Woman Will Plead Insanity

Washington, April 4.—Mrs. Annie M. Bradley, who shot and killed former United States Senator Arthur Brown, of Utah, December 5th, last, will plead mental irresponsibility, as her defense to the indictment of murder.

HOW ENDED

Exciting Part Of Session Is Over.

BOURASSA'S MOTION

REGARDING THE CHARACTERERS OF MEMBERS

Was Opposed By Five Conservatives Besides the Liberals—It Got Bowled Out—Sir Wilfrid Laurier Off For England.

From Our Own Correspondent.

Ottawa, April 4.—With the disposal of Mr. Bourassa's motion, yesterday, calling upon George W. Fowler to either withdraw his statements affecting certain ministers and members of the house, or to prove them, it may be concluded that the exciting history of the session is ended.

The speaker said that the motion covered the same ground as the one put by Mr. Bourassa already and, therefore, he would have to rule it out of order. He was willing, however, to hear the views of the house on the point of order.

Mr. Bourassa said that he did not dispute the speaker's ruling. Indeed he thought it was a mistake to say that his motion was raising another phase of the question. When he moved at previously it was for a committee, but now it was for a resolution, and stood as such.

No decision had been reached in the first instance, and this was an adjournment of the previous discussion.

The quotations which Mr. Bourassa took from Mr. Fowler's speech were two, one referring to "women, wine and graft," and the other stating that he had certain information against certain members of the house. Mr. Bourassa said that in view of what had already been said upon the subject, he was not going to repeat it.

Mr. Bourassa said that while he was not prepared to dispute the ruling, he did not consider it wise to stop the discussion by a technicality. The resolution took a somewhat peculiar form since it pronounced censure upon a member of the house.

Mr. Fowler said that he wanted to say a few words upon the point of order as he was interested. When Mr. Bourassa brought it up previously he was entirely out of order. The discussion took place and everyone was heard. He brings it up a second time, Mr. Bourassa had treated him with scant courtesy. He never gave him any notice of what the motion was to be, although he sent him a note yesterday, asking him for a copy and to hear the motion when it was read in the house for the first time.

The point which Mr. Fowler took should be taken down at the time, and if not then it should be dropped afterwards. This was the rule of the house. The quotations given by Mr. Bourassa for his speech were disconnected from the context by the view of the speaker.

Sir Wilfrid Laurier said that it was his duty to support the chair unless he had some very good reason for not doing so. There was a good deal to be said as to the technical meaning of the rule, but as to the ultimate effect of it, he said that he believed it was his duty to support the chair unless he had some very good reason for not doing so.

The speaker said that it was his duty to support the chair unless he had some very good reason for not doing so.

UPHOLDS ALCOHOL.

It Used in Moderation—How It is Beneficial.

London, April 3.—Considerable controversy is already waging around the "expression of opinion," published in the Lancet, concerning alcohol and alcoholic beverages. Its publication is frequently made as a counterblast to the agitation against even the medicinal use of alcohol, which from time to time recently has cropped up with considerable prominence. The statement opens: "In view of the statements frequently made as to the medicinal use of alcohol, we, the undersigned, think it desirable to issue the following short statement on the subject, a statement which we believe represents the opinions of leading clinical teachers as well as the great majority of medical practitioners:—

"Recognizing that in prescribing alcohol for medicinal purposes, the physician should be guided by the governing law, we are convinced of the correctness of the opinion so long and generally held that, in disease, alcohol is a rapid and trustworthy restorative. In many cases it may truly be described as life-preserving, owing to its power to sustain cardiac nervous energy, while protecting wasting nitrogenous tissue. As an article of diet we hold that the universal belief is fully warranted that the moderate use of alcoholic beverages is for adults usually beneficial as amply justified. We deplore the evils arising from the excessive use of alcoholic beverages, but it is obvious that there is nothing, however beneficial, which does not by excess become injurious."

Statistics of London hospitals for 1905 show that the quantities of stimulants used during the year were: Brandy, 334 gallons; whiskey, 60 gallons; gin, 29 gallons; port, 223 gallons; sherry, 89 gallons.

PHOTOGRAPHY OF BREATHE.

Important Discovery Made By a Wiesbaden Doctor.

Berlin, April 3.—Photography of the breath is the latest science. This was explained at the annual meeting of the Röntgen Ray conference, at which the method of Dr. Koshler, of Wiesbaden, was explained. His action shows accurately the sympathetic action of the lungs and bears in connection with inspiration and expiration. It is expected that the discovery will play an important role in the diagnosis of tuberculosis and similar respiratory diseases.

WAS ASSASSINATED.

Ex-Chief of Police, of Guines, Havana, Dead.

Havana, April 3.—Jose E. Ayala, ex-chief of police of Guines, Havana province, was assassinated at Guines yesterday. The crime, apparently political, as the victim left the government forces near the Guines during the August revolution, thereby incurring so much enmity that he went to Mexico, from which country he had just returned. The assassin, who was a member of the late rebel army, escaped.

On Way To Shanghai.

Toronto, April 4.—A cablegram announces the safe arrival in Tokio, Japan, of Rev. Dr. Cameron and South. Dr. Cameron sailed from Vancouver, on March 19th, making what is considered a fast trip across the ocean. They leave immediately for Shanghai, China, where they are on a tour of study, visiting missions and attending to the work of the Methodist church generally. When they will return to Japan, there they will be busy till the end of May, looking after the details connected with the consummation of the Methodist church in that country, which takes place at the general conference which meets at the end of May.

Revolutionists Murder.

San Salvador, Republic of Salvador, April 4.—According to reports circulated here from Honduras, when the invading Nicaraguan and Honduran revolutionary armies reached the capital of Honduras they plundered the place and murdered a number of people. The children of Gen. Teclillo, Caracazo, it is said, were hanged by the invaders.

Clergyman Who Never Washed.

London, April 3.—The Rev. J. Howard told the Otago Board of Guardians yesterday, during a discussion concerning the dirty condition of a pauper, that he once knew a clergyman who never washed. He lived to be ninety years old, and enjoyed excellent health.

Capture Murderer.

Elmira, N.Y., April 4.—James Frey, the Italian who killed Katherine Sturd, near Watkins, Monday afternoon, because she would not marry him, was captured yesterday in Bow-ling Green and was landed in the Watkins jail.

Canadian Mail Robbed.

London, April 4.—On the arrival of the fast mail train from Andercross, Scotland, it was discovered that the mail van had been tampered with and one registered parcel from Canada for Ireland had been stolen.

Literary Chimney Sweep.

London, April 3.—A man who is looking for a job in the Wandsworth Board of Guardians in one of the Streatham wards is described as a "chimney sweep and author."

"It shows good economy" to buy a double strength Tarine moth proof bag to keep your furs from moths. All sizes are sold at Gibson's Red Cross drug store.

IN OLD LAND

Behring Straits Tunnel Project Rejected.

ULTIMATELY LINK

TRANS-SIBERIAN AND C. P. R. RAILWAYS.

Former Governors of Colonies Must Not Engage in Commerce in Territories Where They Formerly Administered.

London, April 4.—A St. Petersburg despatch says the cabinet had rejected the proposal for the construction of the Behring Straits railway tunnel, by means of which it was ultimately hoped to link up the Trans-Siberian and the Canadian Pacific railways.

A circular issued by the secretary of state for the colonies, the Earl of Elgin, advising all former governors of colonies to refrain from engaging in commercial enterprises in the territories which they formerly administered, has resulted in establishing the fact that there had been an increasing tendency of late on the part of retired governors of the smaller colonies to take a prominent part in the management of companies which on such occasions had been suggested to the subject were asked in the house of commons during the past session, some of the inquiries intimating the ex-governors had used their political pull to secure concessions.

Are Quieting Down.

London, April 4.—The Times correspondent at Bucharest, wires that tranquility has been restored in most of the revolted districts. Disturbances however are reported from the Jalamak district, hitherto quiet, and from the Otletic districts. Reports from Moldavia have arrived in the Mehadini department, where the disturbances have been widespread. The village of Opetichero has been bombarded.

Camping In the Snow.

Billis, Armenia, April 4.—The earthquake, last Saturday, did much damage. A large number of homeless people are camping in the snow.

Refused a Landing.

Passengers From St. John Turned Back at Digby, N.S.

St. John, N.B., April 4.—The Dominion Atlantic railway steamer Yarmouth, which left here for Digby, N.S., yesterday morning, with about forty passengers, returned, last night, with the ship's crew, but no passengers. The board of health officials said if they landed they would be put in quarantine, so all returned.

It is said, however, the mails were gotten ashore, but no freight was landed. There have been some cases of anaplex in the lumber camps, some twenty miles from St. John, and a few days ago a lumberman who had pneumonia, and still showed signs of it, was found on the Yarmouth at Digby, having eluded the examining doctor here. He was returned to St. John and placed in the isolation hospital and the steamer fumigated. This was her first trip since. It was said by officials of the line that the Digby authorities announce they will not let any passengers from St. John land unless satisfactory evidence of successful vaccination is given.

MEETING OF THE KINGS.

Likely to Improve Understanding As to Morocco.

Madrid, April 4.—The preparations for King Alfonso's journey to Cartagena, April 6th, to meet King Edward, have been completed. Government circles here regard the meeting of the two kings as likely to improve the understanding between Great Britain, Spain, France and Portugal relative to Morocco.

Brazil May Buy German Arms.

Cologne, Germany, April 2.—Four Brazilian army officers, representing the ministry of war, have arrived here. After visiting the Krupp works at Essen they are going to Berlin. It is surmised they may buy arms.

For a Fifty-Mile March.

Ottawa, April 4.—During the summer drill season, the 43rd Regiment will undertake a fifty-mile march. They will entrain for Prescott, May 22nd, and walk from there to Ottawa.

Just Elected; Drops Dead.

Denver, April 4.—During a celebration in honor of his victory at the polls, James A. Gilmore, mayor-elect of Caribou, dropped dead from apoplexy, yesterday.

Selwyn Postmaster Dead.

Peterboro, April 4.—James Bell, for the past twenty-five years postmaster at Selwyn, died, yesterday. He was seventy-six years of age, and leaves a widow and family of five children.
