COW RUNS AMUCK.

Injures Boy and a Girl and Gores a Horse.

Exeter, Ont., May 31.—While three hundred children were dispersing from school, a cow, being led by a young man, got enraged and charged into the crowd. It carried one boy for a distance on both horns and threw him to the ground, and then pinned a twelve-year-old girl named Welch to a fence. The horns, however, escaped her body, but she had a leg broken. A horse was slightly gored before the cow was lassoed.

DARING CRIME

Chemistry Called To The Burglar's Aid

GREAT INGENUITY

DISPLAYED IN LOOTING STOCK BROKERS' SAFE.

Cuts Way to Room—Manufacturers on a Remise as Gas Which Melts the Lock Like Sealing Wax.

Brussels, June 1.—Cash and securities to the value of \$20,000 were stolen in Antwerp by a burglar who displayed the most amazing ingenuity in gaining access to a safe and ransacking its contents.

The victims were a firm of stock brokers, Messrs. a Clabbeck and Van Laet, whose offices form part of the Terminus hotel building, in the Rue Pelican.

Yesterday evening a traveller arrived at the hotel and signed his name as Lagasse. He insisted on having a room, and secured one over the stock brokers' office. He asked for plenty of water, as he wished to have a bath. He then went out, returning soon after with valves which are now known to have contained carefully packed carboys of oxygen.

When the hotel was quiet he stepped the keyhole of the adjoining room, removed his bed, cut the carpet, drilled holes in the flooring, sawed through the planks and broke the plaster ceiling of a room below, having previously placed an inverted umbrella to prevent the plaster falling to the floor.

Next he descended through the hole into the office by a rope ladder screwed into the office by the burglar. He carefully covered all apertures in the office with blankets bought during the evening, and erected a kind of screen round the safe. Pouring his bath water on a quantity of calcium carbide, he made acetylene gas, and by burning it with oxygen produced such intense heat that he melted the steel of the safe and the lock yielded. The safe was doubly fastened, so that he was obliged to repeat this part of his work.

He emptied the safe and thoroughly ransacked the whole office.

Returning to the bedroom by his rope ladder, he replaced the bed and the carpet, set all in order and departed after a few minutes, leaving the hotel porter that he was making an excursion and would return at midday.

No sound of his night's work was heard, and it was only when the employees came to open the office that the burglary was discovered. The office was a scene of the wildest confusion. The burglar had left everything behind—acetylene machine, oxygen carboys, electric lamps, gloves, smoked spectacles and other articles. Two Germans, who arrived at the same time as Lagasse and occupied a room over his are believed to have been his accomplices. They are thought to be members of a gang of international thieves.

TAKE PROCEEDINGS.

An Italian Deputy Accused of Offences.

London, June 1.—The Rome correspondent of the Chronicle says the crown has begun proceedings against Giuseppe Romana, deputy from Aversa, on allegations of his connection with the "Red" movement. Romana has been denounced by a group of his fellow-deputies, as being president of criminal societies in his constituency. The sensation has been increased by the fact that Signor Schanze, minister of posts and telegraphs, is accused of complicity in the crimes committed by the societies.

Whole Lot of New Officers.

Ogdensburg, N.Y., June 1.—The tenure of office of the present common council expired, to-day, and all elective and appointive officers go out of service, to-day. Of the police only two are eligible for re-appointment, the others being barred by reason of age limit from again taking the required examination. The other policemen will probably take the matter into the courts. Mayor Hannan and the board of aldermen will be succeeded by an entire new board, with Mayor Hall at the head, all of whom are democrats.

Stolen Cheques Afloat.

Paris, June 1.—Several cheques, stolen at the time of the big theft of registered mail from the steamer La Savoie, some time ago, have been cashed recently. Three arrests have been made of men who are believed to have been accomplices of Rousseau, the man who confessed he had stolen the registered sack.

Court of Criminal Appeal.

London, June 1.—The House of Commons yesterday, which passed the second reading of the bill establishing a court of criminal appeal and providing for the right of appeal against convictions for crime, similar to that now existing in civil cases.

You can save from 50c. to \$1 if you buy your hats at The H. D. Bibby Co. Glasses that please both the eyes and the pocket book at Dr. Chown's Drug Store.

TO GO MILE A MINUTE.

Santos-Dumont Begins Construction of Balloon.

Paris, June 1.—M. Santos-Dumont has begun the building of a new dirigible balloon, which he believes will be superior to anything that has yet sailed in the air. It is to be twenty-one meters long, of comparatively small diameter and with a capacity of 100 cubic meters. The balloon is to be fitted with a fifty-horse-power motor, and with it the aeronauts expect to be able to obtain an air speed of at least 100 kilometers—sixty miles—an hour.

ARRESTED AS ELOPERS.

Thought They Were Going to Get Wed.

Paris, June 1.—A wealthy Parisian, living in the Rue de Longchamps is very indignant at the treatment received by his nephew and niece, aged, respectively, seventeen and fifteen years, while on their way to England yesterday.

The uncle has acted as guardian to the young people for years, and with the object of perfecting their knowledge of English, he had arranged that they should spend some time in England.

He saw them off at the Gare du Nord but a few hours later he was considerably annoyed to receive a telegram from Jacques, his new nephew, stating that he and his sister had been detained at Boulogne by the French police, who suspected them of being a couple of runaway lovers eloping to England to get married there.

After prolonged negotiations by telephone, the unhappy young people were released and allowed to continue their journey.

HIS GOUT GONE.

London, June 1.—According to a news agency despatch, from Rome, the pope adopted vegetarianism, in January, hoping to defeat his perpetual enemy, the gout. He has not suffered since and he attributes his recovery to his diet.

Will Pay Caruso \$800,000.

London, June 1.—Enrico Caruso will from to-day, enjoy the largest salary ever given to a tenor, as a consequence of his services for four years. Caruso said of the contract that from June 1st, 1907, until June 1st, 1911, he was bound to Mr. Corioli, and that he could make him sing wherever he pleased, and he will pay him 1,800,000 francs a year. Mr. Caruso said he would be unable to sing in Paris within that time unless Mr. Corioli was willing.

Home-Made Motor Boat Launched.

New York, June 1.—Henry West, aided by his son, launched, to-day, from May's dock, West 59th street, into the North river, a motor boat, which they constructed themselves. This is the first attempt of the two men to construct any boat, and they have been about two months in building this craft. They will take a trip to the exposition at Jamestown, handling the boat themselves, following the coast by easy stages. The family will make their headquarters, while at the fair, on the boat, there being ample sleeping accommodations in the hold of the vessel for the purpose.

May Withdraw From Texas.

New York, June 1.—Following a meeting of the association of life insurance presidents, a statement was issued, in which it was intimated that the companies represented in the association would withdraw from Texas when the new insurance law becomes operative, which is to-day. The new legislation, which provides that seventy-five per cent. of the reserve on Texas securities, is declared by the association to be confiscatory in its effect.

CAN RETURN

Davila Grants Amnesty To Honduras Refugees

MANUEL BONILLA

IS ALONE EXCEPTED IN MANIFESTO.

The Refugees Will Go Back From New Orleans at An Early Date—Two Alleged Traitors to Salvador Reported to Have Been Put to Death.

New Orleans, June 1.—The steamship Rosina from Ceiba, Honduras, brings the news that Acting President Davila has issued an amnesty proclamation granting pardon to all the late supporters of President Bonilla and permitting them to return to the republic. The refugees present, Manuel Bonilla, is the only person exempted from this pardon.

As a result of this amnesty, the Honduras exile colony in New Orleans at the head of which is General Alfonso Gallardo, who commanded Bonilla's forces in northern Honduras, will return home. It is the belief in Honduras that Davila, who is acting president, will retain the position, as the movement in favor of Policarpo Bonilla has died out, owing to Policarpo's absence in Salvador, where he is confined in prison.

The Nicaraguans still occupy Ceiba, and receive orders from Zelaya. The coast country is pretty quiet, and the people are ardently at work. This is shown by the fact that Senor Julian Falas Diaz, alcalde of Ceiba, is one of the passengers on the Rosina, his mission to New Orleans being to float bonds here in order to establish a new waterworks system.

Put To Death.

San Francisco, June 1.—The steamer City of Sydney, which has arrived from Central America, brings a story of the probable execution of Juan Fuentes and M. Bonilla, alleged traitors to Salvador, who were taken into custody on board the City of Sydney by Senor Figueroa, son of General Figueroa, president of the republic. Passengers on the steamer believe that the two prisoners were shot soon after they were taken ashore.

TERRORISM IN RUSSIA.

Cossacks Brutally Shot Down Many Innocents.

St. Petersburg, June 1.—A band of terrorists attacked in the streets a mail van escorted by Cossacks, shot one of the Cossacks dead, wounded another, and two post office officials, and escaped after robbing the van of \$1,000.

A moment later a patrol of Cossacks arrived, dashed into Kuttner's spinning mill, which are close to the scene of the robbery, and began indiscriminately shooting down workmen and clerks, killing fifteen and wounding over thirty.

TRADE UNIONISM BANNED.

Decides Officials Have No Right to Strike.

Paris, June 1.—The French government has decided that state officials cannot join trade unions nor have the right to strike. The minister of public worship and education, made this announcement in the chamber during the debate on trade unionism.

The result is that postmen and schoolmasters who joined the labor federation committee must withdraw from the organization.

THE POPE'S VIEW

As to Rev. R. J. Campbell, of London.

London, June 1.—According to the Catholic Herald the Archbishop of Glasgow, who is in Rome, brought to the attention of the pope the denunciation of the new theology and its apostle the Rev. Dr. R. J. Campbell, pastor of the City Temple, London, by Canon Mackintosh, in which the canon referred to Campbell as "a silly blabbermouth." The pope desires that his congratulations should be conveyed to Canon Mackintosh.

Father Spanks Elopers.

Evansville, Ind., June 1.—Cupid was banished when Katie Sellers, fifteen years, and George Gissom, nineteen, who eloped from Henderson, Ky., were arrested here just as they were taking out a marriage license. The girl was held at police quarters until her father came to take her home. He asked Matron Roberts to withdraw, and then turned the girl over his knee and spanked her until she cried for mercy.

Immaculate Soda Glasses.

At many fountains glasses are merely rinsed in cold water. At Wade's each glass is not only after use and is then thoroughly washed in hot soap suds, is rinsed, dried and polished with a clean towel—just as you would do in your own home. Wade's Ice Cream Soda in such glasses tastes better and is better. Wade's drug store.

HE THINKS DIFFERENTLY.

Siamese King's Hobby Anxiety to Subjects.

Rome, June 1.—The king of Siam is sojourning at Turin, which city he has chosen for a visit because of his enthusiastic devotion to automobilism. When visiting a number of motor factories in company with the Duke of Genoa, his majesty remarked that he wished to make that form of locomotion popular among the Siamese, but encountered tremendous setbacks. In fact, shortly before the king left for Europe his ministers presented a petition enumerating the inconveniences and dangers of motoring, and imploring him to relieve his people's anxiety by renouncing automobilism, or at least moderating considerably their speed. The petition naively reminded his majesty that "there is always at your disposal the royal sedan chair, and in urgent cases, carriages with horses."

The Asiatic monarch has brought over an expert young Siamese chauffeur, whose skill in averting catastrophes by a hair's breadth keeps Italian pedestrians agape with amazement.

ROYAL GODMOTHER.

Crown Princess of Roumania as Sponsor.

Bucharest, June 1.—The Crown Princess Marie, like Queen Elizabeth (Carmen Sylvia), is taking a most active part in many charitable works.

One of the associations of which her royal highness is honorary president, is the Society of Godmothers, an organization which takes under its patronage a number of babies of very poor parents, especially seeing that they are christened and clothed.

The crown princess was, yesterday, the central figure at an interesting and touching ceremony connected with a fête organized by the society at the Athenaeum, when her royal highness stood as godmother for twenty-five of these children.

MAN MARRIES A DOLL.

Superstition in East Indian Provinces.

Lucknow, June 1.—The universal superstition that it is unlucky for a girl to marry a man who has been married twice before, led to a curious ceremony at Bahoun, in the united provinces, this week.

A merchant who wished to marry for the third time, was prevented by the parents of the bride-to-be to first go through the ceremony of marrying a doll, which he carried in his arms. The doll, which was regarded as his third "wife," was then buried with great pomp, after which the real marriage ceremony took place.

INTO IRISH POLITICS.

Richard Croker May Take a Hand.

London, June 1.—There is a persistent rumor in parliamentary circles here that Richard Croker is about to enter Irish politics and may possibly succeed John E. Redmond as leader of the Nationalist party. Since his retirement from the active leadership of Tammany hall, and even for some years before, Mr. Croker has spent most of his time in Ireland and has been interesting himself in the more details in the affairs of his native island. Croker is an Irishman by birth.

ORDERED AWAY.

The White Women Sent to Hong Kong.

Hong Kong, June 1.—The British consul, at Peking, has ordered the white women there to proceed to Hong Kong. The white men have been arrested and are taking turns in patrol work. The capture of Moscow by the Bolsheviks was only temporary. The missionaries there are safe. The rising is still spreading but more troops are being concentrated.

PARENTS DROWN SON.

He is Got Rid of For Economy's Sake.

Paris, June 1.—A man named Housseau and his wife have been arrested for drowning their son, Paul, a child of seven, in the Seine. The woman made a confession, in which she said that Paul was too weakly to work, and as they had four other children to feed, they decided to get rid of him. They threw him into the River Seine, at Evreux, and watched his struggles till he sank.

Stock's Twentieth Visit.

East Alton, Ill., June 1.—For the twentieth time the stock has called to the home of Henry Hendricks, a well-to-do farmer, living near here. Of the twenty children, sixteen are living. Five are married and have families. The oldest child is thirty-one years old. Mr. Hendricks is sixty-five, and his wife fifty. Of the children twelve were boys. When the family is at home the house looks like a picnic ground for a kindergarten.
