**A Natural  
Laxative**

Forward cleansing is as necessary as outward bathing. To keep the bowels free and regular is of even greater importance than to keep the skin-pores from becoming clogged. The neglect of either invites disease. Everyone needs a natural laxative occasionally, to free the bowels of accumulated impurities. For this purpose take

**BEECHAM'S PILLS**

the greatest boon ever offered to those who suffer from the ills that follow constipation. For over fifty years Beecham's Pills have been famous as a Stomach corrective, a Liver regulator and Bowel laxative. They never gripe nor cause pain. Powerful purgatives are dangerous. Avoid them. Use Beecham's Pills. They give relief without doing violence to any organ. Their action is in harmony with physical laws. Take them regularly and the necessity for their use becomes less frequent. They are a natural laxative and a positive cure for Constipation, Biliousness, Indigestion, Sick Headache and Dyspepsia.

Prepared only by the Proprietor, Thomas Beecham, St. Helens, Lancashire, Eng. Sold everywhere in Canada and U.S.A. Boxes 25 cents.

**SUNSHINE  
FURNACE**

NO BENDING DOUBLE AND POKING AROUND THE ASH-PIT WITH A SHOVEL TO GET THE ASHES OUT OF THE SUNSHINE.

The Sunshine is furnished with a good, big ash-pan. All you have to do is to grasp two strong, firmly attached, always-cool, bale handles and the large, roomy ash-pan easily comes out. A minute or two is all it takes to perform the operation. All the ashes are in the pan, too.

Because they are guided into it by means of ash-chutes attached immediately below the fire-pot. Sunshine is the simplest, easiest-managed, cleanest kind of a furnace. You don't have to wear overalls and a smock when attending to the Sunshine. If your local dealer does not handle the "Sunshine" write direct to us for FREE BOOKLET.

**MEN WELL DRILLED**

THE CORPS IS BECOMING QUITE PROFICIENT.

Number of Men and Horses in Camp—The Volunteers Enjoy Themselves at Games and Sports.

The annual camp of instruction in two-thirds over, and already one would scarcely recognize the regiments which now parade as the same body of men who went under canvas a week ago. Drill under competent instructors has done wonders, and, to-day, the volunteers can go through their movements with an accuracy and a precision which in itself is a demonstration of the usefulness and necessity of the holding of military camps. While the boys have worked hard and conscientiously with the above mentioned result, yet "all work and no play would make Jack a dull boy." In this case it would make Tommy a dull soldier. He has his pleasures also. Of parade every effort is made to facilitate the enjoyment of the men and in these efforts the Y.M.C.A. plays a most active part. They lead the way in sports as well as in other walks of life. Baseball and football teams of the volunteers are formed, and these teams, by their victories, all have their enthusiastic followers. Besides the things the volunteers do for their private entertainments. So the time passes merrily enough from day to day. Each succeeding year sees a more efficient and more popular camp, and it will be noted that the volunteers return once more to their homes on Friday night.

Final arrangements have been completed for the grand military tattoo which is to be held on the camp grounds for the public this evening. Besides the funds so liberally supplied by the officers, the city council has voted an amount of \$500 for the evening, defraying the expenses of the entertainment, which promises to be the most elaborate ever attempted by a military camp in the Dominion. All citizens are invited to the tattoo, and have already been stated, the only request made is that those who may drive over, unhitch their horses and secure them, in order that accidents may be avoided when the fireworks and explosives are ignited.

The officers of the 47th and 49th regiments have united in chartering a steamer to convey their men and horses to the Thousand Islands, Wednesday afternoon.

There are 2,327 men and 667 horses in camp this year. The A.S.C. has all others stopped when it comes to hard work. Likewise they lead in sport when off duty. Even the officers of the corps have won an enviable reputation as athletes.

Dr. Hoover, Ottawa, is attached to the A.M.C. as dentist, and has been kept pretty busy. Several of his patients were members of the staff.

Tramper Burns, 4th Hussars, is in hospital with neuritis.

Wednesday afternoon at four o'clock there will be a programme of sports. The officers have donated prizes for the several events, and the Y.M.C.A. staff has interested itself in the matter. The public are invited to witness the several events.

Trooper McCullough, P.L.D.G., Ottawa, is on the disabled list, having received a kick on the head from his horse.

Lieut. Campbell and Dawson are considered two of the best mounted instructors in the Dominion and have been proving eminently satisfactory in their work at the camp.

Both men and officers are delighted with the efforts being made by the citizens to make the camp a success beyond even past years. It is a state of affairs to be regretted that only two out of all the members of the 2nd Division have been available for service at Barrickfield camp this year.

Lieut.-Col. A. S. Williams, A.D.C., inspector of cavalry, inspected the 2nd Cavalry Brigade, on Monday afternoon.

The following officers have been detailed as members of the board of officers on expedition and will assemble next of the 3rd Dragoon Regiment on Wednesday: President, Lieut.-Col. R. Brown, 5th P.L.D.G.; members, Maj. J. E. Leithland, 4th Hussars; Capt. A. H. Howell, B.C.M.S.; Lieut. J. Hannah, of the 47th Regiment, is made captain, vice A. M.

**At Forty**

Some of the signs that life has passed its zenith appear. Exertion is followed by fatigues that are not quiescent, and that show decline is commencing which culminates at seventy.

At forty, men and women should be careful. Nature needs a little help, and no remedy equals Ferrozone as a strengthening system builder. It rebuilds the system by producing new blood, by supplying food elements to rebuild the nervous system.

**THE PARAGRAPH PULPIT**

REV. C. W. ASSON, O.T.A.W.A.

The God of the Open. I believe in the God of the open. He is no inhabitant of silence and shadow. He is not found only under the dim chandeliers of churches, or heard only in the awed hush of sacred service. The God in Whom I believe is the God of the open sky and the open street and the open mind. Every where and in everything He may be seen and felt and known. He is in the sunshine more than the shadow, in the living present than the dead past, in the open field than the temple city. He does not speak from an ancient Sinai; He walks and talks with every man on the common path.

**700 CORDS OF WOOD**  
Burned Alongside K. & P. R. Near Parkam. Several hundred cords of wood, valued at \$2,500, were destroyed by fire at Deafin's Corners, on this side of Parkam, during Saturday night. The wood was piled along the K. & P. railway siding awaiting shipment. It is suspected that a spark from an engine fell upon the wood, which was very dry owing to the drought. The largest portion of the wood was owned by W. B. Hack, executive councillor, and Alfred Hurry, clerk of Portland township. Several others in the vicinity had an interest. The 700 cords was totally destroyed and the owners lost heavily.

**"Run For The Doctor."**  
Some one has fallen or injured himself in some way. It may be well to go for the doctor if the injury seems serious, but in any case you can do nothing but good by applying Smith's White Liniment.

**Gresh Players On Trip.**  
The steamer Alexandria, in its regular trip down the river Monday night, had a large party of chess players on board, members of the American Chess Club, who are taking a trip as far as Quebec.

**Compound Syrup of Hypophosphites.**  
Our own make, equal to the best. Big bottles, 50c. and 75c.; at Wada's Drug Store.

**Nine million feet of lumber** were destroyed by fire at the premises of the Vancouver Lumber company, Saturday, entailing a loss of \$250,000.

**Kingston Boy To The Front.**  
Clarence D. Ferguson, formerly with J. S. B. McCann, of the city, and lately manager of the Coast department of the National Cash Register company, Toronto, Ont., has recently been appointed secretary and manager of the Kingston Manufacturing Co., Buffalo, N.Y., a \$500,000 plant. Another case of Kingston boys to the front.

**Letters To The Editor.**  
Concerning Aberdeen and Upper William Streets. Kingston, June 22.—(To The Editor.) The city solicitor's report on the streets, having been referred to him a fortnight ago by the council, to give his opinion thereon, presented the following meagre report on Monday, 17th inst., as it appears in the paper on the following night: "The Solicitor McClary reported that both Aberdeen street and the extension of William street, had acquired the character of 'drain' in the eyes of the law, and he told us how, or when, or on what basis, they became so, perhaps some independent and fearless alderman will, in the future, when next they meet, to make it his business, in the interests of the citizen taxpayers, to find out more definitely how this decision was or could have been arrived at; how what goes and on what valid basis, for surely they are fully entitled to be made aware of this, and no action has been decided upon on the subject as to what may, or may not be done, and what, which has adjourned, till October 7th next, and nothing presumably is likely to be attempted till after that period, which is a consolation to be reasonably expected at all events, and which may learn what action the council may take and the cost thereof.

There is no thoroughfare through this ground now, and never has been, the water being covered by mud and rubbish, which should not have been allowed, and one residence only, which rubbish will very materially add to the trouble and expense of building there, or a drainage system, which has been asked to be made through the so-called Aberdeen street, but before this is done, I am told, no intensions therewith have to be made with a drain from upper Wilting street, to University avenue, before the city can claim its share of the cost of the former drain, to wit \$91, and that to buy the property on Division street to let the extension through, and on University avenue for a like purpose, will cost the city (the taxpayers), I am told by one who ought to know, at least \$4,000 or \$5,000, besides another \$1,000 per annum, to grade and keep these extra streets, which are altogether unnecessary, in repair. The present block, which is only an ordinary sized one, suffices, instead of four, if being surrounded by a street on every side of it, having drains running through them, which can easily be connected with by those who find they need a drain; but let it be done, if done at all, at the personal and private expense only of those who are to use and want it, and degive the benefit which it is expected to confer, as others similarly situated have had to do in times past. This subject should not be forgotten by any of the taxpayers, and it should be further attended to should further developments be exhibited in future.—ECONOMIST.

The city solicitor gave the city council a very full report upon the above mentioned streets. The Whig merely published the conclusions. The solicitor's report is on file at the city clerk's office.—ED.
