FIXED A MISTAKE

WRONG BABIES GIVEN TO TWO YOUNG WOMEN

One, Mother of Boy, Gets Girl, the Other, Girl's Mother, a Boy.

Paris, April 27.—A curious mistake occurred, yesterday, at the hospital at Amiens. Two young women had recently been attended there. One had given birth to a boy, and the other had given birth to a girl. Yesterday their babies were taken from them to be vaccinated. After the vaccination the babies, in their swaddling clothes, were returned to their mothers, who went away with them.

Soon afterward one of the mothers returned to the hospital in tears. Her child was a boy, but on returning home she discovered that the nurse had handed her a girl. She insisted on her boy being returned to her.

A scene of great confusion occurred, as nobody knew that address of the other mother. At last, toward nightfall, the other mother arrived, greatly excited, complaining that she had been given a boy in mistake for a girl baby. The change was duly executed, and the two mothers went away happy.

CAN IT BE REPEATED

To Ascertain if Webb's Feet is Possible.

Paris, April 27.—A most determined effort is to be made to see if Captain Webb's famous feat of crossing the Channel by swimming is humanly possible to repeat. The "Auto" has announced that it will select three of the best French swimmers who will make an attempt by relaying each other. It is to be arranged thus: The best French swimmer is to take to the water first, and the others are to accompany him by boat. When his strength is spent he will be succeeded by another, and, should the second not succeed, he will be followed by a third who will try to finish the journey, but on no account will a swimmer who has left the water be allowed to continue in the attempt. It is hoped to settle the question as to whether the terrible currents which, since Captain Webb's time, have always thwarted even such good swimmers as Holstein and Burgess can be overcome by men who are fresh and un-fatigued. The "Auto" has suggested that a match against three swimmers of another nation would make this sporting event of no small importance.

A CITY MARRIAGE.

Rev. W. H. Sparling officiating. The bride was attended by Miss Nora Ross, sister of the groom, as bridesmaid, and Miss Lillian Robinson as maid of honor, R. Gage, city, assisting the groom. The bride was attired in a most becoming gown of white habotau silk, with veil of Brussels net and wreath of white hycinths, a magnificent bouquet of white roses completing the charming effect. The bridesmaids wore white silk and carried pink roses, and the maid also wore a dainty frock of white silk. The ceremony was conducted beneath an arch of evergreen, and white tulips, in the presence of the immediate families of the contracting parties, the only outside guests being Mrs. Fraser, Brook street, Mr. and Mrs. Valleau, Morven, grandparents of the bride, and Misses Edith Robinson and Edith Wiskin, Gananquo, cousins of the bride and groom respectively. After the ceremony the numerous guests proceeded to the dining room, which was tastefully decorated in pink and white carnations and hycinths, where a dainty supper was partaken of, after which the guests departed leaving cordial wishes for many years of happiness and prosperity for the popular young bride and her husband. Mr. and Mrs. Ross will be with the bride's parents for a day or two, when they will take up residence at 21 Frontenac street.

Man Killed at Halleybury.

Halleybury, April 26. P. J. Neff, Detroit, while trying to board a north-bound freight train, caught his feet in a wire and fell under the wheels, which completely severed the head from the body. The station platform was crowded at the time. He was formerly employed as operator by the Grand Trunk railway, and came up prospecting. Was only about twenty-eight years of age.

A rich coal deposit of excellent quality was discovered within a mile of Strathcona, Alta. A seam six feet in width was uncovered. A company has been organized to operate the mine.

The Grand Trunk have given a contract to J. S. Metcalfe for the construction of a two million bushel elevator at Tiffin, near Midland.

Dentist Not Always Needed For Aching Teeth.

Toothache is usually due to neuralgia in the gums or to the congestion and swelling of the nerve pulp. An "Nerviline" relieves congestion, you can easily see why it cures toothache so quickly. Nerviline does more—cures any ache or pain—in any part of the body, and let it be feared, neuralgia, lumbago or rheumatism, so long as there is pain, "Nerviline" will cure. It's the marvel of all doctors why Nerviline is so penetrating and powerful. Hundreds of thousands of 25c. bottles used every year—and that is true proof of its merit.
