STOP, WOMEN!

AND CONSIDER THE
ALL-IMPORTANT
FACT

That in addressing Mrs. Pinkham you are confiding your private life to a woman—a woman whose experience with women's diseases covers twenty-five years. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, her advice has been freely given to sick women.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation:
Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

Following we publish two letters from a woman who accepted this invitation. Note the result.
First letter.
Dear Mrs. Pinkham—
"For eight years I have suffered something terrible every month. The pains are excruciating and I can hardly stand them. My doctor says I have a severe female trouble, and I must go through an operation if I want to get well. I do not want to submit to it if I can possibly help it. Please tell me what to do. I hope you can relieve me.—Mrs. Mary Dimmick, 26th and E. Capitol Sts., Washington, D.C."
Second letter.
Dear Mrs. Pinkham—
"After following carefully your advice, and taking Lydia E. Pinkham's Vegetable Compound, I am very anxious to send you my testimonial, that others may know their value and what you have done for me."
"As you know, I wrote you that my doctor said I must have an operation or I could not live. I then wrote you, telling you my ailments. I followed your advice and an entirely well. I can walk miles without an ache or a pain, and I owe my life to you and to Lydia E. Pinkham's Vegetable Compound. I wish every suffering woman would read this testimonial, and realize the value of writing to you and your remedy.—Mrs. Mary Dimmick, 26th and E. Capitol Sts., Washington, D.C."

When a medicine has been successful in restoring to health so many women whose testimony is so unquestionable, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

The club appreciate the kind interest taken in polo by the Kingston people and the enthusiasm of people who turn out to witness last year's matches. It is hoped that this year the club will be able to make a better showing against outside teams, and when it is considered that the team has played together the progress made was remarkable, and with energetic practices, and the enthusiasm displayed by the players at the boom this year. It was decided to have a big gymkhana during the latter part of May. Practices will begin as soon as the ground is dry, being on Mondays, Wednesdays and Saturdays throughout the season. The Back River Polo Club, of Montreal, recently formed, and composed of some of the best players in Montreal, have signified their desire to play Kingston Polo Club at Kingston, on June 14th, and a team from the Toronto Hunt Club will play in Kingston during the same month. LETTERS TO THE EDITOR.

A Farmer's Daughter Writes About Entertainments.

Pittsburgh, March 28.—(To the Editor): Having attended a short time ago a concert given in one of our local churches by city talent, I should like to make a few remarks regarding our entertainments. For years our country churches have looked to the city for help for their entertainments, and the city has always willingly responded. But of late years our church people, when engaging entertainers, have been compelled to say, "Give us something suitable for a church."
Yet the programmes given at these entertainments have continued to be of such an inferior quality that audiences have been disappointed and indeed often times disgusted, and have almost ceased to look here for a real profitable evening. What kind of programmes are you expecting tonight? says one just before starting for the church. "Oh! I'm not expecting much. I'm going to see the crowd."
From the city we would expect better things appreciated, would teach as that the cities are centres of enlightenment. It is that our city friends think that anything will do for the country? Is our best too good at any time? Surely in this age, a time when the best and purest literature can be had for a mere trifle, and may be brought to our very door, when the cost of travel is so varied and so cheap, our city friends do not think that such light, trashy, often vulgar entertainments are at all appreciated in the country.
The concert I attended was given by a city choir. I don't suppose they were cautioned that the programme should be suitable for a church entertainment, but under the circumstances would hardly be thought of. Perhaps the musical part of much, some of the numbers, especially "Hail Britannia," which "age cannot wither," being very much appreciated; but other numbers were not of an ennobling or entertaining nature and should not have been given in church or hall.

There are always in audiences, whether in city or country, a few who will be entertained by such light trash, but it is pitiable to see men and women of good breeding and high culture enter to those few. One of the company, whose vulgar readings the audience would gladly have dispensed with, came back repeatedly to the speaker, and said, "I don't like boys, and the poor fellow thought he was bringing down the house, for a dozen boys can make a noise when they are playing a polo club."
I am not pleading for an entertainment void of fun and wit; we all enjoy that; but I do plead for entertainments, that while sparkling with wit, and taking pleasure in their own uplifts and inspiring and heartening, will be such only when men and women will speak and act as men and women.
Then listeners will not be compelled to feel that they are being entertained, propped over by one of the city's most eloquent professional men, whose course jokes were an offence to the audience.
The concert I attended was given by the writer alone, but has been expressed frequently of late by the majority of our best people.—FARMER'S DAUGHTER.

PAID THE FINES

FOR SUPPLYING HACKS FOR A FUNERAL.

The Undertakers Put Up the Money—Will Appeal Against the Verdict Rendered by Judge Clute—Write For Damages.
Windsor, Ont., March 28.—William Hall and John Kemp, the Detroit undertakers who supplied hacks for Senator Casgrain's funeral, have been fined \$2.25 each for violating the city by-laws, which forbids outside carriages being brought into Windsor for hire. The complaint was made by the Hackmen's Union. Sutton & Tison, the undertakers who had charge of the funeral, paid the fines.
The defendants in the case of Newman and Nelles vs. The Windsor, Essex and Lake Shore Rapid railway will appeal against the decision of Justice Clute, who found in favor of the plaintiffs, who were the original owners of the road and brought suit to compel the carrying out of the terms of the sale. Justice Clute ordered the company to turn over bonds and stock aggregating \$17,000 to the plaintiffs.

The Fight Against Dread White Scourge Seems Successful.
Wiping out the scourge of consumption is somewhat of a bigger job than eliminating smallpox, and yet the progress made to that end is just about as great proportionately. The American Society for the Prevention and Cure of Tuberculosis is entitled to the gratitude of the human race for their efforts in this direction. In New York City, where the statistics are closely kept, it is known that the death rate from consumption has been reduced forty per cent since the cause of the disease was discovered.
Naturally, the disease is enormously more curable in its earlier stages, and prompt treatment should be accorded when the symptoms first appear. Medicines, as a rule, should be avoided, especially those containing opiates, and strong drugs. Fresh air, good food and moderate exercise are most beneficial.
Ordinary colds should not be neglected, but need to be promptly checked. The following simple formula, prescribed by a well-known authority, is said to break up a cold in twenty-four hours. The ingredients cost little and can be obtained at any good drug store. Mix a half ounce Virgin oil of Pine (Pure) with two ounces of Glycerine and a half pint of fine Whisky. Shake well, and take a teaspoonful every four hours. Be sure to use only the Virgin Oil of Pine (Pure), which is sealed in a round wooden case with an engraved wrapper showing the name—Virgin Oil of Pine (Pure), prepared only by Leach Chemical Co., Windsor, Ont.—plainly printed thereon. The rank imitations of Virgin Oil of Pine (Pure) put out under similar names and style of package and the oils sold in bulk will not only fail to give specific results, but are in many cases dangerous. It is always well to remember that the object of an imitator is to deceive. There is no known substitute for Virgin Oil of Pine (Pure).
