CONSTRUCTING FIREPROOF OUTBUILDINGS.

Serious efforts have recently been made, to reduce the frightful loss from lightning and fire on Canadian farms. And they have been wholly success ful, not only in securing a thoroughly lightning and fireproof construction, but also in bringing the price down to, and even below, that of the old-time board and shingle barn.

The new plan is to use corrugated galvanized sheets for roofing and sidlight purlin strips being necessary. Such buildings are now becoming very common, and users everywhere affirm that "Acorn Quality" Corrugated Galvanized Sheets, manufactured by the Metal Shingle & Siding Co., Limited, of Preston, Ont., is the Hague convention. most satisfactory material known for
