Proprietary Goldfields, Limited Owing to the phenomenal rush for shares in the above company,

the first limited amount of stock at our first offering of \$1.00 per share will be exhausted sooner than expected. The price will then be materially advanced. I am not urging anyone to take on Larder Lake Proprietary. Hence this Canadian advertisement to give you notice that the ground-floor opportunity will

not last must longer. My following has consistently made money by acting on my advice. Thousands will testify to that.

I have never advised the purchase of a stock without it materially advancing in market value within a reasonable time. My method after placing a stock with the public is to see that it is listed on the Exchanges. In every such case the result has been a legitimate market at an advanced price.

That is my record. Larder Lake Proprietary will shortly be listed on the Exchanges

and placed on the New York and Boston curbs. I predict that very soon indeed it will stand at several dollars a share. I furthermore know that after the stamp mill materializes results, and it should be running within six weeks, that they will be of a sensational nature and I know that the stock will then surely see \$10 a share. A bold prediction, I hear some say, but those who shortly accept my invitation to take the trip to Larder on the special train I'm going to run from New York, Boston and Toronto will think my prediction conservative enough when they are on the ground and see what I and my engineers have been investigating and verifying for six

The facts about the Larder Lake Goldfields, and the Properietary Company in particular, are far too great to present here. Full particulars, however, may be secured on request by calling personally, or by mail, telegraph or 'phone.

Again I say, I am not urging the purchase of this stock, for it is selling itself even faster than we can take care of the orders from Canada and the United States-two days behind nowbut I am anxious that my Canadian following get into this, by far the best thing I have ever recommended, at our first offering
