Horse Won the 2.16 Class and An Orillia Trotter the 2.22 Class-Three Fines Imposed Upon Drivers.

The horse racing card at the rounds, on the afternoon, Victoria Day, was the big event of the day and it is estimated that there were five thousand people on the grounds. The track was in good condition, and at the close everyone was ready to vote the programme one of the best, if not the very best, that has

money's worth. W. B. Kenaud, of tains has been resumed. heat had been mining town, is a model. dien record had been broken.

in, during one of the events, there School convention in Rome. Renaud, the official starter, rushed gara peninsula to Beamsville. start-off, after being warned to do so. Two of the fines fell upon the driver for J. Bannister, Kingston, owner of Stella Prince, and the other was imrosed upon the driver of Nellie owned by D. Graves, Harrowsmith. The fines were paid ober to the judges

The judges were Messrs. William Mc-Garvey, Dr. Waugh and William J. Gibson, and the timers were Messrs. L. Guess, Frederick Whitney and C. lieres.

The "named race" was captured by Edith B., owned by H. O'Brien, Kingston, after five very interesting heats. Billy Bush, owned by E. Burnside, made a brave spurt and landed the second and fourth heats, but was compelled to fall back to second place in each of the other three. The best time was 1 min. 15 sec.

Minnie Bell, owned by George Powell, Orillia, won the 2:22 class, by capturing the first three heats, and took them with ease. The best time was I min. 7 sec. Pretty Nellie, owned by J. McCue, Kingston, was the only Kingston horse entered in this event, and succeeded in landing se-

The running race was won by Victry, Woodstock, in two fine heats. The four entered were all fast travellers, and this race, although short, was Muriel Wilkes, owned by R. Coyle, Colborne, and five heats were necessary to decide this event. There was only one Kingston horse entered, and within the Arctic circle, a farmer

LUCKYBOYS

REMEMBER we sold 2,500,000 shares of Blue Bell in 25 days at 10 cents per share. We have 1,000,000 shares of Lucky Boys at 6 cents per share. It won tlastlong.

LARDER LAKE. 6 CENTS PER SHARE.

Lake shares of inside properties at such a low price.

blue Bell Gold Mines, Limited. We offered to investors half of the capital stock, amounting to 2,500,000 shares, at 10 cents per share. We stated to our clients and investors in general that the shares of | will first go to the pains and expense of finding out for an absolute Blue Bell were a great purchase, and that the amount offered would certainty if the proposition they offer is reliable and has merit, and be fully subscribed. Our predictions in this respect were fulfilledthe full amount of shares offered have been subscribed for. We have had to return money and turn back many applications. Some of our clients and many investors were very much disappointed at not being able to obtain these shares.

We now offer what we believe to be an investment equally as inviting and one that also is as good an investment and which we believe will prove equally as profitable. The LUCKY BOYS shares at 6 cents per share will come within the reach of many more investors on account of the price and also on account of not so large an amount of money being required to be invested therein in order to obtain some of the shares. We will say with every confidence that the One Million shares of Lucky Boys which we now offer will be

largely over-subscribed. We want to serve every investor the same and advise all who want to make a safe, profitable investment, and one that will make you many times the amount that you invest, to PLACE YOUR RE-SERVATIONS AT ONCE. We will file all reservations in the order received, whether received by mail, telephone or telegraph, and will hold all such reservations for a sufficient length of time to enable the

remittance for same to reach us. The Lucky Boys claims were staked last summer and were-well selected. Gold-bearing quartz is found upon each and every claim. Some of the claims adjoin the famous Reddick claims; others adjoin the well-known Propretary Gold Fields Company, and others adjoin the wonderful Blue Bell properties. We can advise investors truthfully that there are no better claims in the Larder Lake gold fields than those of the Lucky Boys. We do not believe it is necessary for us to go into as much detail regarding Larder Lake, its possibilities and resources, as we have heretofore done in our advertisements pertaining thereto. All Canada must have heard of Larder Lake-the new Eldorado of northern Ontario-and of its wonderful gold deposits.

Our own expert miners and mining engineers who are now in the field are sending out reports to us almost daily of the great gold finds that are being made and of the wonderful extent of the gold veins and their remarkable widths. Mining men of experience and mining engineers of reputation and standing declare that there is nothing in the world that has ever been known to excel what is found there in the great lodes that lie open and are exposed to the surface, many feet in width and extending for miles.

The gold which is found at Larder Lake is most marvellously and equally distributed throughout the quartz. Of course it is only guess work at this time for anyone to say what quantity of gold will be taken out within the next year or two, but it is safe, from present indications, to count upon many millions. Cobalt is a wonder and has made a number of millionaires in the past three or four years, but the number of millionaires that will be made in Larder Lake gold district within the next year will be many times that which Cobalt has produced. There are many men to-day who have not more than several hundred dollars, or perhaps less, who will possess within the next year as many hundred thousands as they have hundreds of dollars to-day. The production of gold last year exceeded FOUR HUNDRED MILLION DOL-LARS. Somebody got this money. Most of it went to the people in ordinary circumstances. By investors placing their money in Lar- full information, containing application blanks, mailed to any adder Lake NOW, they will reap great profits. Many millions will be | dress.

We recently made a most successful flotation of the wonderful returned to those who have the courage and the judgment to inve their money now in Larder Lake. The secret of profitable invest ment in mining is the careful selection of a brokerage house which LAW & COMPANY HAVE DONE THIS and our facilities are such as to keep in close touch and know the actual conditions surround ing the properties which we advertise and recommend. We do not claim to have the only gold property in the Larder Lake district, or the only one that has merit. We do not claim that we are the only brokerage firm that is honest and reliable. We do not caution you not to buy other shares or of other brokers. We are not trying to build up our own reputation upon the ruination of others, but by upright, straight-forward business methods.

WE DO CLAIM, however, that we are sincere in what we offer that we are honest and reliable, and that we have used every method and have obtained reliable information from the Larder Lake district as to its being a substantial gold field. We are satisfied that the Lucky Boys property is a good, safe investment, and one that will prove highly profitable. We know that the gold is on the Lucky Boys property, and we know that it is a very easy and a very simple matter to extract the same—that it is free milling ore, and that all that will be required is to place the machinery upon the properties, and we believe the results therefrom will pay mil-

lions of dollars in dividends to stockholders. 6 CENTS PER SHARE

Remember that we have but ONE MILLION shares of the Lucky Boys to offer at 6 cents per share. This is not half the number we offered in Blue Bell, and does not represent a total invest-

ment of one-fourth the amount to bring about an over-subscription. We therefore urge IMMEDIATE ACTION by all those that failed to be in time to secure Blue Bell, and we further advise that investors should have no hesitation whatever; that Lucky Boys is absolutely as good an investment in every way as any Larder Lake mining company, regardless of price, location or results obtained.

The Directors, Officers and Management of the Lucky Boys are

among the most successful mining men in Northern Ontario-men

whose standing and reputation are beyond reproach—and every investor may feel assured that their interests will be looked after by these gentlemen properly; and in a thorough and busine The entire country is waking up to the wonderful opportunities offered in the Larder Lake gold district. The opportunities offered now to make safe and enormously profitable investments will have passed within a very short time. Men representing millions are in the field looking over properties and purchasing. The opporunity offered now of buying Lucky Boys at six cents per share will undoubtedly be the last chance that investors will have of getting in on the very rock bottom, in the very heart of the wonderfr Larder Lake district. It should be remembered that these properties are just as valuable and have just as good showing and with as

and \$1.50 per share. We sincerely believe, and have every reason to make the assertion that Lucky Boys, which can be purchased today at six cents, will in a very short time be selling at \$1.00 or Wire or telephone orders at our expense. Prospectus, with

much gold in sight, and are in every other way as good as the pro-

perties of other companies whose shares are selling to-day at \$1.00
