TO LOWER RATES
FOR GAS AND ELECTRICITY
IN CITY.

The Light Heat and Power Com-
 mittee will make recommenda-
 tion to City Council.
 The civic light, heat and power com-
 mittee will recommend the city coun-
 cil to make a reduction in the gas
 and electric light rates. This was
 decided upon by the members of the
 committee, at a meeting held yester-
 day afternoon. Such action was taken
 as a result of the annual report of
 the light plant, which was submitted
 to the committee, by the chairman,
 Ald. Toye, and considered by the
 members with the manager of the
 plant, Mr. Campbell.

The motion to have the reduction in
 rates was made by Ald. Gaskin, and
 was carried by a unanimous vote.
 The committee will recommend that
 gas for lighting be reduced from
 \$1.00 to 91; that electricity for light-
 ing be reduced from 12c. to 10c., and
 that electricity for power, be reduced
 by 1c. per kilo-watt, and that these
 rates come into effect on July 1st.
 Mr. Campbell stated to the commit-
 tee that the plant was well kept, and
 that with reduced rates, it would still
 make a good profit.

Ald. Gaskin said that the report
 showed that the reduction in rates
 could be made, and he considered that
 the committee should recommend
 along these lines.

The motion made by him to lower
 the rates, was afterwards passed.
 The chairman, Ald. Toye, presided
 at the meeting, and also present were
 Ald. Chown, Douglas, Cooper, Givens,
 Rigney and Gaskin.

The question was raised by Ald.
 Chown, as to whether extensions to
 the plant should be made on the same
 basis as the waterworks, to which the
 chairman replied that he did not think
 it would work out very satisfactorily.
 He thought it would have to be put
 on a new basis.

It was moved that Mr. Campbell
 bring in a report, showing the per-
 centage of revenue that should be
 charged to make such extensions.

In speaking of the reduction to be
 made in the rates, Chairman Toye
 said that if a reduction was made,
 the light consumers were entitled to
 the reduction before the street light-
 ing was considered, as the people had
 paid the high prices for some time
 without any complaints, and now if a
 reduction was made, they were en-
 titled to it.

Ald. Givens spoke of the stock at
 the light plant, and stated that an
 inspection should be made of it so as
 to see just what there was there. A
 reduction was proposed by the officials,
 but this should be checked over by some
 person appointed for the task. He
 considered that this was a wise move,
 and Mr. Campbell was also of the
 same opinion.

Ald. Chown said he could not see
 where anything could be gained by
 having the stock checked over in the
 way Ald. Givens had outlined.

AT THE GRAND.

"Sergeant Kitty" Makes a Big
 Hit.
 "Sergeant Kitty," a military comic
 opera, made a big hit with the audi-
 ence at the Grand last night. It
 proved to be one of the best attrac-
 tions this season. Miss Helen Byron,
 in the role of Kitty, was much admir-
 ed, and did ample justice to her part.

"Sergeant Kitty" is given in two
 acts, and there was one round of fun
 from beginning to end. The company
 is a strong one, the singing being far
 above the average. The scene is laid
 in France in the year 1890, and deals
 with life at the camp of the 22nd
 Hussars.

James McElhern as the captain of
 the Hussars, was the principal fun-
 maker. His stock of funny sayings
 never appeared to exhaust. His songs
 made a big hit with the audience.
 Among his favorite numbers were
 "Dough," and "The One I Love Best
 Gave That To Me." Kitty gave sev-
 eral fine numbers, the waltz song,
 "Love," being warmly applauded.
 The duet, "Stranger Things Happen
 Every Day," by Kitty and the captain
 was especially good.

The company is an excellent one
 throughout, and the actors who were
 not present last night missed a rare
 treat.
 To see "Sergeant Kitty" was to en-
 joy it from start to finish. Should
 there be a return engagement the
 company would be sure of a crowded
 house. The attendance last night was
 large.

"Shadows of the Past."
 Lincoln J. Carter's original Criter-
 ion Theatre (Chicago) production of
 his own powerful drama, "Shadows
 of the Past," comes to the Grand on
 Saturday, March 23rd, matinee and
 night. This play is now in its third
 successful season and possibly may go
 out for several more before it is finally
 put into stock. The second and third
 out to reputable repertoire companies.
 In this story, Mr. Carter has brought
 all his faculties together to make it
 one of the strong dramatic produc-
 tions of the last not only for its initial
 season, but for many more to come.

KINGSTON MERCHANTS
 Win Prizes For Bovril Window
 Displays.
 The Bovril company has achieved
 another remarkable advertising suc-
 cess in their window display competi-
 tion, many very striking and attrac-
 tive displays having been made by lead-
 ing grocers and druggists all over the
 country, and the demand for Bovril
 has increased enormously as a con-
 sequence. In district No. 3, all Ontario
 east from Peterboro, Messrs. Good-
 all Bros., Ottawa, have been awarded
 first prize for a very attractive and
 unique window. The second prize
 went to F. W. Forde, Ottawa; the third
 to J. Gilbert, Kingston; the fourth to
 Messrs. Wallbridge & Clark, Belleville;
 the fifth prize to James Redden & Co.,
 of Kingston (window dressed by P. H.
 Givens). In all the other windows
 were far above the ordinary and the
 originators of them deserve high praise.
 Henry Wade, Kingston, and W. W.
 Gibbins, Kingston, were successful in
 winning the sixth and ninth prizes
 respectively.

DOGS MUST BEHAVE.
 Kingston Canines Have Been
 Annoying Horses.
 There are several dogs in Kingston
 which are a great source of nuisance
 to horsemen. Just as soon as they
 notice a horse on the street they run
 after the animal, barking all the
 while, and often make an attempt to
 bite the animal on the leg. Drivers
 have frequently complained of this.
 There is one Kingston canine that
 is on the bad books with the police,
 and if all that is said of the animal
 is true, it will pay the death penalty.
 The dog, while pulling a rig yester-
 day, secured a howl on one of the
 rugs in the vehicle, and tore a large
 piece out of it. The animal is very
 vicious, and it is feared that it may
 do some serious damage. An enquiry
 is now being made in regard to the
 dog.

LETTERS TO THE EDITOR.
The Office Hours of the Civic
Employees.
 Kingston, March 19.—(To the Editor)
 or): Could you tell me the hours
 during which the offices in the city
 buildings are expected to be open to
 the people for business? I have gone
 to some of them at 9:30 a.m. and
 found it impossible to get in. Can
 civic employees expect to get increases
 in salary when they are not at their
 desks earlier than that?—LABORER.

OLD STONE DRAINS
ARE A MENACE TO HEALTH
OF THE CITY.

Dr. W. T. Connell Addresses the
 Board of Health on Sanita-
 tion—Sewage Water and Milk
 Chiefly Dealt With.
 Last evening the board of health list-
 ened to an interesting address on
 "Sanitation," by Dr. W. T. Connell,
 professor of bacteriology, in Queen's
 Medical College. Dr. Connell dealt
 chiefly with the disposal of sewage,
 and the water and milk supply. In
 opening his remarks on the fact that
 Kingston was admirably situated for
 good drainage. There remained, how-
 ever, in this city many of the old
 stone drains, which were totally in-
 adequate to perform the work to
 which they are put. They were all
 right for draining off water, but for
 general sewage purposes they were un-
 satisfactory. In fact they are a
 menace to health. The city should see
 that they are replaced.

In dealing with the matter of the
 final disposal of Kingston's sewage
 into the harbor, Dr. Connell said that
 the city water supply was taken from
 beyond the section of contamination
 danger. The problem would then
 be to get the water supply to be good
 and it ought to remain pure if no
 break occurred in the suction pipe.
 There is one period of the year when
 the water is liable to contamination,
 and that is when there is ice drifting
 about.

Is it good policy to pour our sewage
 into the harbor? Dr. Connell asked.
 It was economical to do so, he
 pointed out, and probably quite safe
 so long as it did not take human
 lives. If, however, the population in-
 creased to any marked extent, then
 the continuance of emptying the sewer-
 age into the harbor would become
 dangerous. The problem would then
 have to be solved by building inter-
 cepting sewers, and putting the sewer-
 age through a septic tank, where it
 would be purified and reduced.

A break in the water intake
 pipe would be dangerous because it
 would lead through from 800 to 1,200
 feet of water known to be contamina-
 ted. It would be well for the water
 works' department, Dr. Connell said,
 to keep an eye on the pipe, and see
 that another such break as occurred
 in 1902 did not re-occur. During the
 winter of that year there was a great
 outbreak of typhoid fever.

Another sanitary problem of the
 city was the milk supply. This mat-
 ter, Dr. Connell dealt with along lines
 discussed last year by the local board
 of health. He said that there should
 be a standard of purity at to bac-
 teria in the milk. Not more than
 100,000 per cubic centimetre should be
 allowed. When milk contained any-
 thing in excess of that, the vendor
 should be liable to prosecution. In
 Kingston there was no one to keep a
 proper oversight over the food sup-
 ply. The new market clerk and as-
 sistant sanitary inspector would do
 good work for the people if he se-
 cured samples of milk regularly for
 bacteriological inspection.

Dr. Connell was tendered a vote
 of thanks for his practical talk, on
 motion of Elmer Davis, seconded by
 John Weston. He replied to various
 questions, one of which was as to
 the best test for defective sewage pipes.
 Dr. Connell said that the smoke test
 was recognized as the best.

Will Not Do It This Year.
 The project to put a floor in the
 skating rink has fallen through at
 least for this year. The management
 claim that the ice will not be out of
 the rink until the middle of June,
 which would be too late for a roller
 rink for this season. The skating rink
 company may build a roller rink or
 floor the skating rink for next year.

"Kingston's Famous Fur Store"
 That's the
 number of sale
 days left. Hurry,
 hurry. Lots of
 good things here
 yet. Furs and all
 winter goods are
 being sold re-
 gardless of cost
 or value. They must not be
 moved into our new store—on
 that we're determined, and so
 you get the benefit.

OPEN WATER

Seen This Side of Nine Mile
 Point.
 It was a fine sight, last fall, when
 the ice jammed up to a height of
 twenty feet at the King street break-
 water, but much wider is the scene at
 Nine Mile Point, where the ice has
 formed into a barrier which has been
 present at least thirty feet in height.
 Beyond this barrier the lake appears
 to be open, the white topped waves
 stretching off to the horizon. When
 the ice once begins to give, as at
 present, a steady blow from the west
 will force the ice into the harbor, and
 by a constant south-wester blow for
 a few days a serious ice jam might
 easily take place. Last year naviga-
 tion opened on April 24th, and as the
 open water may already be seen the
 harbor may easily be free of ice by
 that date.

R. Bajus, chief engineer of the M.T.
 Co's tug Glend, and gang crew men
 are employed fitting out the vessel for
 the opening of navigation.
 Capt. Montgomery is making some
 alterations to his schooner, Dominion.
 The vessel is being given a general
 overhaul, and will be put in first-
 class condition for the summer.
 Capt. Oliver is having a coat of
 paint put on his schooner, Trade
 Wind.

CRUMLEY'S OPENING.
 A Beautiful Millinery Display—
 Latest Creations.
 Everything was spring-like in Crum-
 ley's big show-rooms on Tues-
 day, though the weather was
 anything but kind to the fair patrons
 who anxiously look forward to mil-
 linery opening day. Notwithstanding
 the disagreeable weather, a goodly
 crowd turned out early in the
 morning, and many of the prettiest
 hats were stowed away in box and
 drawer, to be in readiness for Easter
 morning. As in former years, good
 taste is the keynote of this display.
 Among the latest models was an
 imported hat of Tuscan straw
 empire shape and trimmed with
 two beautiful white plumes. The new
 shapes are the Martha Washington,
 the Empire, the Mushroom, the Air-
 Ship, the Buster Brown, and the Bee-
 Hive, and the fashionable shades are
 apricot, and Copenhagen blue, besides
 many shades of pink, and violet.
 Beautiful Dresden ribbons are shown,
 which carry out in their silky richness
 the beautiful shades of flowers and
 apricot, and Copenhagen blue, besides
 many shades of pink, and violet.
 Beautiful Dresden ribbons are shown,
 which carry out in their silky richness
 the beautiful shades of flowers and

OLD CORNER GRATES.
 Are Gradually Being Replaced By
 Modern Ones.
 Regarding corners at which unpleas-
 ant odors arise, the grates from
 which these odors come are the salva-
 tion of many houses, which have no
 other outlet for noxious gases. If the
 grates were trapped, the sewer gas
 would be backed into the houses. For
 the sake of the public health, it is bet-
 ter to reach the street. Grates here can-
 not be trapped, because they would
 freeze in winter. However, these old-
 time grates are gradually being re-
 placed. One of the defects about them
 was that a small well was situated at
 the bottom, below the connection with
 the sewer. Into this well, much refuse
 collected, and caused a bad odor. The
 new grates are different. Any refuse
 that drops into them goes right into
 the tile sewer, which is rounded at the
 bottom of the grate entrance.
 Of course, the best way for ventila-
 ting sewers is to have manholes in the
 centre of the streets.

Report Was Untrue.
 The report circulated through the
 north of Frontenac county that Rev.
 W. H. Clarke, Havelock, formerly of
 Mountain Grove, had left the Metho-
 dist church and joined the Anglican
 church, is without foundation. Mr.
 Clarke has no intention of leaving
 the Methodist church and is sorry
 that such a report should have been
 circulated.

Returned To Toronto.
 Justice Mabee, who conducted the
 assize court returned to Toronto yester-
 day. The grand jury had not
 brought in their presentment at the
 time of his leaving. His lordship
 expressed his satisfaction with the
 jury, and with his visit to the R.M.C.,
 which he made in company with Sheriff Daw-
 son.

Toys The Candy Boy!
 Ald. Toye brought in the scheme
 for reducing the gas and electric
 rates. He could not carry it through
 himself, but Ald. Gaskin came to his
 assistance and urged that the recom-
 mendation to council be made without
 delay. So Ald. Toye's reduction scheme
 was adopted and to-day he's the candy
 boy of the Limestone city.

The new and improved way of put-
 ting up sulphur, cream tarter and
 masses makes it easy to take, and you
 get the correct dose of each ingredient.
 Sold only at Gibson's Red Cross drug
 store.

 off and the finals take place on Satur-
 day.
 Postmaster James Stewart has issued
 a new order that all outsiders must
 keep out of the offices. The clerks
 in the inside departments. For years
 past it has been common practice for
 people to enter the office from the rear
 entrance.
 A lady who thought she looked Greek,
 A classical costume did seek—
 A gown with wings bare,
 With gold bangles for her hair,
 And her friends all said, "Ain't she a
 freak!"

At the close of "Sergeant Kitty"
 opera at the Grand last night, the
 members of the company sang "God
 Save The King," the audience rising
 to their feet, joining in the singing.
 The incident brought forth many fa-
 vorable comments.
 W. A. Mitchell has just received a
 fresh stock of Campbell's Varnish
 Stains. These stains are easy to ap-
 ply and are very useful for staining
 and varnishing furniture, floors and in-
 terior woodwork. Better ask for color
 card.

CHILDREN.
 If You Have Any This Will Inter-
 est You.
 "So many little boys and girls come
 into our store who are weak, thin,
 legged and hollow-cheeked," said Geo.
 W. Mahood, our well known druggist.
 "It seems a shame to allow them to
 remain so, for they will grow up into
 weak, sickly and nervous men and wo-
 men without the vitality to work or
 enjoy life."
 "If," continued Mr. Mahood, "the
 fathers and mothers of such children
 would believe what we say of Vinol,
 we would see a great difference in the
 appearance of the younger generation
 of this city. You know Vinol is not a
 patent medicine, and is just the tonic
 growing children need. It will make
 for them good, healthy, flesh, sound
 bone, hard muscle and rich, red blood."
 "True," mol is a cod liver oil pre-
 paration, but it does not contain a
 drop of oil, or any bad tasting fea-
 ture. It is so delicious that all chil-
 dren love it, yet it actually does con-
 tain all the medicinal curative ele-
 ments found in fresh cods' livers, and
 is the most wholesome and best med-
 icine for children we ever sold.
 It is because we know what Vinol
 will do to us that we guarantee it if it fails to
 make your children well, rugged and
 rosy, to refund your money. George
 W. Mahood, druggist.

Dr. Brock's Celebrated
Female Periodical Pills are
 the best monthly medicine for ladies sold
 in Kingston. They are sold by
