COUNCIL BILL

Not Highly Regarded in Ireland.

UNIONIST PRESS

DENOUNCES IT AS THREATENING MEASURE.

Separation Predicted if It Become a Law—Said to Violate Every Principle of Common Sense and Constitutional Government—Witholds What Ireland Seeks.

Dublin, May 11.—The Irish Independent (Nationalist), commenting upon Secretary Birrell's Irish council bill, says it will put an end to an indefensible system of government by irresponsible and extravagantly managed departments. The government says the Independent is undoubtedly sympathetic, but it has devised a measure which gives Ireland the minimum she could expect.

The Irish Times (Unionist), declares that the bill violates every principle of common sense and constitutional government. Its adoption would be followed by separation as surely as night follows day. While giving Ireland everything that would be fatal to her peace and welfare, the bill withholds the one concession which Irishmen of all parties are agreed in demanding, namely, the right of conducting their own private business in their own parliament.

The Daily Express (Unionist), says that proposals so crude in their partisanship, and so reckless in their contempt for both principles and warnings, rarely minister to the judgment of a deliberative assembly. The Freeman's Journal (Nationalist), says that neither the apologists for nor the assailants of the bill can pretend that it is, in any sense, a home rule measure, nor even a substitute for home rule.

The Constitution (Unionist) says that the premier and his colleagues are reckoning without their best if they imagine that they can escape reform will secure the contentment of Irish irreconcilables.

TO REMOVE THE BAN

Against Canadian Cattle in British Isles.

London, May 11.—The president of the board of agriculture visited Deptford market, yesterday, it is believed, for the purpose of judging whether the precautions taken and the facilities existing there are sufficient to preclude any possibility of the importation of disease. Great hopes are entertained, at Deptford, that the visit is a prelude to the removal of the embargo on Canadian cattle. Mr. Cairnes, M.P., has given notice of a bill to remove the ban.

Honors Thrust On Them.

Paris, May 11.—The electors in the Commune of Grenoble have gone on strike. In the first ballot of the municipal election nobody voted. On the second ballot use was voted for sixteen officials, who were thus elected. Several of the successful candidates were greatly surprised by the honor thrust upon them.

Close Season For Snails.

Paris, May 11.—The snail dealers in the Yonne, on whom Parisians depend largely for their supply of this delicacy, are complaining of the unusual scarcity of snails.
They demand a "close season" in order to keep the quantity and quality of snails up to the average.

Golden Wedding In Workhouse.

London, May 11.—Mr. and Mrs. O'Brien celebrated their golden wedding in the Swansea workhouse yesterday. The mayors provided tea for the old couple. Mrs. O'Brien is bedridden, and has lost the use of her arms. The tea was followed by a concert.

Accurate information is the keynote of success in advertisement writing.

When people run across an important piece of information they are always interested in it, and if an advertisement tells them something really worth knowing about an article—something that shows its desirability from their standpoint—they may be counted upon to at least make an investigation.
The different characteristics of worthy articles are all of particular interest to prospective buyers, and there is generally one special feature that appeals strongly to many people. Therefore, it is the part of wisdom to make a series of advertisements convey definite information regarding each & every feature, so that finally the appealing feature will be brought to the attention.

The Whig goes into practically every home in Kingston.

That's why Whig advertising gets such gratifying returns.

A NOTED BANDIT.

TO BRING IT UP.

London, May 11.—There is reason to believe that Sir Wilfrid Laurier will bring the scheme for an all-empire route from Britain through Canada to Australia, and the Orient, before the empire conference next Tuesday. This scheme is now ready to be made public. It seems probable that the home government will give it favorable consideration.

SLEW HER SON

And Then Took Her Own Life

SHE WAS JEALOUS

OF HER HUSBAND'S ATTENTIONS TO ANOTHER.

A Tragedy in Allegheny, Pa.—Her Husband Found the Bodies When He Returned Home—The Woman Was a Canadian.

Pittsburg, Pa., May 11.—Because she knew her husband was paying attention to another woman, who lived but a few squares from their home, Mrs. Carrie Sigsworth shot and killed her eighteen-month-old son and then shot and killed herself, at her home, in Allegheny, some time during Thursday night. Her husband, Alexander Sigsworth, who is a prosperous machinist, found the bodies yesterday morning. He admitted to Superintendent of Police Glenn that jealousy had been the cause of the awful crime. Mrs. Sigsworth was about twenty-seven years old and came here, with her husband, a short time ago from London, Ont., where both are said to be well connected.

FATHER DISCOVERS IDENTITY

On Verge of Marriage With Own Daughter.

Tokio, May 11.—A strange incident is reported from Osaka, with the disappearance of a wealthy merchant named Sakamoto, who was to have married next week to a pretty girl of twenty.

Sakamoto, who is forty-two, was first married twenty-two years ago, but after the birth of a baby girl he quarrelled with his wife and deserted her at Omori, near Yokohama. He then went to a northern province and built up a lucrative business as a merchant. His wife died two years later, and the daughter was adopted by a family living at Osaka.

A few months ago Sakamoto retired from business and went to Osaka to live. He became acquainted with this couple, and finally arranged to marry their supposed daughter. He discovered quite by accident that his intended bride was really his own daughter, whom he had deserted nearly twenty years before.

Sakamoto disappeared after leaving a substantial sum for his daughter.

AMUSING COMPLICATIONS.

This Boy Baby Has Two Legal Mothers.

Paris, May 11.—An amusing story comes from Quimper, in Brittany, where the wife of a man named Le Saux last week gave birth to a boy.

The father took the child and sold it for \$40 to the wife of the local butcher, Mme. Bonan. The woman presented it to her husband as her own newly born infant, and Bonan hastened to register the child's birth.

Le Saux, fearing that he might get into trouble with the police, next consulted the butcher, whom he supposed to be a party to the fraud. The duped husband threw Le Saux out of the house. The latter then registered the birth of his own child, in the eye of the law, therefore, the infant has claims on two separate families and enjoys the unique distinction of being the son of two mothers.

HUMMEL GETS YEAR.

Appellate Court Confirmed the Former Conviction.

New York, May 11.—One year in the state prison and a fine of \$500, was the sentence imposed upon Abraham H. Hummel, the lawyer, convicted of conspiracy in the famous Dodge-Roose divorce case. Hummel was convicted in the supreme court several months ago, but appealed to the appellate division which has affirmed the conviction.

Troubles Arranged.

Washington, May 11.—The Mexican ambassador, Mr. Creel, announces that the trouble between Mexico and Guatemala, which threatened to terminate the diplomatic relations between the two countries, has been definitely and satisfactorily adjusted.

TAFT FOR PRESIDENT.

Strong Sentiment in His Favor All Over Country.

Columbus, May 11.—Chairman Voorhis, manager of the Taft forces in Ohio, says:

"All over the country the Taft sentiment is strong, but the prospect of his nomination has been somewhat clouded by a notion outside of the state that he would not get the solid support of Ohio.

The events of the past few years seemed to have culminated, to-day, in the voluntary withdrawal, without stipulation, of all opposition, and in the complete demonstration that the republicans of Ohio are solidly for Taft for president, and the movement will go forward now with every prospect of his nomination."

CHIEF LIEUTENANT OF GANG.

Woman Robber Chief is Run to Earth.

Paris, May 11.—A band of robbers, which has for a long time pillaged and terrorized the district of Loches, in Touraine, has at last been run to earth by the police, who found that the captain and the captain's chief lieutenant are women.

Capt. Maria Girard is a powerful woman, endowed with extraordinary energy, and she directed with remarkable skill the operations of the robbers. Her prowess and determination were such that she held absolute sway over all the lawless men of the band.

Among the crimes with which she will be charged is that of the murder of an old man whom she had robbed.

SENT TO CENTRAL PRISON.

A Farmer Who Forged Notes and Cheques.

Chatham, Ont., May 11.—Neil Edwards, a farmer, living near Wardsville, who, on last Saturday, pleaded guilty, before Judge Dowling, to the charge laid by the crown, of having on October 26th, 1906, passed a forged cheque, a note, a declaration and eight promissory notes, purporting to be signed by neighboring farmers, on the Merchants bank, of both sides, and signed himself as James Glasgow, was, to-day, sentenced to a year and a half in Central prison, Toronto. In his day he drove Sleepy George, Colonel Forrest, Kinsman, and many other famous trotters and pacers. He was the only known driver who carried a Bibb with him on the circuit. A coincidence was the fact that a long standing suspension against him was lifted at New York, yesterday, by the National Trotting Association. Smith had not received the news.

Disastrous Fire.

New York, May 11.—Fire, last night, did damage, estimated at \$500,000, in the building in Sixth avenue, occupied by Sheppard, Knapp & Co., dealers in furniture and carpets. The firm carried a very valuable stock of fine goods, including many high-priced Oriental rugs.
