"WED IF YOU WANT OFFICE."

Mayor Turns Down Detroit despatch says : Mayor William B. Thompson is a great ever in marriage as a preparation and training for office holding. So firmly is he committed to this dea that Ralph Phelps, Jr., a prominent young lawyer, owes it to his state of single blessedness that he failed to secure the office of comptroller. At least so say mayor's friends. It will be pretty generally understood in Detroit dur-ing the remainder of Mayor Thomp-son's incumbency that "no bachelors need apply" for any office to which the mayor has the power of making The marriage license clerk has or

dered a new fountain pen in anticipation of a rush of business. "Generally speaking," said Mayor Thompson, "I prefer to appoint married men to offices. They are steadier and have more time to attend to business. The gav young dogs who are bent on shining in society are apt to appear at the office mornings slightly the worse for wear, while the married man who has settled down will spend the evening with his family and always report for work in good condition. As the happiness of more people depends on the success of a married man than on that of bachelor, the former is apt to work harder and to be more conscientious. I believe in early marriages.

"A young man ought to pick out the right girl and settle down with her as soon as he is able to support her in decent style. There is no sense in waiting until a man is fifty years of age and has accumulated a large fortune. Let him make some woman happy while he is young."

Mayor Thompson is the tather of a family of eight, of whom six are girls. None of the Misses Thompson is of marriageable age as yet, how-ever, and the mayor indignantly denies the allegation by one of his friends that he is speaking as a father in advocating matrimony for prospective office holders. It has been suggested that the mayor establish a matrimonial bureau in the city hall and aid deserving

young men in finding the mates that will enable them to qualify as officeproposition. Good Prospect For Corn Crop. Every one with corns will be pleas ed to know that Putnam's Corn Extractor is guaranteed to cure hard.

New Gold Camp -----0F------

Northern Ontario. FRANK WESLEY HAYNES, Vice-Pres.

THOMAS McCAMUS, President.
Vice-Pres. of The Temiskaming and Hudson Bay Mining Co'y., and President of The Temiskaming Tolonton

We earnestly recommend that you purchase the Lucky Boys Gold Mines stock at 6 cents per share. This advice means riches to you. The time is not far distant when Lucky Boys will be paying large and continuous dividends. By buying now at a price you can afford to pay you will be a participant in these assured profits.

As we have heretofore stated in our circular letters and advertisements, we are willing to stake our standing and reputation on the present conditions and the future outcome of the Larder Lake district and as to its possibilities. We believe it will be the most wonderful gold field that the world has produced. When we make these assertions it is after we have made most searching and thorough investigations. We do not believe that a financial house who has every facility at its command, having a number of experienced mining men in the field, and reliable and trustworthy mining engineers, could go to more pains regarding the actual worth of a gold camp than we have done. We have been most cautious and we are very particular as to what we recommend for investment. We have built up a big business and the investors who place confidence in us and follow our advice number many thousands. We guard the interests of our investors just as closely and with as much care as we do our individual investments. This is the reputation we have attained among the investing public. We have gone to great expense in ascertaining the true merits and real conditions of the Lucky Boys properties. In order to satisfy ourselves beyond question we despatched various crews of men to make examinations. They were supplied with all the necessities, such as hand drills, dynamite and camp outfits.
