THE REPORT ON SCHOOLS. The report of the minister of education for 1906 has been published, but ances of 1905. It affords, however, food for reflection, and it ought to be considered in connection with ou school budget from 1907.

The report in question gives the ex penses of all the public and high schools in Ontario, and a comparison of them, city with city and item with factory to note merely that there has been a gradual advance in the ther and understand why the advance

The profit from this plant. figures may, at first glance, indicate that this "education comes high," and they may show that it is higher other places and there may not be so very much, in the estimation of some, to complain of. The Whig has done a little figuring on its own account. and it will be glad to have others analyse the statements in order that the ratepayers may fully understand

compare with the municipal grants of other cities? How do the revenue and expenditure in connection with the schools compare?

A BLOW AT BORDEN. The opposition at Ottawa is suiting the Montreal Star. So it gins a long dissertation on parliamentary practice by declaring that "it is growing to be a nice question in dialecties whether there is or is not at opposition." It finds fault with Mr Borden and his friends because they did not do more than make "a great show of fighting" on several issues which came before the house.

There was the indemnity grab. The people were against it, but "the titu lar opposition," was at one with the government. There was the two-cent railway rate. An effective opposition might have scored effectively if it had championed that cause. There was the old-age pension scheme, which was discussed sympathetically and then shelved. There was the Hyman resignation. The man wanted to vacate into effect. There was the Fowler Turkey; president, J. Macdonald; vice- rangements are being made to enable

It Made Me a Well Woman

Dear Mrs. Pinkham :- Lydia E. Pinkham's Vegetable Compound has done more for me than doctors or medicines. I suffered for four months with suppression of monthly periods. Headaches were a daily occurrence. Pains In my back and limbs made it hard for me to attend to my domestic duties.

The medicines I had taken did not help me, and I was in misery and despair until one day I read an account of your Vegetable Compound, and decided to try it, and I thank God that I did so, for it not only regulated my monthly periods, but made me a well woman.
