The following letters confirm all claims to superiority. Manulactured by The Crompton Corset Company, Limited, 78 York St., Toronto.

BON MARCHE AUE STE-CATHERINE. (Montréal

MESSRS. BARRY BROS., City.

Gentlemen,-You ask us our opinion of the Crompton Corsets. To give them their due we must say that all the goods made by the Crompton Corset Co., which we handle, are very superior in quality, and compare most favorably with the best American products in the same line, although their prices range from 25 per cent. to 30 per cent. lower.

Such is the confidence in the quality of their goods that the Crompton Company replaces, free of charge, any article that does not come up to its guarantee, yet we seldom have to use this as Crompton Corsets always please the purchaser.

Your obedient servant,

MESSRS. BARRY BROS., Agents Crompton Corset Co., Montreal.

Gentlemen,-We are pleased to be able to state that the Crompton Corsets, which you represent here, give us the most entire satisfaction; the up-to-datedness of their models, the perfection of fit and the excellence of material employed in making these Crompton Corsets have made them the most desirable of their line.

We may add that since we have kept in stock a complete assortment of Crompton Corsets the sales of our Corset Department show a notable increase.

Yours truly,

THE CROMPTON CORSET CO.

Dear Sirs,-We have much pleasure in testifying to the increasing

popularity of Crompton Corsets. During the last two years they have rapidly advanced to the front rank. It is certainly a gratifying indication of our industrial progress to find corsets made in Canada, such as the "Crompton," competing successfully in style, fit and finish with the celebrated brands manufactured

by the great firms of Paris and New York. Lastly, its medium price brings within reach of almost every one a high-class corset, with all its manifold advantages to health and grace

of figure. On the whole, we consider Crompton Corsets the best product of the Canadian market.

Yours respectfully,
