Their Temporal, Physical And Spiritual Needs

Every Minister or Clergyman Should Be a Philanthropist to Accomplish Effective Spiritual Work.

No man is in a better position to

scatter blessings and sunshine all along his pathway than the minister of the gospel. Many of them, however, forget that their office and ministry, not only includes ministering to their spiritual need, but also to their physical and temporal needs. It has been amply proven that spiritual good can be much more effectually accomplished by the minister or pastor who manifests an active sympathy with physical and temporal requirements. Rev. E. Burrell, Baptist minister of Forest, Ont., is one of those who, when he has the priceless blessing of health brought into his home, does not forget to use his influence and ministry to bless other homes. He is numbered among Psychine's warmest friends, because it brought sunshine to his home, And Mr. Burrell has two splendid reasons for the good words he speaks for this great remedy. The first and best one is that it cored his

wife. Speaking of that case Mr. Bur-"Several years ago my wife was so seriously ill of lung trouble as for months to be unable to well at which time a noted physician tall me that the next dress that I would hav for her would be a shroud. She need Psychine and is now reasonably well." Rev. Mr. Burrell has also noticed the good work Psychine has done for others, Speaking of one case in particular that came under his notice, that

of a Mr. Galbraith, he says "His was an extreme case, appar ently, so far as I could judge, a hopeless case, and yet he is now so much improved as to be away on a visit. Previous to going he was taking Paychine and was gaining at the rate of 31 pounds per week, and was again quite well and able to walk about. The doctors absolutely gave him up."

Psychine, pronounced Si-keen, is not only a cure for advanced lung trouble in many cases, but is an absolute specific for coughs, colds, bronchitis, catarrh, la grippe, night sweats, pneumonia, stomach trouble, and all the diseases that lead to consumption The time to cure consumption is beore it begins that is, cure the trouole that leads to it.
