Stomach Troubles

To wrong action of the stomach and impaired digestion a list of diseases owe their origin.

The food is imperfectly digested the fullness is not derived from it by the body, and then stomach troubles start to appear. Thus you become thin, weak, nervous and debilitated, energy is lacking, heightness, snap and vigor are lost and in their place come dullness, dizziness, loss of appetite, depression and languor. The great point is to get the stomach back into good shape again so it can properly digest the food, and the easiest, quickest and best way to do it is by the use of

BURDOCK BLOOD BITTERS

Miss Linnie Fariotte, Jacques River, N.B., writes: "I was very much troubled with my stomach and did not know what to do. I consulted several doctors, got medicine from them, but all to no purpose, and was constantly growing weaker. One day I had the good luck to meet with a friend who had been troubled in the same way as myself. He told me of the wonderful cure Burdock Blood Bitters had made with her and advised me to try a bottle. I did so, and what a happy change it made. I took two more and am completely cured, and I shall ever sing the praises of B.B.B."

Price \$1.00 per bottle or 6 bottles for \$5.00

THE REAL TEST.

Of Herculite is in Giving it a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vibrators may look nice and smell nice, but the point is—do they eradicate dandruff and stop falling hair?

No, they do not, but Herculite does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herculite stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease. Sold by leading druggists. Send 10c in stamps for sample to The Herculite Co., Detroit, Mich. Sold in two sizes, 50c. and \$1. G. W. Mahood, special agent.

NEW YORK LETTER

A HUGE STEAMER CREATED A BIG STIR.

A New Hercules in Town—Seaward on Women's Hats—Recount of Mayorality Votes Bill.

New York, May 24.—The Adriatic, the latest of the huge new steamers, created more than the usual stir when she came up the river. Her huge proportions made her tower above all other objects, causing intense surprise even among spectators who had seen all the other big vessels. When she unloaded it seemed as though a small town had been dumped into West street, and it took a great while for the passengers to get lost in the crowd. She had on board 2,994 passengers, including 700 cabin passengers, and such a number poured into the streets at once staggered people who expected that they had been brought over by general steamer, as they lay for the week at her berth, she was visited by a great mass of people who almost invariably spoke in terms of admiration for the ship's appearance. The hull for comfort, and the deck was with ease and little motion. Her gait is not rapid, as she takes 7 days, 1 hour and 45 minutes, at an average speed of only 17.02 an hour. She got in the harbor all right, which is a comfort, as it was feared that the leviathans would experience difficulty in coming in through the narrow and shallow channel.

The absence of John W. Gates from Wall street, and the consequent "Bet you a million," will tone down the street in a very marked degree. Gates is the most remarkable man who has come out of the west, and had Wall street by the throat many a time. There is a general feeling of relief that this element of uncertainty and organized sensationalism and cowboy methods has disappeared. The street breathes more easily, and expects less turbulence than of yore. Prosperity in his hunting, say all, will keep him out of the country for some time, but not, alas, for ever.

There is a new Hercules in town, and he is performing a grand new herculean stunt, that is really thrilling. Her George Lettie, five feet six inches in height and weighing 135 pounds, is the new strong-armed automobiler with twenty-five horsepower turned on to run fifty miles an hour. Herr Lettie, who is a Bavarian, came to New York only a short time ago, and gave the first public exhibition of his prowess. He is of slim physique, and not even a professional athlete. He is a professional pick him out of a crowd as a professional strong man. But he made the exhibition look like a matter of course in Paris, it appears, and there is no gaping throng or camera flash to mar them.

FALSE EYELASHES.

Ingenious British Inventor is Swamped With Orders.

London, May 25.—"Please send me another dozen eyelashes." This is a sample of numerous orders being received by an ingenious inventor, who has created a demand among female beauty seekers for false lashes to replace nature's eye fringes with which the owners are dissatisfied.

The patentee claims that hundreds of women are eagerly buying the eyelashes, especially those who much time automobiling. They visit him to be fitted in the first instance, but after the preliminary-fixture of lashes keep in good shape for quite a month. They may then need a little touch-up and receiving a touch with a special fluid.

SARTORIAL GRADUATION.

The Growth of Art and Aesthetics in Men's Dress.

A man has to graduate from school to college before he can enter the university, just as he has to graduate from the ready-made clothing store to the custom tailor before he can appreciate the finer qualities of Semi-ready-to-wear.

No man can tell how cloth in the web will suit his taste and expression when it is made up. That is one Semi-ready idea, to forego the effect of the most expensive cloths are used, hence one does not get the cheap and indecipherable in Semi-ready tailoring. Still, the good value of the "Semi-ready" is surprising, for much of the greater cost of fine cloths used is saved in the expert system of a splendid equipment, and one can still save from \$5 to \$10 on a "Semi-ready" suit as compared with custom tailoring. SCHOOL CHILDREN'S TEETH.

Generous Offer Towards a Dental Chair.

Ottawa, May 25.—J. W. Woods, president of the board of trade, has generously offered to defray half the cost of installing a dental chair and the necessary equipment of a first-class office in the Protestant hospital, where there will be introduced a system for the treatment of the teeth of the children of the public schools. The dental society will consider the proposal favorably, it is said. There will not be any charge for the work done for the children. The dentists, it is expected, will give their services in turn for certain hours in each month.

PURSUED BY BRUTE.

Bear Overtook and Partly Ate the Cook.

Dauphin, Man., May 23.—On Sunday, while John May, the cook of Camp No. 4, of the Red Deer Lumber company at Etomami, was taking a stroll across a black bear. The animal showed a vicious disposition and May fled for the camp with the bear in close pursuit. He was struck down and instantly killed, his vitals being torn out and the body partly eaten before the alarm was given. May came from Smith's Falls in December.

The hands of female mummies found in the tombs of Egypt are literally covered with rings, in many instances there being from two to six on every finger.

William McBeth, the art dealer. Each man will send five pictures, and there will be no jury.

Friends of the bill providing for a recount of the votes cast at the mayoralty election of the city say they have discovered what was the reason of the long delay in getting the bill out of committee. They say that in spite of the evident effort to make the bill a general one, in order to keep it out of Mayor McClellan's hands, it will have to go to him nevertheless. If this is true, it is evident that passing the bill before adjournment a veto by the mayor will kill the bill, as there would be no legislature to replace it over his veto. As it will not be re-presented all the end of the week that would mean the 30th before it would be ready for passage over the mayor's veto, and the legislature is expected to adjourn before that time. The only hope the bill would have under the circumstances would be for the governor to recall the legislature to pass it over the mayor's veto, but it is not thought that this step would be taken upon a measure of purely local importance. The friends of the bill are of the opinion that the legislature would be recalled to pass it over the mayor's veto, but it is not thought that this step would be taken upon a measure of purely local importance.

Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol in their medicines. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is made entirely free from acohol. Ask your doctor. Follow his advice. We publish the formula. Ayer Co., Lowell, Mass.

SUNSHINE FURNACE

The Sunshine is differently constructed than common furnaces, stronger, safer, more healthful. The dome, the two sections of the pot and the frame of the ash pan are securely fastened together by our joint. Three "cup joints" in. All sections, you will notice perfectly, and are lined with a latos cement, which unites them to become, in every purpose, one never spring or fall apart.

And that's not all—the dome is fastened cement and boiler rivets, made as smoke, gas, heat and dust. From a hygienic standpoint precedence in the furnace world. Notice, too, the Sunshine is automatic gas damper. This dampens when the gas in the furnace rises and allows it to escape up the danger of an explosion or gas registers. Safest as well as most healthful, aged, cleanest, greatest labor-saving economizing furnace you can buy. If your local dealer does not write direct to us for free booklet.
