Daily Whig. MACLEAN ON THE WARP. Some days ago Mr. Borden challenged Mr. Maclean to "stand up in the house" and state that he was in an alliance with the government on the insurance case.

Mr. Borden had endorsed Mr. Foster's complaint, that the commission had gone out of its way in order to injure conservative members. He had insinuated that the commission was political in its aims and purposes.

Mr. Maclean scouted this theory completely and showed that the insurance commission had led to some of the expected revelations, that it had done "splendid work," and that there was a great call in parliament to follow it up.

UNWRITTEN LAW IGNORED. The trial of Thaw, described by Mr. Jerome as a "vulgar, sordid, Trenchardian murder," is to be regretted, because the country does not want a second sorting of the material that had an airing in connection with it.

SPOTTING NOTES. Interesting Items on Various Sporting Topics. It is said that Bismarck will draw a salary of \$3,500 from the Boston Club this year, and Collins \$7,500.

A MAN AMONG MEN. All who have read the speech of Mr. Aylesworth in parliament, in reply to Mr. Foster, must have been struck with its manliness. The minister of justice had suffered long and patiently from the taunts of Mr. Foster, denouncing it unflinchingly to take notice of the petty personalities in which the ex-minister indulged.

COAL! The sudden changes in weather ought to suggest the wisdom of putting in some good coal. It's the kind that sends out the most heat, and makes the home comfortable; it's the best money can buy, and there is none better mixed.

Windsor Table Salt. ought to cost more—it's purer, finer, more carefully prepared. But it's no dearer than other brands of standard quality.

ATTEMPT AT SUICIDE. A GANANOQUE GIRL JUMPED INTO CREEK. On Sunday Afternoon, But Was Rescued—Residents Complaining of Very Poor Water Supply.

Gananoque, April 15.—On Sunday afternoon, Miss Margaret Beerman, daughter of Mr. and Mrs. Henry Beerman, Brock street, threw herself into Gananoque Creek in the rear of (Prospect) Andrew's boat building establishment near the swing bridge, in a fit of mental aberration.

Considerable dissatisfaction is being expressed by people round town, who are connected with the waterworks system. Garden street in the North ward has just been able to get water within the last few days. North street was shut off up to Saturday last. These conditions have existed for the past two months.

Mr. Borden cannot be over the distinction he received by the special mention Mr. Foster made of him in the Lefebvre letter. The leader of the opposition will be more careful as to who constitutes his party when he makes another trip across the continent.

Mr. Maclean is surely qualifying for the leadership of the conservative party. It is remarkable that he alone of all who were in the storm centre, last week, had the good sense to see that the issue of the hour was not what some members thought of themselves but what parliament thought of the insurance report.

Over fifty miles for the great Marathon race to be held by the Boston Athletic Association, on the twenty-five mile course between Ashland and Boston, have already been received. The Chicago National League championship was presented with umbrellas just before the opening of the season. Judging from the weather, fur overcoats would have been more appropriate.

The Corinthians, the celebrated English footballers who played in Canada last summer, are now making a tour of South Africa, and will not return to Canada for several years. The Pilgrims may come to this country in a month or two.

Manager Elliott's efforts to collect firm basis, still lacks about \$300,000 money to put the Oswego team of the amount necessary. He is negotiating with Raymond J. Galvin, a fast outfielder, at present playing on the Gorgeville university team.

Medical science doesn't seem to be able to tell us what we should do about it; another professor says another thing, and all the time people keep on suffering terribly. Now what's the use of wasting words in arguing the matter? Why don't you get some Hutch Tablets and try them? Take one after each meal. Plenty of people have cured themselves in this way, and that ought to be proof enough that it will cure you, too. It is an unusual medicine and does unusual things. It's a doctor for 200 cents per bottle for 100 cents per dozen.

Women in Our Hospitals

Appalling Increase in the Number of Operations Performed Each year—How women May Avoid them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on the snow-white beds women and girls, either awaiting or recovering from serious operations. Why should this be the case? Simply because they have neglected themselves. Female troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the abdomen, nervous exhaustion, pain in the small of the back, dizziness, flatulency, displacements of the organs or irregularities. All of these symptoms are indications of an unhealthy condition of the female organs, and if not heeded the penalty has to be paid by a dangerous operation.

When women are troubled with irregular, suppressed or painful periods, weakness, displacement or ulceration of the organs, that bearing-down feeling, inflammation, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, they should remember there is one tried and true remedy.

Dr. Lydia E. Pinkham's Vegetable Compound succeeds where others fail. It is a simple, natural, and safe remedy for all female troubles. It is made of the most potent and purest vegetable compounds, and is the only one that will cure the most stubborn cases.

ON QUIETLY

When the organs work harder than they are made to, the general health suffers. People are troubled with various diseases, such as Kidney Complaint, which may have been in the system for years. There may have been a swelling of the feet, a discharge from the urinary organs, a deposit in the urine, a cloudy or sandy or cloudy urine, a pain, or a burning or stinging sensation when urinating, etc.
