St. Petersburg, May 11.—The deputy minister of the interior admits the truth of most of the statements of a report read on the tortures of political prisoners and suspects, with the object of extracting confessions. He promised inquiry into the actions the secret police and prosecution the guilty persons.

The report alleges that finger and toe nails and hair were torn out. Prisoners were flailed with india rubber sticks until the flesh was hanging in strips, and salt was then rubbed in. One young man, who was shot after having been tortured, had one leg almost cut off and his body covered with other wounds.

Another man was tied to a bench, a plank was then laid across his body and two policemen seesawed on it unjumped on the body of a third lad until his chest bones were smashed in and his internal organs were in such a state that he could only swallow water until he died

After being tortured and maimed wretches were generally shot near the Riga central prison. Old and young were treated alike. A child of cight for instance, was brutally flogged to make him tell where his father was. Deputies from the Baltic provinces declared, to-day, that it was impossible to state the number of those who had been torsured, but it was certain that all those who were shot or hange ed by verdiet of courts-martial passed through the "Museum of Rign." They added that the prisons were filled to overflowing with prisoners who had been awaiting trial for months, with only just sufficient bread and water to keep them alive pending their tor-
