#### COMMERCIAL MATTERS.

##### What is Going On In The Business World—The Markets.

According to the Ontario Gazette, the mining incorporation shows a total share capital of \$2,200,000.

An opera house will be built at Fort Williams, Ont., by J. A. Lindsay and son. Seating capacity will be 250.

It is rumored that the Grand Trunk Railway proposes building a large passenger station on its main line at the corner of Queen and Avenue, Hamilton.

In Conant, the Columbia Silver Mines syndicate has just purchased eight claims and it is considered that this is one of the largest and most promising syndicates in which Ottawa investors have yet become interested.

Six firms of architects took part in the competition for the new 7 1/2 A.S. building at Hoggan, Sask., Storey and Van Leonard being successful. The design call for a brick and stone building to cost \$65,000.

The Hamilton parks board have decided to proceed this year with the erection of a pavilion in Aurora Park and suggested a special committee to get information on the subject. It is proposed to erect a building costing about \$40,000.

Plans are being prepared for a new building on the Citadel Hill, Quebec, which is to be used for ordnance stores, the present building being too small. The new structure will consist of three stories, a hundred feet long and four stories high.

Their mill deal has just been completed by the amalgamation of the Hedges-Shaw Milling Company, St. Catharines, and the Maple Leaf Milling Company of Kenora. The new company will erect the largest mill in the Dominion at Kenora, besides greatly increasing the output of both local mills.

An American Consular report states that the quantity of canned corn packed in America in 1906 was 2,200,000 cases, as compared with 19,418,665 in 1905. The total pack of domestic sardines in 1906 was 2,200,000 cases only, as compared with 2,200,000 cases in 1905, whilst the salmon pack on the Pacific Coast for 1905 (partly estimated) is given as 9,225,000 cases, as compared with 4,024,000 cases in 1905.

**Treat The Cows Well.**  
Prof. H. H. Dean, in an address to dairymen the other day, said: "Treat your cows well. Some farmers are so generous they actually give their cows all the straw that they will eat, and a turnip once or twice a week. The time to feed a cow for large production next summer is not next summer, but now. The men who give their cows just enough feed to carry them through the winter are the men whose cows will give them but little milk next summer. To get the most out of your cows, you must feed them well when they are dry. A cow that goes on to grass in the summer in poor condition will require some weeks to build up her strength, and until she has done this, she cannot give a large quantity of milk. It would be to the advantage of the dairymen of this country, if they and their cows knew each other better."

### A QUIET WELCOME

#### WAS GIVEN TO RIGHT HON JAMES BRYCE.

On His Arrival at Ottawa—The Weather Very Unfavorable—Will Not Allow the Deputy Minister to Intervene.

RIGHT HON. JAMES BRYCE.

Ottawa, March 27.—Right Hon. James Bryce arrived at Ottawa at 1:10 o'clock, to-day. He was met by Capt. Newton, representing his excellency the governor-general. It was a cold, inauspicious welcome and he refused to be interviewed. Few distinguished visitors have had so quiet a welcome to the capital. The dull weather, the mud and quiet were in keeping. Mr. Bryce was here ten years ago.

The railway commission reserved judgment in the Hamilton case, involving an extension of the T. E. & B. to the Westinghouse works. The G.T.R. opposed it because it would be part of its right of way.

The striking tailors of Ottawa "discovered" to get the deputy minister of labor, W. L. McKenzie King, to intervene in the present dispute. The department, however, will not do so. The case is too small, and too local an affair to warrant it.

**GEN. STREETER.**  
He is the Attorney For Mrs. Eddy.

**GEN. F. S. STREETER.**  
Boston, March 27.—Gen. Frank S. Streeter, is the attorney for Mrs. Mary Baker Eddy, mother of Christian Science, whose son and grandchildren are suing to have an accounting made of her money and property. Gen. Streeter says his clients will pay no attention to suits brought in states other than Massachusetts.

**BERNARD E. FENOW.**  
Who is to take new chair of forestry in Toronto University.

**Struck By Lightning.**  
Green River, Ont., March 27.—The barns of Frederick Wilson were struck by lightning during the storm, last night, and totally destroyed, together with outbuildings. The barns were lately reseeded and well stocked with cattle, grain, etc. Mr. Wilson's loss will be very heavy, as only a small insurance was carried.

**A Young Man Killed.**  
Montreal, March 27.—A young man, named A. Rossau, aged nineteen years, got in the way of the International Limited, on the G.T.R., as it was passing Mount-Royal station, to-day, and had practically every bone in his body broken. He was thrown 500 feet by the force of the impact and was killed instantly.

**Raised Letter Cards Debarred.**  
Henceforth, postal cards with raised lettering will not be accepted by the post office. Only smooth cards can be mailed. All others will go to the dead letter office. The trouble with the cards with raised letters is that they cannot be easily stamped.

**Special Easter Services.**  
The Salvation Army will hold special Easter services, on Good Friday, the services at 11 a.m.; 3 p.m. and 7.30 p.m. will be conducted by Capt. and Mrs. Owens, of Gananoque, Mrs. Owens is a former Kingstonian, and will be gladly welcomed back by her many friends. The services on Sunday will be of special interest.

**At "Wonderland."**  
"Wonderland" is proving a great drawing card these nights and for the admission fee, 5c, it is one of the best entertainments ever given in Kingston. "The Indian's Revenge," is the title of a very interesting picture thrown on the canvas last night. By special request, George Hammond sang his old time favorite, "Not Because Your Hair is Curly."

**Victorian Nursing.**  
During the past month, Miss Offord, Victorian nurse, reports that she attended eleven cases, of which four were Protestants, three Anglicans, two Methodists, two Congregationalists, and one Roman Catholic. She made ninety-two visits. Donations of clothing, etc., were received from Miss Marshall, Miss Lambert and Mrs. Roney and three dollars from a friend.

**Two Men In Fight.**  
According to a report coming from the rounds, to-day, two men engaged in a lively fight at the corner of Bagot and Corrigan streets, between seven and eight o'clock, Tuesday night, and it is thought that the fight was threatened to stab the other with a knife. No arrests were made, but it is probable that the guilty parties will be summoned before the police magistrate.

**Will Get There Soon.**  
The steamer Pierpont failed to break her way through the ice to Wolf Island to-day. After a four-hour struggle, in which she forced a passage around the Martello tower and back to Folger's wharf the task was given up. The ice is about ten inches thick but is honeycombed rapidly and it is said the old war ship will make the island before the end of the week.

**To Retire From Farming.**  
Thomas C. Stuck, Pittsburg, was in the city to-day, the first visit in many moons. He is retiring from farming and will live contentedly at his beautiful home on the Gananoque road, and adjacent to the beautiful St. Lawrence river. Mr. Stuck has been a prominent figure in Frontenac's agricultural and political movements. He was a candidate for parliamentary honors and made a fine run.

**Employment At Vancouver.**  
The many friends of Miss Margaret Harold will be pleased to learn that she has safely reached Vancouver, where she has secured a lucrative position with the St. Paul Millinery company of that place. Miss Harold was for some time superintendent of the trimming department of Crumley Bros.' store, where she made a host of friends, who while they regret the loss of her skill and advice, will feel glad that she has won, in this advanced position, the just reward that her energy, perseverance and artistic ability deserve. Miss Harold is staying with her cousin, Thomas Harold, a former Kingstonian, who will doubtless be remembered by many.

### BLEW UP ON CURB

#### DAMAGE AND DEATH IN THE EXPLOSION.

**A Remarkable Occurrence in Philadelphia—Train Wreckers Were Busy and Derailed An Express Train.**

Philadelphia, March 27.—Two persons were fatally injured and two others more or less seriously hurt, when a high-powered automobile blew up on the curb, at Broadway and Pine streets, early to-day.

**Two Blown To Pieces.**  
Cleveland, O., March 27.—Two laborers were blown to pieces and several thousands of dollars worth of property was destroyed to-day when the plate mill of the Austin Power company, at Fall Junction, twenty miles from here, exploded.

**Wrecked The Express.**  
Pittsburg, Pa., March 27.—Train wreckers caused the derailment, at three o'clock, this morning, of the Keystone express, east-bound. The engine, two mail cars and a combination baggage and smoker, left the track between Turtle Creek and Westmorland stations. None of the cars were overturned.

**BOARD OF EDUCATION**  
**To Ask City For Grant of \$39,881 This Year.**

This evening the board of education will meet to receive the finance committee's report on the financial requirements for the year. The committee recommends that \$39,881 be asked from the city council, an increase of \$2,958 over last year, which includes \$200 for domestic science.

The increase in the teachers' salaries this year will be \$1,005.45. The item for repairs, \$1,000, is \$200 less than that of last year. The property committee reports that the school buildings are in good condition, and that no large improvements will be required this year. The sum of \$300 is put in for the purchase of new desks. In some class rooms there are double desks that are far too large for the pupils. It is proposed to replace those in two rooms with single desks suitable for the pupils. The last figures show an increase of \$242. The item for pupils' supplies, shows an increase of \$100. The text books have been in use four years, and a greater number than usual will require replacing.

The amount asked from the city this year for collegiate purposes, \$9,416, is \$858 more than last year. This increase is accounted for by an estimated reduction in fees, increase of teachers' salaries and loss of government grant on technical equipment. The increase in salaries totals \$953. The grant for technical instruction has dropped from \$1,345 to \$1,035, as a result of the equipment having been paid by the government in the stipulated time for five years.

**EXAMINING BUILDINGS.**  
That Come Under the Public Egress By-Law.

City Engineer Beckwith is making a tour of the buildings which come under the by-law regarding "Egress from Public Halls and Buildings." In quite a number some changes will have to be made, in the way of making the entrance doors swing outwards and making the stairways wider. Stairways must be four feet in width, and some churches will have to comply with this new regulation. The engineer will make a complete report, and the owners and trustees of buildings will be notified of what they must do to comply with the by-law. Six months will be given for compliance. After that, the owners of buildings who have failed to comply, will be liable to a fine.
