COMMERCIAL MATTERS.

That is Going On In the Business World-The Markets.

The production of pig iron in the states this month will likely be the argest ever reported in a single month.

The general opinion is that the product this month will be nearly 2,500,000 tons, or at the rate of 80,000,000 tons The shrinkage in market value of ten grove.

The shrinkage in market value of ten grove.

The application of Uames Swift to the week represents the huge total of \$95,-

Within the past year the Allia-Chamber Co., Milwaukee, have booked orders for thirty-six gas engines of 4,000 horse power each, or 144,000 aggregate horse power twenty-five of which are to be installed as a part of the mammoth new plant now in course of construction by the Street Corporation at Gary, Indiana; seven for the Homestead plant of the Carnegic Steel Co., and four for the South Chicago Works of the Illinois. These large gas engines weigh 1,500,000 pounds apiece. The great size of these machines is also demonstrated by the fact that the shaft of each measure three feet in diamater. It will require 2,300 cars to transport these machines from the works of the Milwaukee company to the different alerte of the attention of the Milwaukee company to the different alerte of the attention of the property to the different alerte of the attention of the property to the different alerte of the attention of the property to the different alerte of the attention of the property to the different alerte of the attention of the property to the different alerte of the attention of the property to the different alerte of the attention of the property to the different alerte of the attention of the property to the different alerte of the attention of the property to the different alerte of the attention of the property to the different alerte of the attention of the property to the different alerte of the attention of the property ale
