intelligent attention, the system must be built up and restored to a normal and healthy condition—advice easy to give, often very hard to follow.

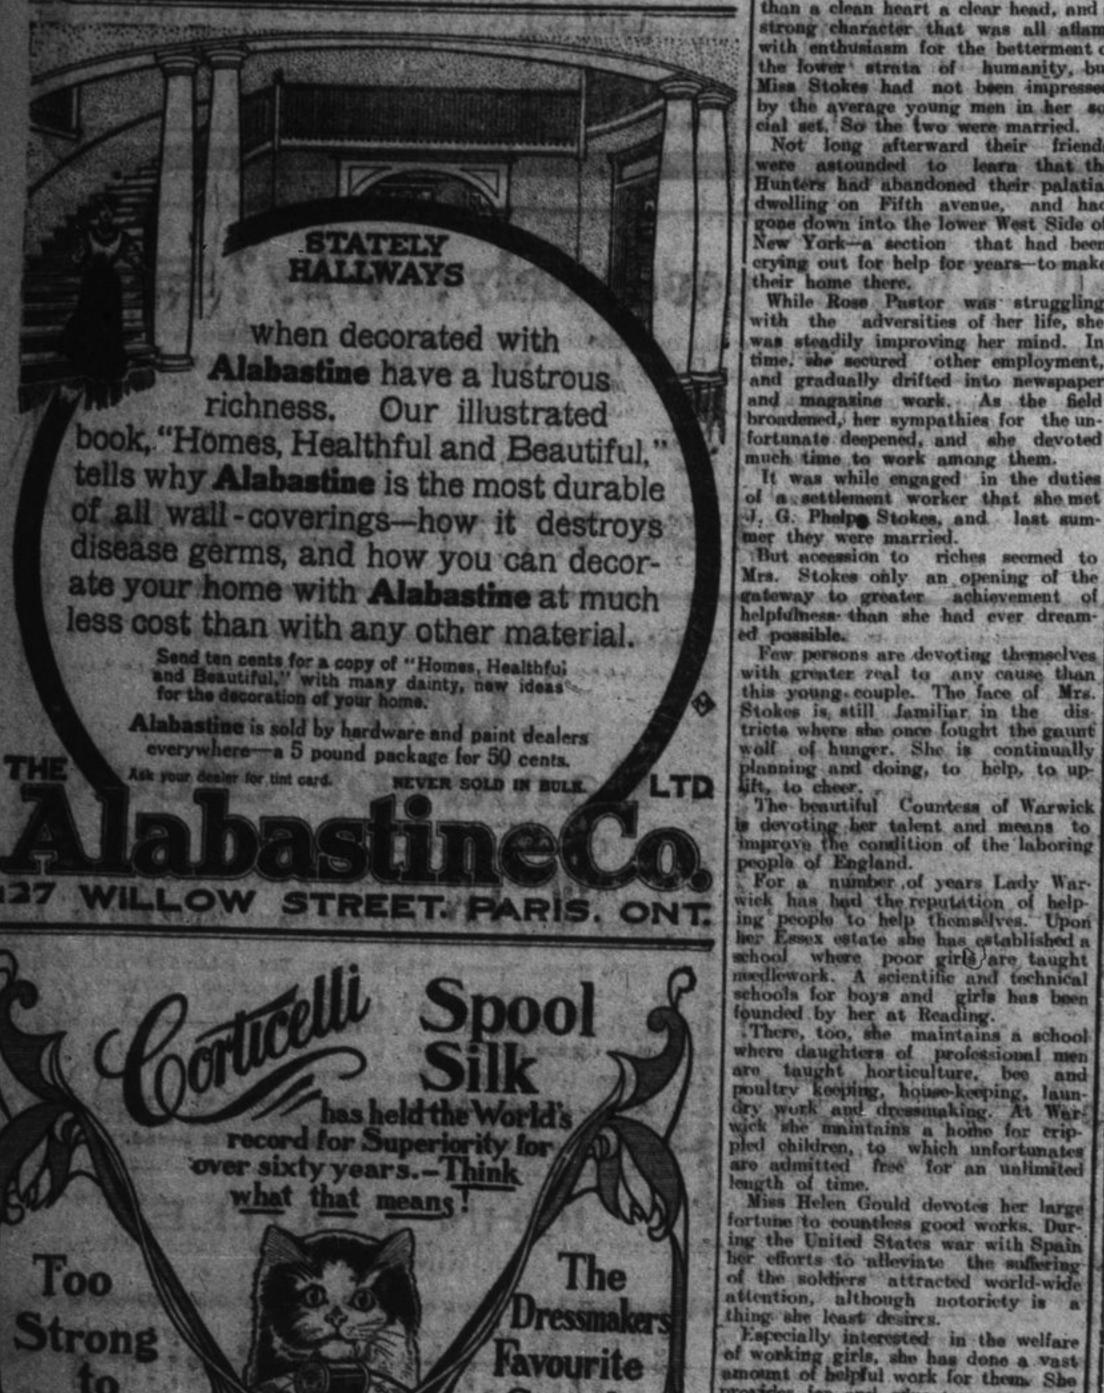

The appetite is liable to be poor and the digestion impaired so that it is almost impossible to consume and digest sufficient ordinary food to do the work quickly and effectively. What is required is a concentrated food, palatable, easy to digest and containing the elements necessary to repair the waste which La Grippe has committed.

Just such a food is found in

a scientifically prepared emulsion of Cod Liver Oil, Iron and Phosphorus, palatable, digestible and effective. FERROL contains just what the run down system needs and all it requires. Cod Liver Oil to restore the lost flesh that is left firm and healthy, Iron to enrich the od muscles. Phosphorus to tone the nerve and othing else will.

Two or three bottles of FERROL, taken after the acute stage of La Grippe has passed, will do more to repair damages than can possibly be accomplished in any other way. Try it and sec.

WOMEN WHO EXTEND HELP-ING HAND.

The Life Story of Mrs. Robert Hunter in Her Work at New

By many women of wealth their good fortune is regarded largely as a means of accomplishing something for the benefit of humanity. They are women who do things—who gladly extend the helping hand to the less for-

Mrs. Robert Hunter prefers aiding her husband in his work among the New York poor to enjoying her millions in the usual Newport fashion; her sister-in-law, formerly Rose Pastor, found, simply, greater means of helpfulness through her marriage to rich J. G. Pheips Stokes.

Although their carls live and the latest and the lat

Although their early lives were strik-ingly dissimilar, Mrs. Robert Hunter and her sister-in-law, Mrs. Stokes, are now engaged in the same humanitari-an work in New York city—an earnest ndeavor to benefit in practical ways

As Caroline M. Phelps Stokes, Mrs. Hunter was reared in the lap of luxury. Her father, Anson Phelps Stokes, is many times a millionaire, and her grandfather, Anson Phelps, was numbered mmong the greatest of New York's many great financiers.

Her home on Fifth anneiers. Her home on Fifth avenue was one

of the most magnificent in that city of splendid mansions; liveried servants were always at her call her every wish was gratified. Nothing that high neck is in order. The mode she desired it. She is said to have a trimmed with net lace insertion a fortune of \$10,000,000 in her own flouncing, and bias bands or folds of

Mrs. J. G. Phelps Stokes, as Rose Harriet Pastor, grew to womanhood Harriet Pastor, grew to womanhood in the bitterest poverty. When she became old enough to add her mite to the family income—and this, through dire necessity, began at an early age—she learned the trade of a cigarmak—she learned the trade of a cigarmak—er, and toiled all day in a dingy liter, and toiled all day in a dingy lit-tle factory, inhaling air that was folds headed the festoons of lace ab-

At times she was also compelled work at night. Returning home, after the long day's toil, for a bite of supgier shop around the corner and labor there until nearly midnight The hearts of both these girls res-

up from every side in the districts of poverty. One knew all about it from actual contact, the other was touched by what she learned at longer range.

Which was recently resigned by Sir Frederick Lugard, has been temporarily given to Lieut. Col. Sir Percy Girouard, R.E. by what she learned at longer range.

The skin rids the system of more urea than the kidneys?

Nearly one fifth of the waste products of the body is eliminated by the skin. Suppose there is some unsuspected, unseen skin trouble—the pores are closed—the skin is unable to rid the system of its share of the waste. Then the blood carries this waste product to the kidneys-

immediately they are overworked—they strain to throw off the extra load. What the kidneys can't possibly eliminate, the blood takes up again and deposits on the nerves. Then come the dull aches in back, hips and head-the

nerves unstrung and irritated—the urine charged with impurities and highly colored and you fear you have "Kidney Trouble." Nonsense. Your kidneys are overworked-not diseased. What you need is "FRUIT-A-TIVES" to act on the skin.

(or Fruit Liver Tablets)

open the clogged pores start up healthy skin action—and let the skin perform its natural function. This instantly relieves the kidneys of overwork—the back-aches stop and the complexion is beautified. There is no excessive waste matter in the blood to bring dull headaches—the urine is cleared—the bowels are opened and regulated-and the kidneys strengthened.

"FRUIT-A-TIVES" act directly on the three great eliminating organs-Skin, Kidneys and Bowels-make them well and keep them well. That is why "FRUIT-A-TIVES" cure so many cases of apparent kidney disease that are really skin troubles: "FRUIT-A-TIVES" are fruit juices in which the natural medi-

cinal action of fruit is many times increased by the secret process of making them. Valuable tonics and antiseptics are added and the whole made into tablets—the finest formula known to medicine. Buy them-try them-and cure yourself at home. 50c. a box 6 boxes for \$2.50. At all druggists or sent or

CHURCH NEWS.

What is Heard From the Denom-

Rev. W. J. Clark, London, Ont., has accepted the call of St. Andrew's Presbyterian church, Westmount. The congregation of Simcoe Street tended a call to Rev. Mr. Christie,

Baptist church, Hamilton, extended a call to Rev. W. J. Brown, pastor of Shenstone Memorial church, Brant-

settlement work in the East It was he who made possible the surduties in the parish on April 7th.

prise of Cronje, and, according to the Dr. P. S. Henson, the well-known He had nothing more to offer her than a clear head, and a strong character that was all affame with enthusiasm for the betterment of clusion.

The had nothing more to offer her official history of the war, it was only his organization of the railways that ultimately brought the war to its convents of the has just passed his seventy-fifth birthday, and is in more decretely formed to the well-known and the well-known better that was all affame with enthusiasm for the betterment of clusion.

Provost Macklem, of Toronto, will be Steps have been taken to erect a new cution twenty-five years ago, sine which time they have been under the patronage of the Methodist church. The report of the royal commission to inquire into the way prayer-book regulations of the Anglican church are observed in public worship shows that "traitorous ritualism," as a London daily calls it, is rampant. Some think that disestablishment may come as a result of the report.

The natives of the Cannibal Islands in Melanesia, are now engaging i philanthropic work for the other for lands. The peoply of Savo Island askell that teachers be sent them, and in response to the call four from Florida Island, formerly one of the most sav age settlements, volunteered.

The highest Y.M.C.A. in the world is at Smuggler, Col., at the Tombov and Smuggler mines, in the Rocky Mountains, 13,000 feet high. The men work day and night in eight-hour shifts. There is no church nor Sunday here. The association has put in bowl ing alleys, billiard tables and talking machines, which are diverting the patfaro game.

India's Prosperity. Yorkshire Post.

Trade returns from India for the past year show that the country is enjoying extraordinary commercial prosperity at the moment, large in crease in both imports and exports being reported for nearly every class of goods. The cotton industry was it is to-day. A particularly satisfac tory feature of these returns is the large growth in the imports of chinery from Great Britain, since this factories are being opened. This cannot fail to react favorably on the general condition of the Depender Much of the growth of the import fact that new trade routes to Aighenistan. Thibet, and other parts of the interior are gradually being opened up and a demand is being created in the new markets there for British-
