Farm Labourers and Domestic

I have been appointed by the Dominion Government to place British immigrants in positions as farm labourers or domestic servants in this vicinity. Any person requiring help should notify me by letter, stating fully the kind of help required, when wanted and wages offered. The numbers arriving may not be sufficient to supply all requests but every effort will be made to provide each applicant with required help. M. C. DUNN, Canadian Government Employment Agent, York.

Emergent Meeting

THE MEMBERS OF 2424 A. O. U. are requested to meet in regular session at 8 o'clock for the purpose of making arrangements for the funeral of their late brother, James Graham, FRIDAY, MARCH 21st, 9.15 o'clock.

J. J. FERRY,
Secretary.

Give Ours To Oursen's.

In the Ontario legislature on Tuesday, Dr. Currie of Prince Edward County, advocated a department of professional pedagogy at Queen's University, as well as at Toronto.

Ordered on ready-made orders. We keep all kinds and guarantee a perfect fit. New York Dress Reform.

GREAT INFUX

Of Immigrants From The Old Land.

TO CARE FOR THESE

HOPED OLDER PROVINCES WILL GET MANY.

The Export of Electric Power and Gases to be Regulated by Governor-in-Council—The Future of Hon. C. S. Hyman—The Lumber Combine.

From Our Own Correspondent.
Ottawa, March 20.—The influx of new population into Canada this year will reach at least 300,000 souls. The statement was made by the immigration department yesterday. Practically every berth on every steamship scheduled to leave Great Britain for Canadian ports is taken up to July 31st, and many hundreds of immigrants will have to come via New York and Boston.

The officials of the department are planning elaborately for the care of these newcomers, and it is expected that with the co-operation of the various provincial governments a greater proportion than heretofore will locate in the older provinces.

Mr. Aylesworth's bill to regulate the export of electric power and certain liquids and gases was considered by the commonsense yesterday. The proposition is that the exercise of the act will be placed in the hands of the governor-in-council. To this Mr. Borden objects, and moved an amendment accordingly, which was defeated.

Mr. Borden proposes that the working of the act should be left to the railway commission, it being essentially a non-political body. He would like to see the name of the railway commission changed, and have it constituted as a public utilities commission.

Mr. Aylesworth argued that the board of railway commissioners would have to employ experts, just as the governor-in-council would, but the latter would have to form an association of experts, which would be a public utility commission.

There is still a good deal of speculation regarding the future of the Hon. C. S. Hyman. It will be a good deal of a surprise to most if he does not intend to get out of politics altogether. This is certainly the impression here.

H. P. Wells, secretary of the Mountain Lumber Manufacturers' Association was examined at the lumber combine committee yesterday. His production of his minute book and took up minutes of January, 1906, in which a man named Jones, said that he was going to Calgary to get the retail trade in Alberta, and spread the lumber combine for the purpose of maintaining prices. There were advances in prices of lumber November 7th, 1905; January, 1906; February, 1906; and May, August and September. Most of these advances amounted to a dollar a thousand all round.

He said that the manufacturers were not making money before that. They had to make the advance or go out of business and the advance would be much greater but for fear of prices bringing in outside competition. His organization had no connection with the C. Lumber Association on the Pacific coast. He said the association had the consumer in mind when fixing their wholesale prices.

A motion was made at that meeting in January that no sales be made by millmen to millmen's sons. There was no record in the minute book nor what became of that motion. The witness said that the general opinion of the millmen was that such a suggestion was not made, but they were made all the same.

Death of Count Lamsdorf.
San Remo, March 20.—Count Lamsdorf, formerly Russian minister of foreign affairs, died here yesterday. Count Vladimir Lamsdorf was Russian foreign minister from 1900 until last year. He was credited with doing everything in his power to prevent the Japanese war. He possessed all the orders of Russia. He was born in St. Petersburg in 1844.

Quarantine Limited.
Charlottetown, P.E.I., March 20.—The quarantine which has been on Charlottetown for the past sixteen days on account of the small-pox scare is lifted, and churches, schools, colleges, rinks, etc., are re-opened. Only one smallpox case was found in the city this winter, and that was of a very mild character. The disease in Fortage district is well under control, no new cases being reported in the last three weeks.

Difficulties Face Sir Percy.
London, March 20.—The Morning Post says Sir Percy Girouard has before him in North Nigeria, as fascinating difficulties as any the empire offers. "As a French-Canadian, Sir Percy," paper adds, "carries with him the good wishes of all who are anxious to foster the interests of the self-governing colonies and our great dependencies."

Sulphur, cream tartar and molasses is a very unpleasant mixture to take if put up in the old-fashioned way. No lumps in the kind sold at Gibson's Red Cross drug store. Take no other.

Don't miss the opportunity to procure a bargain in pictures for 50c. at O'Gorman's, King street.

WHAT IS COMING.

Telephone Too Slow For Men of Future.

London, March 20.—The following forecast of the telegraphic developments which will probably come into being in connection with commercial work, is given in a prominent electrical journal.

The big business houses will have their private telegraph lines to the nearest postoffice.

A typewriter telegraph instrument (one placed in the merchant's office, a typist will type messages previously dictated, and these will be received on a printing machine at the postoffice. The dropping of an indicator will warn the operator that a message is waiting; it will be taken from the receiver and dispatched to its destination without delay.

If the message is an order to another merchant, the latter will in his office, and going to the receiving instrument will simply abstract it, and acknowledge it in a similar way.

No fuss and worry. No waiting to get on the telephone, with the loss of time and temper. Everything working smoothly and quietly, awaiting the approach of the millennium.

STILL OPPOSED.

London, March 20.—Every member of the unionist party is pledged to the maintenance of the present nature of home rule. A. J. Balfour believed the sentiment of the country had not varied on the subject since the defeat of the late Mr. Gladstone's home rule measure.

LARGEST EVER.

Belfast to Build a Monster Liner.

Belfast, March 20.—Messrs. Harland and Wolff, of Belfast, have received an order for the construction of the largest twin-screw steamer in the world.

The new vessel is intended for the Hamburg-American line, and in respect of accommodation and speed it will, it is claimed, eclipse all transatlantic liners.

One of the principal features will be a swimming bath, which is to be introduced for the first time on an Atlantic liner, while the provision of a restaurant, which has proved so successful on the company's steamer America, will be repeated in the new ship.

The new vessel will be named George Washington, as a compliment to the Americans, and she is to be ready next spring.

If she proves a success, Messrs. Harland and Wolff will proceed with the building of several other vessels of a similar design.

BRYAN LAUDS UNIONS.

Made Mistake, But Accomplished Much Good.

Chicago, March 20.—"The unions have made some mistakes, but they have accomplished more good," was the keynote of a speech by William J. Bryan yesterday at the conclusion of a great meeting, in which the industrial exhibit. "When we consider that through trade unions wages have been increased, hours shortened and comfort afforded the workmen in great measure, I think we have a right to say the benefit resulting from the unions cannot be overestimated. Perhaps no other force in the country has ever been so effective for improvement in the lives and general qualities of our people."

"The Australian ballot system, for one thing, is largely due to this country to the agitation of the trades unions. If the labor union had never done anything else that raised the limit of employment for children in the mines and factories of the nation, I believe that accomplishment alone would justify its existence."

ILLICIT TRAFFIC.

Further Restricted by Prohibiting Gift.

Ottawa, March 20.—The government will, this session, introduce legislation to prevent the gift of liquor to non-employed public works. At present the law merely prohibits the sale of liquor to workmen under such conditions. Experience has proven that, especially upon railway construction this is not sufficient to stop illicit traffic in intoxicants. The bill will also extend the right of search for liquor to railway cars and contractors' camps, so as to permit of complete suppression of the traffic.

Traced By Bloodhounds.
Guthrie, Oklahoma, March 20.—The body of Dr. J. W. Davenport, was found in a road near Ardmore, Indian Territory, Saturday, and yesterday Mrs. M. Brooks, a neighbor, was greeted. Bloodhounds followed a trail to her house, where a revolver with one chamber empty was found.

The Prettiest City.
Montreal, March 20.—Ex-Provost Fleming, of Aberdeen University, speaking at Collis, said he considered Toronto the prettiest city in the Dominion.

See our display of Christy's English golf caps, new and handsome, at \$1.50, 2.00, \$1 and \$1.25. The H. D. City Co.

Sale of pictures for Thursday, only at O'Gorman's, King street.

DOUMA WON

And Also A Victory For The Government.

THE PROGRAMME

OF MODERATE LEGISLATION WAS OUTLINED.

There Was a General Debate and Then An Ultimatum That The House Must Confine Itself to Legal Paths—Will Not Be Terrified.

St. Petersburg, March 20.—The Duma met yesterday in the hall of the college of the Nobility, the proceedings resulting in victory for both the government and the Duma.

Prime Minister Stolypin recited, amid silence, a programme of moderate legislation. He was succeeded on the tribune by Prince Tsereteli, member for the Caucasus, who declared, amid cheers from the majority, that the executive must give place to the elected legislators. The prince spoke on behalf of the intransigent section of the social democrats. A general debate followed in which the speakers were all conservatives or social democrats, the other parties declining to participate. Finally Premier Stolypin arose and, in a second speech, laid down the ultimatum that the house must confine itself to legal paths.

While Stolypin's criticism was welcomed by the 40-statement refusal to be terrified by threats of a bloody revolution.

The debate ended by the adoption of a proposal, by the constitutional democrats, to proceed with the order of the day without regard to M. Stolypin's declarations.

LIKELY NO GAME

For the Stanley Cup at Kenora To-Night.

Winnipeg, March 20.—It is highly improbable that the Stanley cup game between Kenora Thistles and the Wanderers will take place to-night, owing to strained relations between the two teams. The Kenora team, which has been largely a factor in keeping the executive apart. It was considered possible, last night, that the first game might not be pulled off before Friday and possibly not before Saturday evening. Messrs. D. J. Baker, Trenton, and A. A. Mulholland, Northumberland, Mr. Emerson having heard their views said that the government's policy was to push the canal through without delay. The complimentary estimates would contain an item to show the government's good faith in the matter.

WOMAN BURNED TO DEATH.

Rochester, N.Y., March 20.—Mrs. Arthur Cross of Michigan, was burned to death yesterday, at the farmhouse of George P. William, her nephew, near Genesee, at which place she was visiting. The woman was working over the kitchen stove and in some way her clothing caught fire and in an instant she was enveloped in flames. Her screams were heard by her nephew, who seized some blankets near by and rolled her in them.

EXPLOSION CAUSED BY POWDER.

Toulon, France, March 20.—The court of enquiry appointed to determine the cause of the explosion on board the battleship *Arcton*, decided that the disaster was caused by a spontaneous explosion of "B" powder, due to decomposition and the elevation of the temperature of the magazine. It was also stated that this powder was very unstable, and had caused previous accidents.

AN INCREASE OF SEVEN.

Ottawa, March 20.—A house committee considering representation of the new provinces of Alberta and Saskatchewan has agreed upon a plan, by which the former province is to receive seven and the latter ten seats after the dissolution of the present parliament. At present the two provinces together have a representation of ten seats.

FILMSTAMERS SENTENCED.

Hamilton, March 20.—Sams' Guest-town, Buffalo, arrested about a month ago on a charge of stealing a gold locket and with attempted to film-film William Carroll and Thomas Wolsey, pleaded guilty on three charges before Judge Seider, and was sentenced to twenty-three months in the Central Prison.

KILLED IN FALLING BARN.

Acton, Ont., March 20.—A severe wind storm here, last night, completely wrecked the Acton house's new concrete stables, killing John McEathric and severely injuring J. C. McDougall, who were both in the barn when the crash came. Others had very narrow escapes.

ROBIN TO VISIT PICTON.

Pictou, Ont., March 20.—It is heard that Premier Robins, of Manitoba, will visit Pictou and his active counter in about two weeks. Arrangements are being made by the premier's friends to tender him a public reception and banquet.

On behalf of Mrs. Marion Johnston, of Hamilton, a writ has been issued against the dominion government for \$5,000 damages for the death of her husband, Johnston, who was killed while working on the government bridge at Welland.

Christy's new golf caps, Bobby's.

WORKMEN IN SESSION.

Various Proposals For Advancement Made.

Toronto, March 20.—The twenty-ninth annual session of the grand lodge of the Ancient Order of United Workmen was opened in the Temple Building, this morning, with about 300 delegates present. Grand Master Workman Charles E. Cameron, Toronto, presided. A number of important proposals were brought up but, in most cases, the final decision of these was deferred till a later session. Among other suggestions was one to erect a Workman Temple in Toronto. The state of the order's committee proposed ten permanent organizers for the ten districts which it is proposed to form.

An earnest discussion took place relative to the report of the law committee recommending the appointment of a medical board to act with the grand medical examiner. This also was left over. A special report stated that the deaths in the order, last year, has been fewer than in the previous year, while the beneficiary fund had increased. Past Grand Master, F. G. Inwood, in his report, favored the heartiest reciprocal relations with the grand lodge of Manitoba and the west.

SUGGEST DISAGREEMENT.

New York, March 20.—An interesting indication of the drift of sentiment at the Thaw trial, a poll of the newspapermen who have been daily in attendance was taken. It shows an overwhelming belief that the long drawn out trial, now in its ninth week, will finally lead no further than a disagreement of the jury.

District Attorney Jerome announces that on a steamship from Europe, due to-day, he expects a woman who will give testimony that will convict Thaw. The first thing, this morning, was an argument as to the admissibility of a letter. This is one of the letters, written by Thaw to J. Beniamin-Lyon, a Pittsburg banker, before June 25th last, the date on which Thaw killed Sanford White. Mr. Beniamin offered it, in evidence after he had finished with his experts, last night, but Jerome objected to its admission at 2 o'clock.

TO RUSH IT THROUGH.

Ottawa, March 20.—The deputation which arrived in Ottawa, last night, to urge the early completion of the Trent canal, was received by Hon. Mr. Emmerson, Hon. Mr. Scott, Mr. Patterson, and Hon. Mr. Fielding this morning. The deputation included the mayor and the warden of Peterborough, Mayor of Campbellford, D. J. Baker, Trenton, and A. A. Mulholland, Northumberland. Mr. Emmerson having heard their views said that the government's policy was to push the canal through without delay. The complimentary estimates would contain an item to show the government's good faith in the matter.

EVERYWHERE AND IN ABUNDANCE.

Everywhere and in abundance containing with handsome wings and long drooping plumes.

In the High Court of Justice

MCINTYRE vs. WAITS.

PURSUANT TO A JUDGMENT OF THE High Court of Justice of Ontario herein made in a cause entitled John McIntyre, Plaintiff, vs. the estate of James Waits, deceased, and Alexander Waits, defendant, a writ of habeas corpus was granted on the 24th day of April A.D. 1906, in which the writ directed the said defendant to produce to the said plaintiff the body of the said James Waits, deceased, on or before the 15th day of April A.D. 1907, to do and in and prove their claim of Local Chamberlain, Kingston, Ontario, or in default thereof, the writ was to be deemed null and void.

Proof of the above claim should include strict proof of the marriage of the said James Waits, deceased, and the said defendant, dated the 14th day of February, 1907.
(Sd.) J. B. WALKER,
Clerk of the Court of Local Chamberlain, Kingston, Ontario,
Plaintiff's Solicitors.
