> Religion Of The Pygmies. Major Powell-Cotton during his los

On certain occasions an altar is en ected and sacrifices are offered, the pygmies themselves sitting round in a semi-circle performing their devotions. When the camp is moved to a fresh site in the forest the little people offer a sacrifice to the god of their new home to intercede on their hunting expeditions. Bananas, sweet pottoes, mealies, pieces of cooked meat, all steaming hot, are placed on the altar as the offering to the god, and the pygmies sit round, all-men, women and children-eating.

During their honeymoon, Major and Mrs. Powell-Cotton had opportunities of watching the weird dances indulged in by the pygmies. To the music of their own voices and the native tomtom, the groups of dancers shuffle round in a rough circle-in pygmy land the sexes never dance together.
