Danger in Farming.

"Dollar Wheat" is fine for farmers, but they take long chances with their health in getting it. The wheat, bad weather, lifting, straining, wrenched backs, the foundation for Rheumatism and Kidney Trouble. There is a farmer, out Markham way, who was so busy making money that he did not realize he was making ill-health at the same time.

BUSTO

The Gentle Kidney Pill. We will refund your money should these Gentle Kidney Pills fail. 50c a large tin. At all druggists, or sent on receipt of price.

CASSTERS LIVER PILLS

THE CURE FOR BILIOUSNESS. In those few terrible minutes one woman was at work, untiring, unflinching. One after another she carried the little ones out to the windows and to safety, groping her way back each time to rescue those behind.

ACHIE

Headache and other ailments. In the house as many lives that were saved as were lost. Our pills cure what others do not.

LET US SELL YOU AN INCUBATOR ON TIME.

Do you know there is big money in selling poultry. Do you know an incubator will pay you bigger profits than any other thing you have on your place.

Canadian Clubs. Edmonton has a Canadian Club, which when a fortnight old had 138 members, and was still growing.

Alarmist Reports. English newspapers are full of alarmist reports of the cold in Canada, and the fact remains in the Northwest, and there is a strong suspicion that some of the cables received are "inspired" by the anti-emigration party.

Work of Canadian Artists. An interesting sign of the times is the predominance of Canadian scenes and sketches in the work of Canadian artists.

Canada Needs Fifty Thousand Men to Construct Her Railways—Work Must Not Stand Still—Who to Get?

So great is the railway construction work to be carried out in Canada during the present year that those who have the work in hand are in a desperate state of mind as to procuring the necessary labor. The lowest estimate given by contractors is that fifty thousand pick and shovel men will be needed, if the undertakings are in view are to be gone on with. Where are they to be procured? How are they to be procured?

Work Must Not Stand Still. Pick and shovel men are needed in great numbers. There is getting away from the fact that the ordinary supply will not answer. So far as organized labor is concerned there is no sense in disputing facts evident to all.

TO DUTY AND DEATH. Another Name Added to the Roll of Canada's Noble Women. Montreal has many stately monuments, but there is need for another in one of the most conspicuous places of the city.

Arrived First. On March 21, 1878, he arrived first in the Falcon with 21,150; on March 21, 1888, in the Resolute with 34,628; on March 27, 1895, in the Aurora with 29,918, and on March 28, 1895, in the Eagle with 32,064.

His Arctic Record. Besides his sealing voyages, Capt. Jackman was the pioneer of the Newfoundland whaling industry, and the Arctic seas several years. Commanded the famous Arctic explorer, made his first trip there with Capt. Jackman in 1882.

Dealing with Criminals. The question of how to deal with the criminal class must be long by met by the application of more potent remedies than the now applied, such as will meet the case of moral deformities, contagion or accident.

Are the Colonies Underrated. One hears this remark often reiterated of late, it appears to be just drawing upon the rank and file of people in this country that the policy of England regarding settlement of the United States has brought into being a feeling among young Canadians, which may prove a source of trouble in the future.

Removal of the certainty of death from a trip over Niagara Falls in an open boat and such trips would soon be come a holiday pastime. So it is with the commission of criminal acts; remove the chances of just punishment from criminal offenses and each act committed will only be a stimulant for the commission of more atrocious ones.

VERY FAMOUS VIKING

HE WAS A GREAT FISHERMAN OF SKILL.

Late Captain Jackman of Newfoundland Captured in His Time the Enormous Number of Over Half a Million Seals.

For over forty years this mariner navigated a ship to the ice-floes of the coast of Newfoundland in quest of seals. Some of the adventures in which he was the hero are amongst the most thrilling incidents in marine annals.

His name is a household word all over the island colony for his skill and daring as a mariner, and as probably the greatest and most successful captain who ever steered a ship through the frozen ocean in search of seals.

His knowledge of the coast of Newfoundland evoked the admiration of the sea. He was able to find his way through the most dense fogs and furling tempests with amazing certainty; his record on the coast was marked by scarcely an accident. This year, for the first time in over forty years, the old mariner will be missing at the ice. He has gone on his way to the ocean—eternally; the pilot—dead.

His Sealing Career. Captain Jackman was born in 1843 at Renew, where the first of the Jackman family settled on coming to Newfoundland in 1784, nearly two centuries ago.

Then he was appointed master of the Hawk, in succession to his brother, who was promoted to the command of the first steamer Eagle, which had then been brought out a new ship from Scotland.

During these 38 years he has brought into St. John's, Nfld., 552,510 seals, or an average of 15,447 per year, the aggregate value being estimated to exceed \$1,000,000.

On March 21, 1878, he arrived first in the Falcon with 21,150; on March 21, 1888, in the Resolute with 34,628; on March 27, 1895, in the Aurora with 29,918, and on March 28, 1895, in the Eagle with 32,064.

WEIRD AUCTION SALES

Rummage Sales at Old London Docks Are Intensely Interesting.

Anyone desirous of beholding the most curious association of the sublime and the ridiculous, the comic and the melancholy, the queer and the commonplace, should lie him to the London docks rummage sales, which befall, roughly speaking, about every quarter.

Truly, there is nothing like these collections on earth. When the great London dock companies come to clean out their warehouse sheds, about every quarter of a year, they find a vast hoard of unconsidered, forgotten unclaimed stuff that some might call trash, and with which nothing can be done but sell to the highest bidder at those funny rummage auctions.

Once a coffin corpse, the remains of a man who died at sea or abroad, came to the docks. The consignee was notified to come for the remains, but with his eye on the particular piece of jettison for which he has found a customer by much solicitation somewhere up in the junkshop quarter.

DIG AT REICHS

Says Destinies of Country Sh Be Left to Wilhelm God.

Berlin, March 18.—A remarkable more was preached by Dr. Faber, court chaplain, in the chapel of imperial palace at the usual service held before the opening of the Reichstag by the Kaiser.

Dr. Faber said the Reichstag of 1907 will be the last Reichstag who are willing to follow the Kaiser with perfect faith, without doubt without questioning.

He said: "If we had such a Reichstag we could safely leave the destinies of our country to God and the Kaiser."

The Kaiser and most of the Reichstag members of the Reichstag are present.

Dr. Naumann, a radical deputy, published vitriolic criticism of the Kaiser and the Reichstag in the Reichstag.
