Facts About the American Indian's Healthy Hair.

The American Indian accustomed from time immemorial to go bare-headed in all kinds of weather is never troubled with falling hair or baldness.

The close atmosphere caused by our "civilized" head-gear is conducive to the breeding of infinitesimal germs which dig into the scalp and thrive on the sap of the hair-root.

This true cause of baldness is of recent discovery and explains the non-success of all hair vigors which treated baldness as a functional disorder.

Newbro's Herpicide is a direct exterminator of the germ. "It destroys the cause and permits the hair to grow as nature intended.

He was a member of branch 182, C.M.B.A., and his brother members turned out in large numbers to his burial. The funeral procession was one of the largest seen on the island for years past. TWINS TO WED.

Ceremony Will Not Change Surnames of Ladies.

Omaha, May 22.—Gertrude and Agnes Lynch, twins, of Omaha, and Albert and Walter Lynch, twins, of Sioux City, Iowa, have met and rumor has it that there is to be a double wedding. Double weddings are uncommon, and weddings of twins have been heard of, also marriages of people of the same name, but a double wedding without a single surname being changed in the operation probably is unprecedented.

The situation is perplexing, however, and there are those who say that the resemblance of one brother to the other and one sister to the other is so strong that neither brother and neither sister is quite sure which of the other twins he loves. So it is probable that they will have to get better acquainted before there is a wedding.

BUSINESS GIRLS.

Need Rich, Red Blood to Stand Worry of Business Hours.

Business overtaxes a woman's strength. Weak, languishing girls fade under the strain. They risk health rather than lose employment and the loss of health means the loss of beauty. Thousands of earnest intelligent young women who earn a livelihood away from home in public offices, and business establishments are silent, suffering victims of overtaxed nerves and deficiency of strength because their blood supply is not equal to the strain placed upon them. Fragile, breathless and nervous, they work against time with never a rest when headaches and backaches make every hour like a day. Little wonder their cheeks lose the tint of health and grow pale and thin. Their eyes are dull, shrunken and weary; their beauty slowly, but surely fades. Business girls and women look older than their years because they need the frequent help of a true blood-making, strengthening medicine to carry them through the day. Dr. Williams' Pink Pills are actual food to the starved nerves and tired brains of business women. They actually make the rich, red blood that imparts the bloom of youth and glow of health to women's cheeks. They bring bright eyes, high spirits and make the day's duties lighter. Twelve months ago Miss Mary Cadwell, who lives at 49 Maynard street, Halifax, N.S., was run down. The least exertion would tire her out. Her appetite was poor and fickle, and frequent headaches added to her distress. The doctor treated her for anaemia, but without apparent results. A relative advised her to use Dr. Williams' Pink Pills, and after using but six boxes she says she feels like an altogether different person. She can now eat her meals with zest, the color has returned to her cheeks and she feels better and stronger in every way.

Dr. Williams' Pink Pills cure bloodlessness just as food cures hunger. That is how they cured Miss Cadwell and it is just by making rich, red blood that they cure such common ailments as indigestion, rheumatism, headaches, and backaches, kidney trouble, neuralgia and the special ailments which make miserable the lives of so many women and young girls. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-West Provinces, excepting 8 and 26, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry or inspection must be made in person by the applicant at the office of the local Agent or Sub-agent.

An application for entry or inspection made personally at any Sub-agent's office may be wired to the local Agent by the Sub-agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An applicant for inspection must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, may, subject to approval of Department, relinquish it in favour of father, mother, son, daughter, brother or sister, if eligible, but to no one else, on filing declaration of abandonment.

Where an entry is summarily cancelled or voluntarily abandoned, subsequent to institution of cancellation proceedings, the applicant for inspection will be entitled to prior right of entry.

Applicants for inspection must state in that particulars the homesteader is in default, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose any prior right of re-entry should the land become vacant, or if entry has been granted it may be summarily cancelled.

Duties—A settler is required to perform the conditions under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for by such homesteader the requirement as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.
