BOURASSA A GAIN

HE WILL ASK THAT FOWLER MAKE GOOD.

Right Hon. James Bryce Was a Visitor at the House on Wednesday—The Cattle Embargo Issue—No Serious Questions to be Considered.

From Our Own Correspondent.
Ottawa, March 28.—There was an echo of the great debate of Tuesday in the house, yesterday, when Mr. Bourassa rose to say that he would move, next Thursday, to compel Mr. Fowler to make good his charges of "women, wine and graft" against members of the government. However, on the suggestion of Sir Wilfrid Laurier, that matter will come up next Wednesday. Next week the house will sit in the morning.

A visitor to the house, yesterday, was the Right Hon. James Bryce, British ambassador at Washington. During his visit Mr. Borden referred to the British embargo against Canadian cattle, declaring that while Britain was entitled to adopt any measures she liked in defence of the interests of her own farmers, she was not entitled to adopt measures which would reflect upon Canadian cattle; to their detriment in the eyes of the whole world. He hoped Sir Wilfrid Laurier would bring this matter forward during his visit to England.

F. D. Monk referred to the fact that at the public accounts committee G. H. Bédou, who had visited the old country to inquire into the North Atlantic Trading company, had refused to divulge the names of the members of that company. He proposed to move that Mr. Bédou be compelled to divulge these names.

Discussing the problem of the colonial conference, Mr. Borden declared that if there was to be a change, he favored the conference idea.

"Sir Wilfrid Laurier, in reply, said that there were no serious questions concerning Canada which required to come under the consideration of the conference.

Mr. Borden made a strong appeal to the premier to be present at the conference, saying that Canada ought not to be unrepresented at the gathering of the nations of the empire, and Sir Wilfrid, in his reply, indicated that he would leave next Thursday.

The house adjourned, to-day, to meet again next Tuesday.

GO AHEAD IN SPRING

RIGHT OF WAY HAS BEEN PURCHASED

Work of Constructing Grand Trunk Pacific From Winnipeg to Edmonton Will Be Begun Soon.

Montreal, March 28.—The right-of-way for the Grand Trunk Pacific line from Winnipeg to Edmonton has now been purchased, and the work of constructing that branch of the line will be begun as soon as the spring is a little farther advanced. This statement was made in an interview with George H. Pope, the solicitor of right-of-way for the G.T.P., who spent the week end in this city.

The work of building the new transcontinental line, and great progress in the west," he said, "and it is gaining a great deal of popular favor. The people feel the need of it and are willing to do all they can to encourage the work. In my work of buying right-of-way, have always been received with open arms, and have never had any trouble in getting the land I wanted for the line."

Concerning the construction of the line, Mr. Pope said that the materials of construction were all in place, and that the work would be carried on by electric power, which has been secured by the purchase of the right-of-way.

"The last winter has been a terribly severe one," he continued, "and one result of it is likely to be quite a shortage of cattle this year. It is the new stock-raisers that have lost their cattle and have lost their business. They know the conditions of the prairie better and have mostly got off with slight losses."

New York, March 28.—It is practically certain, it is announced here, that from 500 to 1,000 American teachers will go to Great Britain next year to study that country's educational system. This will be a return of Alfred Mosely, the British educator's recent experiment of having several hundred British teachers visit this country to investigate our schools and school methods.

It is understood that Mr. Mosely will make the same arrangement for the Americans' trip as he did for his own teachers coming to this side of the Atlantic.

Vandergrift, Pa., March 28.—Crushed by the weight of a 200-pound woman, who fell on him while he was doing fancy stunts in a roller skating rink, here, yesterday, Abner Mestary, a wealthy merchant and retired president of Vandergrift council, is dying at his home.

"NEVER!" SHOUTED A PATRIOT—

Jury Taken Aback and Company Role in His Might and Sang "No British Rule."

Hallifax, N.S., March 28.—An interesting incident occurred at the annual dinner of the mining society of Nova Scotia last night. Judge Longley, of the supreme court bench, was responding to a toast on "Canada," when he proceeded to say that the yearning of Canada was independence and that some in the room, he believed, would live to see it. A stentorian voice in another part of the room shouted, "Never, stick to the Empire." There was considerable confusion and uproar and the judge was much taken aback. He sat down with very little applause, and then the company rose and sang "Rule Britannia." Professor McGill, who was the next speaker, entered his strong dissent to what had been said.

Mrs. Norton and her first husband lived in Nebraska, and, following a disagreement, the wife obtained a divorce and the custody of her four-year-old son.

Suddenly the son disappeared and then began the heartbreaking search by the mother. She suspected her former husband, but had no proof, and was always in uncertainty. She got back her son recently through an agent, a friend reading her a letter from Colorado, in which her son was mentioned as having sought his mother for years. Porter does not know by whom he was stolen.
