**HEART TROUBLE CURED**

In the rush, hurry and worry of modern times, we overlook the heart. It is any wonder then that there comes a breakdown of this wonderful little engine, when such a continued strain is placed upon it day after day. There are many forms of heart trouble and the slightest derangement of this important organ is extremely dangerous. To strengthen the weak heart it is necessary to use a remedy that will act upon the heart tissue, restore and revitalize it and at the same time tone up and invigorate the nervous system, we have such a combination in

**MILBURN'S HEART AND NERVE PILLS**

Mrs. Ella Dingman, Morganston, Ont., writes of her experience with them: "It is with the greatest pleasure that I recommend Milburn's Heart and Nerve Pills. I have been troubled a long time with my heart; I had weak and dizzy spells, could not rest at night, and I would have to sit up in bed the greater part of some nights, and it was absolutely impossible for me to lie on my left side. At last I got a box of Milburn's Heart and Nerve Pills and they did me so much good I got another box and they effected a complete cure. I have not been troubled with my heart since."

Price 50 cents per box or 3 boxes for \$1.25 all dealers or mail order on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

**Can't Wash Them Out**

No other method of home dyeing ever devised gives colors so bright so fast, brilliant and handsome as DIAMOND DYES.

Each of the fifty colors of DIAMOND DYES give full, bright and fashionable shades that strong sunlight will not fade nor soap-water wash out, two things that are not true of the unadulterated and common dyes sold by some merchants for the sake of large profits.

When you buy diamond dyes for home coloring work, see that your merchant hands you the DIAMOND DYES. If he recommends other dyes, he does so for his own profit.

If your merchant is out of any special color of DIAMOND DYES, write to us for them, stating what material you wish to color—all wool, silk, cotton or mixed goods. Price for all colors of DIAMOND DYES, ten cents each.

This month we will send free of any address: New Diamond Dye booklet and pretty Souvenir Card for baby. Wells & Richardson Co., Limited, Montreal, P.Q.

**THE SPORT REVIEW**

**WHAT IS GOING ON IN CITY CIRCLES.**

Soccer in Manitoba is flourishing—The United States Always Calls Canadian Champions its Own.

The Queen's Cricket Club, recently amalgamated with the Kingston Cricket Club, is in receipt of challenges for home and home matches with Toronto, Calgary and Ottawa clubs. The club will start practice as soon as weather permits and it is likely that the challenges will all be accepted.

**The Marathon Race.**

In view of the proposed Marathon race in Kingston the bellefille intelligencer says: "Get busy, boys. A race of this kind would undoubtedly awaken considerable interest and might bring out runners who could successfully compete with any ones at Toronto and Hamilton. The scheme is meeting with approval wherever mentioned."

**To Play Pool Match.**

P. Hunt and A. Willie have been matched to play a pool match on Monday and Tuesday evening. The match this time will be for \$100 a side.

**Will Try To Land It.**

Regioispolis college baseball team had a practice at the cricket field last evening. The boys are in good condition and expect to land the championship of the city league.

**Sporting Notes.**

Boxing is to be resumed in Chicago again under certain restrictions, after being under the ban for two years.

It is rumored now that Brother Jerry will follow Alf. Smith to Chicago to play lacrosse and jump into the International Hockey League team next season of the Ottawa canoe clubs will support the boys to win the C.A.A.U. The question will be brought up on May 4th, at the annual meeting of the C.C.A.

Sherring said: Longboat's performance was really wonderful. With proper handling you ought to win all the distance events at the London Olympic games of 1908. He is the one man in America to run twelve miles in the hour, and on a good track is possessed of the speed to beat all records from one mile to twenty-five.

Soccer in Manitoba is a most flourishing game. Last season the number of registration forms issued by the secretary of the Manitoba A. P. and received filled in was 1,525. This number will be easily exceeded this year. Already over a thousand forms have been returned, although the season is still some way off. It is estimated that by the commencement of the league schedule the number of registered players will have exceeded two thousand.

Summers, the English featherweight champion, who arrived in New York on Sunday, is anxious to arrange a match with Battling Nelson. He has posted \$1,000 to bind the match and will let his opponent go as a sure bet that he can beat Nelson. Summers can easily make the featherweight limit, and he says he will appear at the ringside at any weight Nelson may dictate.

The following figures on the population of the cities, including the outlying territory reached by trolley or steam railroads, from which much of the patronage is received will best show the strength of the Eastern Baseball League: Baltimore, 700,000; Newark, 600,000; Jersey City, 520,000; Buffalo, 475,000; Toronto, 425,000; Providence, 400,000; Montreal, 450,000; Rochester, 370,000.

It's always a cinch bet that when a Canadian accomplishes anything out of the ordinary in an athletic event, that the United States will claim it as their own. Here's the latest from New York: "Longboat is a Canadian runner, it is true, but it is impossible to get away from the fact that he is first of all an American, with a better claim to that name than any other athlete and if he enters the Marathon race in the Olympic games next year he is picked as the man who will win for the Western Continent."

For the season just opening up President Powers predicts the greatest baseball year ever experienced in the Eastern League. Every indication points to this. The clubs will appear better fortified for the race this year than ever. The weaker clubs last season have strengthened this year to such an extent as to prove strong factors in the race for the flag, and the fighting will be hot for the first division.

During the sixteen years of the Eastern League's existence President Powers has served fourteen terms, or will have counted the present one. When the league first branched out from the International and American Associations to the present, C. D. White, became its president. The next year P. T. Powers assumed control, and retained the presidency for thirteen consecutive years. He was succeeded last year by Harry L. Taylor, of Buffalo, but was returned to his office at the last annual meeting.

**Both As A Bridge-Player.**

Gen. Botha, in addition to being the Washington of his country, is an expert at the bridge-table. A story goes that, after the surrender at Vercennes, the Dutch general and the English officers appointed as a travelling committee to arrange the details of the surrender of the various posts had depots amused their leisure hours with bridge. By the end of the expedition, when the job was done, the English officers had gained experience, but the present prime minister of the Transvaal had got their cash. On his arrival in England, Lord Grey and Dewet he occasionally solaced the gloomy hours of remembrance of defeat by a game of bridge.

Do not suffer from sick headache a moment longer. It is not necessary you. Dose, one little pill. Small price. Curly Little Liver Pills will cure Small dose. Small pill.

The erection of a geological museum for the University of Toronto will, it is said, soon be commenced.

**DRESS AND ADDRESS.**

Articles By a Lady and Gentleman on the Ethics of Men's Dress.

The publication of a new book with an edition of 100,000 copies entails a great deal of work on the part of the author.

Five artists contributed to the making of the book, which has been named "Dress and Address," each artist being given a suit of semi-ready clothes with the request that he reproduce in pigment an exact representation of the suit. This was considered a more life-like way of showing the suits than by photography, as the engravers said they could not get good plates from photos. "Dress and Address" can be had free from the Semi-ready store. The H. D. Bly Co., 75-82 Princess street.

**Blouse of Pale Blue Mull.**

Cluny heading and fine German Valenciennes were used in trimming the blouse shown in the drawing. A bow-tie design was introduced on the lower part of the bodice and sleeves, the thin yoke being outlined by the insertion run in pink also effect. Cluny heading was used about the collar and yoke and on the sleeves.

**The Bilean Way To Health.**

Stomach and liver complaints and their symptoms—headache, indigestion, constipation, piles, blood impurities, etc.—cannot be cured by taking drugs which "overdrive" these organs. Yet that is what more purgatives do: Bileans, on the contrary, help the organs to fulfil their functions. Bileans are composed of pure herbal extracts specially prepared in accordance with a valuable and unvarying formula, which is the sole property of the Bilean Co. They possess a perfectly natural action, and do not irritate or regulate all the functions of stomach, liver and bowels. A splendid spring blood purifier! All stores and druggists at 50c. or from Bilean Co., Toronto, for price.

**Donaldson Doings.**

Donaldson, April 24.—J. Chapleau has returned to the west. William Munnell, jr., and Neal Morrow have gone to Great. Invitations are out for a wedding at Fish Creek, Wednesday, April 24th, the contracting parties being Miss D. Munnell and G. Amell. Visitors: Alfred Munnell visited his home here; H. Thompson visited his sister, Mrs. T. Sargant; Miss Maggie Munnell spent Sunday with her parents. A little boy has come to stay at S. Allen's. The farmers are busy doing their spring ploughing. The new hospital, located in the Kingston general hospital, is visiting her parental home here. William Sproule purchased a three-year-old colt from William Lee. Miss Nicholson is ill and Miss Mamie McKinnon is teaching in her place. Hopes for her speedy recovery. A little girl has come to brighten the home of R. Richardson. Church service will be conducted here, on Sunday, by Mr. Little. Gen. Botha has been removed to the Kingston hospital. William Webb has gone to Smith's Falls.

**Leaves For Exposition.**

Washington, April 25.—President Roosevelt, accompanied by Mrs. Roosevelt, two younger sons, Archie and Quentin, and Miss Ethel, left town, this afternoon, on their trip for Jamestown exposition. They sailed down the river on the Mayflower, which will be his headquarters until he returns. Exposition day, April 26th, will be a busy day for Mr. Roosevelt. Various functions, including his speech, will occupy the time from 11 a.m. up to 1 p.m. Some time between the latter hour and eight o'clock there will be a reception to the governors of states, diplomats and other guests. At eight o'clock the president will be the guest at dinner of Henry St. George Tucker, head of the exposition company, at his home in Norfolk, following which, the Mayflower, with Mr. Roosevelt and his family aboard, will return to Washington.

**Botha As A Bridge-Player.**

Gen. Botha, in addition to being the Washington of his country, is an expert at the bridge-table. A story goes that, after the surrender at Vercennes, the Dutch general and the English officers appointed as a travelling committee to arrange the details of the surrender of the various posts had depots amused their leisure hours with bridge. By the end of the expedition, when the job was done, the English officers had gained experience, but the present prime minister of the Transvaal had got their cash. On his arrival in England, Lord Grey and Dewet he occasionally solaced the gloomy hours of remembrance of defeat by a game of bridge.

Do not suffer from sick headache a moment longer. It is not necessary you. Dose, one little pill. Small price. Curly Little Liver Pills will cure Small dose. Small pill.

The erection of a geological museum for the University of Toronto will, it is said, soon be commenced.

**Tips For The Farmers**

BY UNCLE JOSE.

According to reports, the cold weather of the past few weeks has been very hard on wheat. It is stated that in some cases where the prospects of a bumper harvest looked bright in the spring, it has almost been destroyed. The warm weather in March caused the wheat to grow rapidly, and within a few days the fields were green. The frost returned and the tops ran the grain withered, and it is feared that it has been killed.

Reports from various parts of Ontario state that clover suffered a great deal from the cold. Like the wheat, it commenced to grow with the warm weather in March, and had just reached its tender stage, when the cold weather returned and damaged it.

According to the reports received by local vegetable growers, the market gardeners are planning for a good season this year. However, special conditions have not been as good as they might have been, to bring about active work. The season as a whole, has been very late, and green house crops have not done as well as usual, but there is a good demand especially for radishes, lettuce and rhubarb.

It is always a mistake to buy cheap seed. The best is never too good, you must run the gamut of insects, diseases, and bad seasons, and it is not best to complicate matters with a cheap start. In melon culture as in every other farm venture, whatever is worth doing is worth doing well. The time to plant is when you plant corn. In present day culture the crop is advanced two weeks by starting the plants in hot beds.

Recent heavy snows through the North-West will hold farmers up on early spring work; in some places replacing will be necessary while others are waiting for more settled conditions before starting. In some places the snow is still on the ground as deep as in the winter. Many thousands of bushels of wheat are yet to be marketed.

"The plan of hopper feeding with grain and dry feed is a great labor saver," says a writer in the American Poultry Advocate. "One who has tried feeding a daily meal to three or four hundred head of poultry will say that it is something to be avoided if possible. Fill up the hoppers twice per week and let the fowls balance their own rations. I have not tried this system long, but my experience with it so far is very favorable. As in other instances, the labor-saving plan seems to be the one productive of best results. I have never as yet fed much corn in the hoppers, thinking that it would make the fowls too fat, but this may not be the case. Thus far for hopper feeding I have fed mostly oats to the hens and wheat to the chickens. I find that a box four feet long, one foot wide and eight inches deep, with slots on top, answers the same purpose as the hopper. In fact the boxes do not fill the grain like the regular hoppers sometimes will."

**Have Energy To Do.**

Human energy is almost unlimited in its power. Energy comes from rich, vital blood. Weakness and failure result when blood is weak and impure. Have abundant mental and muscular energy by enriching and vitalizing your blood with Wade's Iron Tonic Pills. They help almost at once.

They are a great nerve strengthener and blood maker. In boxes, 25c. in Wade's drug store. Money back if not satisfactory.

William Willard Holden, Gore Bay is the first appointment as provincial inspector of fish and game. The position carries with it \$1,600 a year. In the Brandon election trial the petitions against Hon. Clifford Sifton and the cross petition against R. L. Richardson were dismissed.

**Nervous?**

Do You Brood? Have Morbid Fears? Toss In Your Sleep?

Your Physical Condition is Below Par and Must Be Built Up—Try Ferrozene.

All the vital activities of the body are quickened into new vigor by Ferrozene, which contains all the constituents necessary to make nerve strength.

Its first action is upon digestion. It stimulates the secretion of gastric juice, ensures perfect digestion, and prepares the food so as to be easily assimilated.

Thus everything you eat is converted into nourishment that enriches the blood and lends new strength to the nerves.

By Ferrozene the mind is relieved of those brooding tendencies, of morbid unattractive fears, of unwillingness to concentrate attention on things that should be done.

Won't you try Ferrozene? Won't you give it a chance to win you back to health; it will do it, just as it did for Mrs. C. Wright, Zink, of Palm St., Lunenburg, N.S., who says: "I want to give my experience with Ferrozene because I believe it will be of assistance to thousands of women who need it. It sold, I would say, run down in flesh and lack of color. My nerves were in a dreadful state. If anything fell I would jump and start. At night I would suddenly wake up, heart palpitating and all keyed up. Ferrozene went right to work. It restored my poise and balance, gave me self-control, cured my nervousness. Ferrozene increased my appetite and my weight came up so fast that I simply didn't need to use it any longer. Eight boxes cured me."

Why won't you use Ferrozene also, it certainly will do you good in many ways—sold by all druggists in 50c. boxes.

Globe-trotters may talk of the Coffee served by the Turks. But they can get coffee at home just as rich, delicious and fragrant—by ordering Chase & Sanborn's SEAL BRAND COFFEE from their grocers.

**Larder Lake Goldfields**

As stated in my news letters last summer I then began investigating the Larder Lake district north of Cobalt. I have done so thoroughly, and from personal investigation on the ground, the employment of reliable engineers and a corps of experienced prospectors, I and my associates have now ample proof of the great value of this field.

We know so surely what is there (and what immense probabilities there are as well) that we have already put nearly \$100,000 cash into the field.

Our employees on the ground number nearly one hundred, and our stamp mill will very soon be in operation.

I am a practical mining man, and I need hardly say that we would not put in such money and work unless fully justified.

The width of the veins or reefs in sight, and the values they bear when such width is considered, is extraordinary. In Africa such reefs are profitably mined when bearing but a few pennyweights of gold to the ton—at Larder Lake average assays from across many reefs run ounces of gold to the ton. An ounce is equal to \$20, and the cost of mining and milling should not exceed \$2.50.

I and my associates see many millions of dollars of clean legitimate profits before us in these goldfields.

By forming a company, putting up our hard cash, as stated above, and getting in first, we have secured thirty-seven forty-acre claims which we believe to be the cream of the Larder Lake Goldfields.

Our present stamp mill is a small one. We want a larger mill—from 100 to 200 stamps—and we must spend money in opening up our large acreage.

We have put in considerable money, and, indeed, would carry the whole thing ourselves but that, like everything else, we have other interests as well to take care of.

We are therefore affording others the opportunity of joining us and sharing with us the large profits we are going to make—profits from dividends, and also from the increase of market value in our stock.

Our Company is known as the LARDER LAKE PROPRIETARY GOLDMINE, LIMITED; and among the directors and gentlemen identified with it are the following: Col. G. Sterling Byrnes, ex-M.P.; Senator L. Y. Urey; Lieut.-Col. A. N. Worthington, member dominion parliament; T. Herbert Lennox, member provincial parliament; Charles H. Waterous, ex-mayor of Brandon; E. P. Bucke, of "Granby" fame; Dr. D. H. Piper, of London; P. Kirkpatrick, M.L.A., member National Geographical Society; Sylvester Jencks, president Jencks Machine Company; William Farwell, president Eastern Townships Bank; C. P. Brown, of Toronto; Dr. Preston, member provincial parliament, and others of like standing.

For the purposes mentioned above a limited amount of stock is offered by the underwriters (Canada Mines Limited) at their first ground floor price of \$1.00 per share. This is being subscribed for rapidly and the next allotment will be at a materially advanced price. The stock will then be listed on the exchanges and placed on the New York and Boston curb, when, as in every proposition I have been connected with, it will, without doubt, command a legitimate market at a still higher price.

This opportunity will not last long.

Those desiring further particulars, maps, detailed reports, etc., before joining us, please write, phone or telegraph me at once.
