### OF WHEAT CAUSED BY ANX IETY AS TO CROP.

Due to An European Shortage-Damage Reported Everywhere Except in France.

London, May 20.-The European wheat situation, according to the generally accepted view here, resolves itself into questions of supply and demand. It is explained that it is not speculation alone which has brought about the present high prices. The situation has been strongly influenced by buying for the demand.

Germany has been purchasing Australian and Argentine cargoes for nearly six weeks, the shortness of stocks in that country being caused o some extent by selling of considerable quantities of both rve and wheat to Russia, as last year's Russian crop suffered damage. Germany, therefore, must now get about 4,000,000 quarters more between January 15th and the end of July this year than 'she

lid during the same period last year, This fact is regarded here as mainly instrumental in causing the sutreeze, because the River Plate shipments are required by the United Kingdom, Germany and the Mediterranean, especial-It is also acknowledged that con-

siderable damage has been done to the winter crops, in Germany, Roumania, Hungary and along the Danube, extending to about forty per cent. One Bulgarian report says that in places it is about eighty per cent. From all Europe, France excepted the advices are unfavorable. The Russian crops are not only bad, but the political uncertainty in that country is also having a depressing effect on trade. The millers have been keeping down stocks to the lowest points possible, living from hand to mouth, ex pecting a drop in prices.

Cold weather in Great Britain also

to some extent helps the advance. In the past generally speaking, when there has been a shortage of wheat in the west, there has been plenty in the east, and vice versa, but this year both are bad, and naturally the price

The representative of a large Roumanian dealer informed The Associa ted Press that when he left Roumania some weeks ago the outlook was bad and that his advices fully confirmed the depression of the situation. He further said that unless rain fell very shortly the spring crop would be ruined and the export of wheat would be A dispatch received here from Mel-

bourne, Victoria, this evening, said that the wheat market there was strong, and that prices had advanced

Misses' Shirtwaist Dress.

The summer wardrobe of a young girl is incomplete without a shirtwaist suit. The very stylish design here shown is made of plaid gingham. The blouse is plain, with the exception of the "Gibson" plait extending we'l over the shoulder, which is a becoming feature. The sleeves are made long (or short if preferred), with flared cuffs of white material, trimmed with plaited frill. The rolling collar and box pleat down the front match

season to Quebec is but two weeks old, about 20,000 immigrants have already arrived.

Women Suffer Agonies from Kidney Trouble GIN PILLS CURE THEM

There is Mrs. Ripley, for instance. She suffered terribly with her back. It ached, ached, ached—all the time. not get easy. It finally became so bad moy, at T. Butterill's; Mr. and Mrs. is taken that housework was impossible.

The safeguards against all life's common ills are: A Sound Stomach, Healthy Kidneys, Regular Bowels Hundreds of thousands-both men and women-keep healthy by

remedy that has stood the test for half a century and is now used over all the civilized globe. They purify the blood, strengthen the nerves, regulate the bowels, aid the kidneys and cure stomach troubles. Build up the nervous force and repair the ill effects of overeating. The best safeguard against indigestion, biliousness and dyspepsia. Take Beecham's Pills regularly and you will maintain good health at small cost.

THE CROP CONDITIONS.

As Reported From Sharpton, Odessa District Sharpton, May 20 .- Notwithstand

ing the late spring, the agricultural outlook is far from discouraging. Grain is about all sown and for the last few days have seen very good growing time. As to lateness, this spring, very much resembles that 1885, the year of the North-West re-bellion, although that year snow fell on May 5th and 6th, and seeding did not become general until after the middle. There was a fairly good crop of hay and grain. Pastures are somewhat short of a full supply for the stock. Some are yet feeding their cows hay and grain. The fact that old fodder is pretty well cleaned ers to put on their thinking cap and ask themselves where would they be should there be a short crop, and the present large stock on their hands. Experienced dairymen say that planting corn is one way out of the diff culty. Clover meadows are more or as winter killed. The flow of milk is not large on account of the scarcity of feed, but if the present good grow-
