EDMONTON NOTES. The liberals are the true defenders of provincial rights. When the Tories were in power in Ottawa we all know what happened.

A POLICY OF ABUSE. The Toronto Telegram does not hesitate to say that the government has blundered, seriously, upon the license question. It simply surrendered to the mob who are in political control at Toronto.

CURE KIDNEYS EARLY. All serious kidney ailments are slight ones in the beginning. Any case of diabetes, Bright's disease, etc., can easily be avoided if the earliest signs of kidney disorder are heeded.

TUMULT IN THE OPPOSITION. The venom with which the conservatives at Ottawa are influenced is displayed in their last attack on Mr. Ayleworth. A bill was before the house, giving power for certain extensions to the Hamilton Radial railway, and the question, under discussion was the propriety of parliament having to do with it.

Luck Of A Windfall. The harsh forest laws of William the Conqueror are responsible for the manning of good luck now so often associated with the term windfall. Under the Norman it was a criminal offence to cut down timber in the forests; but as the peasants were allowed to gather whatever wind the wood had blown down, they always hailed a storm as an omen of good luck.

A Great Hat Combine. In our hats are combined pleasing good style, high quality and low price. See our surprising values in \$2 and \$2.50 derbies. Campbell Bros., Kingston's style centre for men's hats.

As to the merits of the bill he had formed no particular opinion. Mark the conclusion sentence of this extract, which is the Mail's summary of the hon. gentleman's statement. He was giving information in passing, without pretending to champion the bill, and while distinctly stating that the measure would have to stand upon its merits. Yet the conservatives, almost without exception, referred to him again and again as the friend of the company, and in one case it was intimated that he was trying to serve the Hon. Mr. Gibson, president, and ex-attorney-general of Ontario.

They will retain the rank of emeritus professors in the university.

George Delamoyl Ferguson is the son of the late Archbishop Ferguson, for some years proprietor of the Montreal Herald. He was born in Montreal, and received his primary education in the Royal Grammar school of that city. Then he entered Queen's College, Kingston, where he graduated as bachelor of arts, in 1881.

Regarding the student vote. Why should the registration of the young men, and their active interest in political events, be such a spectacle as the conservatives organ presents? Do the students not conduct themselves as well as any other class in the community?

David McClure, lawyer, and one of the Thaw insane commission, has been talking since the trial and surprising people with his shallow reasoning. Jerome knew his man and so wanted to see the minutes of the commission. They must present an interesting study.

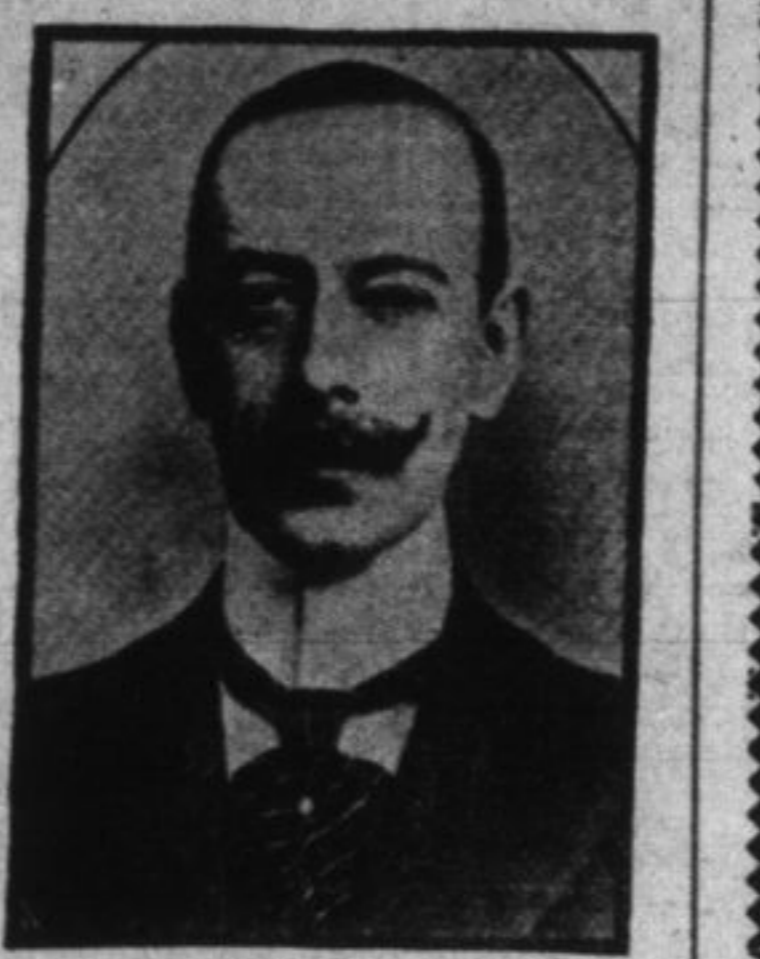

Dr. Allan Hamilton is after the commission which pronounced upon the sanity of Thaw. He says, referring to McClure and his theories: "Nothing could have been more absurd and incomplete than the examination of the prisoner by this individual and his associates, who could not even if they had seriously desired, have determined the existence of paranoia by the methods adopted. In fact, this part of the trial was the most farcical of all."

Scout Ste. Marie, Ont., April 24.—The Scull Ste. Marie Pulp and Paper company's mill was badly damaged by fire, this morning, when ten out of twenty-one dryers being destroyed, and also twenty-four of the screens. The centre of the mill was burned.
