Inward eleansing is as necessary as outward bathing. To keep the bowels free and regular is of even greater importance than to keep the skin-pores from becoming clogged. The neglect of either invites disease. Everyone needs a natural laxative occasionally, to free the bowels of accumulated impurities For this purpose take

the greatest boon ever offered to those who suffer from the ills that follow constipation. For over fifty years Beecham's Pills have been famous as a Stomach corrective, a Liver regulator and Bowel laxative. They never gripe nor cause pain. Powerful purgatives are dangerous. Avoid them. Use Beecham's Pills. They give relief without doing violence to any organ. Their action is in harmony with physical laws. Take them regularly and the necessity for their use becomes less frequent. They are a natural laxative and a positive cure for Constipation, Biliousness, Indigestion, Sick Handache and Dyspensia. Prepared only by the Proprietor, Thomas Beecham, St. Helens, Lancashire, Eng.

It only scens like a few weeks since the world was startled with the announcement of the launch of the Breadnaught, the most tremendous fighting machine ever invented by mortal man. Previous to the launching, no whisper had been heard outside the walts of the navy yard of the building of this ocean giant, until it was seen show till he saw it broken up and on show till he saw ing could foretell. My wonder had For a Good Complexion hardly cooled, when, taking up another paper, I read an account of the launch of the Invincible, another ocean fighting monster of 20,000 tons displacement, nearly 600 feet long and with a speed of twenty-five knots an our, making her, with her newly-invented Turbine engines, the swiftest and most powerful death-dealing craft that ever floated on the stormy sea. Invincible surpasses the Dreadnaught in every respect, and the cost cannot be far from £3,000,000, or about \$15,000,000. One of the most unique auction sales

Italy, the poorest kinglom in Europe, began a great warship that could hold its own with anything affoat. Germany, France and Russia filled their navy yards with thousands of men, who worked night and day building ships, preparing for some event in the near future, which ooked like a universal war. The most astounding revelation was the action of Japan. Here was a nation which of useless materials. my early geography designated as semi-civilized, that closed its navy vard against all foreign engineers, and guided solely by the scientific knowledge they had picked up while laboring in a foreign warship, have constructed an ocean fighting ship that is equal to the best forms of naval architecture known to men. And here recurs the question, what

does this preparation for a general war mean? From the consecrated heights of Riverside, where rests the remains of our greatest hero, comes the solemn admonition, "Let us have peace." What cause have we for war? Prosperity has crowned the nation's work in every department of human the enormous amount of nearly three thousand millions of dollars. Dr. KOHR MEDICINE CO. P.O. DRAWER L.2,341 MONTREAL

As stated in my news letters last summer I then began investigating the Larder Lake district north of Cobalt. I have done so thoroughly, and from personal investigation on the ground, the employment of reliable engineers and a corps of experienced prospectors, I and . . associates have now ample proof of the great value of this field.

We know so surely what is there (and what immense probabilities there are as well) that we have already put nearly \$15 000 cash into the field.

.Our employees on the ground number nearly one hundred, and our stamp mill will very soon be in operation.

I am a practical mining man, and I need hardly say that we would not put in such money and work unless fully justified The width of the veins or reefs in sight, and the values they bear when such width is considered, is extraordinary. In Africa such reefs are profitably mined when bearing but a few pennyweights of gold to the ton-at Larder Lake average assays from

across many meds run ounces of gold to the ton. An ounce is

equal to \$20, and the cost of mining and milling should not

I and my associates see many millions of dollars of clean legitimate profits before us in these goldfields.

By forming a company, putting up our hard eash, as stated above, and getting in first, we have secured thirty seven fortyacre claims which we believe to, be the cream of the Larder Lake Goldfields

Our present stamp mill is a small one. We want a larger mill -from 100 to 200 stamps-and we must spend money in opening up our large acreage.

We have put in considerable money, and, indeed, would carry the whole thing ourselves but that, like everything else, we have other interests as well to take care of,

We are therefore affording others the opportunity of joining us and sharing with us the large profits we are going to makeprofits from dividends, and also from the increase of market value in our stock.

Our Company is known as the LARDER LAKE PROPRIETARY GOLDFIELDS, LIMITED, and among the directors and gentlemen identified with it are the following: Col. G. Sterling Ryerson, ex-M.P.P.; Senator L. V. Ulrey; Lieut.-Col: A. N. Worthington, member dominion parliament; T. Herbert Lennox, member provincial parliament; Charles H. Waterons, ex-mayor of Brantford; E. P. Bucke, of "Granby" fame; Dr. D. H. Piper, of London; P. Kirkgaarde, M.E., member National Geographical Society, Sylvester Jenekes, president Jenekes Machine Company; William Farwell, president Eastern Townships Bank; C. P. Brown, of Toronto; Dr. Preston, member provincial parliament, and others of like standing.

For the purposes mentioned above a limited amount of stock is offered by the underwriters (Canada Mines Limited) at their first ground floor price of \$1.00 per share. This is being subscribed for rapidly and the next allotment will be at a materially advanced price. The stock will then be listed on the exchanges and placed on the New York and Boston curbs, when, as in every proposition I have been connected with, it will, without doubt, command a legitimate market at a still higher price

This opportunity will not last long.

Those desiring further particulars, maps, detailed ports, etc., before joining us, please write, 'phone or telegraph me at once.
