PEARL KING TO RETIRE.

Amassed a Fortune Trading in the Gems.

San Francisco, April 12.—E. Levy, the pearl king of Tahiti, is about to retire from business in the islands and live in Paris. He has amassed a large fortune by picking up pearls among many islands of the Tuamotu group. When Levy came out to Papeete twenty years ago, he brought a dozen, in which he sailed among the islands and bought pearls from the natives.

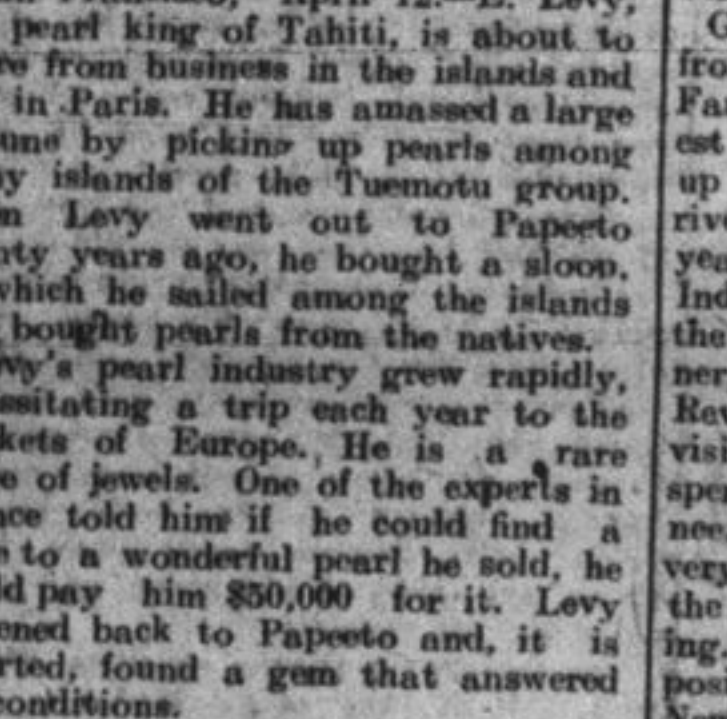

Levy's pearl industry grew rapidly, necessitating a trip each year to the markets of Europe. He is a rare judge of jewels. One of the experts in France told him if he could find a pearl to a wonderful pearl he sold, he would pay him \$20,000 for it. Levy hastened back to Papeete and, it is reported, found a gem that answered the conditions.

Women Suffer Agonies from Kidney Trouble

GIN PILLS CURE THEM

There is Mrs. Ripley, for instance. She suffered terribly with her back. It ached, ached, ached—all the time. Even in bed, it seemed as if she could not get easy. It finally became so bad that housework was impossible.

She certainly was a discouraged woman when she began to take GIN PILLS. And there isn't a happier, healthier woman in the Dominion than this same Mrs. Ripley to-day.

She writes: "I cannot refrain from writing you the benefits I have received from GIN PILLS. Before I had taken GIN PILLS I suffered dreadfully with my back for many, many years. I have tried almost everything, but nothing would do for me. I have taken GIN PILLS and now I have not a pain or an ache in my back. I am life. There is nothing can hold place with GIN PILLS for the back to which women are subject. Yours truly, Mrs. Ripley."

Mrs. Ripley is Mrs. M. Ripley, of Kingston, Ontario. And the sick kidneys were making her back ache—were sapping her strength—and dragging her down. GIN PILLS really saved her life. GIN PILLS cured her kidneys. She has never well ever since. GIN PILLS are a grand medicine for women.

Try them at our expense. Mention this paper when writing and we will send you a free sample so you can see for yourself just what GIN PILLS will do for you. The Sole Drug Co., Winnipeg, Man. 5c. a box—6 for \$2.50. At all dealers.

KILLED BY A LOBSTER

A Chicago chef has just died from blood poisoning following a bite from a lobster. Zam-Buk applied immediately after that trivial accident would have saved that man's life! Zam-Buk is just as fatal to poison and disease germs, as these are fatal to us, and a little more or less, while we sometimes get Zam-Buk they give up the ghost without a struggle. One of England's leading analysts has proved this. Write to us for his report. Meanwhile, you contain a cut, a burn, a bruise, a scratch, or any injury just apply Zam-Buk. Two processes right away—cleanses the sore, thus preventing blood poison and suppuration, and commences to heal. Accidentally it takes out soreness. Soreness is not necessary to Nature's healing processes. See free sample offer in adjoining column. All stores and druggists sell at fifty cents a box. Nothing like it.

THE MAGISTRATE IS RIGHT

Magistrate Perry, of Goldfields, B.C., believes in making a good thing known, and we do not blame him either. Writing of Zam-Buk, he says: "After a very fair trial I have proved Zam-Buk eminently satisfactory. In my case it cured a skin rash of five years' standing which no doctor had been able to do any good for. I would certainly encourage any person to keep Zam-Buk in his home." He is quite right. Every home needs it. Is it in your home? If not, why not? All stores and druggists sell at 50 cents a box.

DESTROY THE CAUSE.

You Cannot Cure Dandruff Without Destroying the Cause of It.

Many people wash their scalps Saturday night or Sunday to try to keep the dandruff down for the week. But on Monday night the scalp has begun to itch, and Tuesday morning will find a good supply of dandruff when the hair is brushed. There is but one real scientific way of curing dandruff, and that is to kill the germ. It is an entirely new discovery and the only hair preparation in the world based on the new scientific principle. In addition Herpicide is a very refreshing hair dressing for regular toilet use. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c. and \$1. G. W. Mahood, special agent.

Festival Costume of Iceland

Iceland? The name is suggested a land eternally covered with ice. Iceland is a cold and alone northern seas, where a frigid pierce prevails and where human beings manage to subsist only by struggle and suffering.

Yet Iceland, bordering on the Arctic as it does, is a much pleasanter place than is generally supposed. The climate, as that of England, the climate; the gulf stream, leaving the British Isles, warms the British Isles, warms the little island warming it into life.

During the summer—June, July, August—the rarefied air is warm, golden, as warm, almost, as up June day in the United States. Sometimes, no snow falls in winter. And the people are the most civilized beings, brothers of Eskimo? No, indeed.

During centuries of national pride the old spirit of the roving Vikings became extinct. Yet beneath the quiet exterior the people is much nobility of the and adventurous bravery. The mild, happy and hospitable people the most hospitable people on earth. Big and brave are the men, and pretty the women. They are not illiterate; there of the entire population of some 50,000, all over
