Between a Habit-Th Tablet and Tablet Wins.

At the age of 22, Clarence had good metion. He had gastric juice tha dd dissolve doughnuts and turn ap skins into good blood corpuscles At the age of 24 he began to b fuse about the waist and lear wards. He also began to cultivat several chins. In his new-found pride he began to think it his duty to gorge himself on everything, the good and the bad, for appetite feeds on appetite and every good thing is abused. His pictures showed that he took or weight after he put his collar on. At the age of 26 Clarence married and went to boarding. On top of all this he attended oyster suppers and wine dinners, which reduced the size of his collar from 164 to 15. With still abiding faith in the strength of his stomach he gulped his meals, and

chewed them afterwards. At the age of 28 Clarence began to hear an inward voice-a warning from the stomach. After each meal, he would feel bloated-and belching became a habit. He began to be a light eater-and a heavy thinker. He tried to think out

a cure, for now he would sit down at

his meals absolutely disgusted at the thought or sight of anything to eat. He would sit down at his meals without the trace of an appetite, just because it was time to eat. He would often feel a gnawing, unsatisfied "still-hungry" feeling in his stomach, even after he was through eating, whether his meal was well

cooked or not. And suffered a good many other things with his stomach that he could not explain, but that made him grouchy, miserable, out-of-sorts and generally sour on everybody and ev-

Finally be read an account, some thing like this, about the truly wonderful results obtained from Stuart's Dyspepsia Tablets in all cases of stomach trouble, dyspepsia, and so on. He bought a 50c. box at the drug store, and took the whole box. When he started, he had little faith-and less appetite. When he finished he had absolute faith, and more appetite and more good cheer. Things began to taste different and better to him.

Now he has no more dyspepsia, no more indigestion, no more loss of appetite, brash, irritation, burning sensation, hearthurn, nausea, eructations, bad memory, or loss of vim and vigor. Remember, one ingredient of Stuart's Dyspepsia Tablets will digest for you 3,000 grains of food, just as it

did for Clarence. This relieves your stomach of the work of digesting until your stomach can get strong and healthy again. Your stomach has been overworked and abused. It's fagged out. It needs
