Synopsis of Canadian Northwest  
HOMESTEAD REGULATIONS.

Any even numbered section of Dominion  
Land in Manitoba or the North-West Pro-  
vinces, excepting 8 and 16, not reserved, may  
be homesteaded by any person the sole head  
of a family, or male over 18 years of age, to  
the extent of one-quarter section, of 160 acres,  
more or less.  
Application for homestead entry or inspec-  
tion must be made in person by the applicant  
at the office of the local Agent or Sub-Agent.  
An application for entry of inspection made  
separately at any Sub-Agent's office may be  
sured to the local Agent by the Sub-Agent, at  
the expense of the applicant, and if the land  
is in the vacant or receipt of the tele-  
gram such application is to have priority and  
to land will be held until the necessary pa-  
pers to complete the transaction are received.  
In case of "personation" the entry will be  
specially inspected and the applicant will  
lose all priority of claim.  
An applicant for inspection must be eligible  
for homestead entry, and only one application  
for inspection will be received from an indi-  
vidual until that application has been dis-  
posed of.  
A homesteader whose entry is in good stand-  
ing and not liable to cancellation, may make  
out to approval of Department, relinquish it  
in favor of father, mother, son, daughter,  
brother or sister, or might, if eligible, in  
case of being abandoned, or subject to the  
voluntarily abandoned, subsequent to inspec-  
tion of cancellation proceedings, the applicant  
for inspection will be entitled to prior right  
of entry.  
Applicants for inspection must state in  
what particular the homestead is in default,  
and if subsequently the statement is found to  
be incorrect in any particular, the appli-  
cant will lose any prior right of re-entry  
since the land has been received, or if entry  
has been granted it may be summarily can-  
celled.  
Dues.—A settler is required to perform the  
conditions under one of the following plans—  
(1) At least six months' residence upon  
and cultivation of the land in each year dur-  
ing the term of three years.  
(2) If the father (or mother, if the father  
is deceased) of a homesteader residing upon a  
farm in the vicinity of the land entered for  
by such homesteader, the requirement as to  
residence may be satisfied by each person re-  
siding with the father or mother.  
(3) If the settler has his permanent resi-  
dence upon any other land, the requirement  
may be satisfied in respect of such land.  
Before making application for patent the  
settler must give six months' notice in writ-  
ing to the Commissioner of Dominion Lands  
at Ottawa, of his intention to do so.  
SYNOPSIS OF CANADIAN NORTH-WEST MINING  
REGULATIONS.  
Coal.—Coal Lands may be purchased at \$10  
per acre for soft coal and \$20 for anthracite.  
Net more than \$200 each can be acquired by  
one individual or company. Royalty at the  
rate of ten cents per ton of 4,000 pounds  
shall be collected on the gross output.  
Quartz.—A person eighteen years of age, or  
over, having discovered mineral in place, may  
locate a claim, 1,500 ft. x 300 ft.  
The fee for recording a claim is \$5.  
At least \$100 must be expended on the  
claim each year or paid to the mining recorder,  
in lieu thereof. When \$500 has been expend-  
ed or paid, the locator may, upon having the  
survey made, and upon complying with other  
requirements, purchase the land at \$1 per  
acre.  
The patent provides for the payment of a  
royalty of 1/3 per cent. on the value of the  
mineral mined, generally are 100 feet  
square, entry fee \$5, renewable yearly.  
An applicant may obtain a lease for  
drifts for gold or five miles each for a term  
of twenty years, renewable at the discretion  
of the Minister of the Interior.  
The lessee shall have a drifter in operation  
within one month from the date of the lease  
for each five miles. Rental, \$10 per acre,  
for each mile of river frontage, at the  
rate of \$1.50 per cent. collected on the output  
after it exceeds \$10,000.  
W. W. CORY,  
Deputy of the Minister of the Interior,  
N.B.—Unauthorized publication of this ad-  
vertisement will not be paid for.

MUTILATED IT  
STORY OF ATROCIOUS CRIME  
COMES FROM CHINA.

Young Bride Murdered and Her  
Body Cut' Up—Boiling Oil  
Poured on the Poor Girl and  
Nails Driven Into Her Head.  
Vancouver, B.C., June 27.—News of  
one of the most atrocious crimes ever  
heard of was brought to this city by  
passengers on the steamer Montague.  
It appears that a family living near  
the haien yamen, Sianyang, China, re-  
cently received into the household a  
wife for one of the sons. The wife was  
a girl of sixteen years of age. Shortly  
after her coming the father-in-law took  
sick and died. The ignorant and super-  
stitious mother at once put the blame  
on the little daughter-in-law,  
claiming that some mistake had been  
made in the geomancy in re-choosing  
the date for the wedding, and that she,  
therefore, not being the one  
psychologically fit or intended for the  
home had brought bad luck and evil  
influences which had caused the death  
of the old man. She therefore pro-  
nounced the death penalty and pro-  
ceeded to execute it. She poured boil-  
ing oil over the poor girl, drove five  
big nails into her brain and two  
through her neck.  
The mother-in-law was assisted in  
her cruel deed by a couple of other  
females in the family. They cut the  
flesh off portions of the body, but af-  
ter all was done they lacked the cour-  
age to wrap the corpse, and put in a  
box which the water carrier had  
brought. They made him do it, thereby  
letting him see how terribly the poor  
body had been mutilated. He called  
three others, and together they car-  
ried the corpse out at the south gate.  
The story reached the ears of every  
official and citizen, and the hien was  
compelled to make an investigation.  
He tried to quiet matters by mak-  
ing the water carrier retract the story,  
but did not desire a hair's breadth from  
the story. He said: "Hang me if you  
like, but I will not take back one  
word."

Father's Occupation.  
New York Globe.  
A boy about fourteen years old had  
been put on the stand by the defense,  
in the case of a woman who had been  
murdered. The father was examin-  
ing him, according to a story credited  
to Senator Depew. After the usual  
preliminary questions as to the wit-  
ness's age, residence, and the like, he  
proceeded: "Have you any occupa-  
tion?" "No." "Just look about  
home?" "That's about all." "What  
does your father do?" "Nothing."  
"Does he do anything to  
support the family?" "He does  
nothing." "In a while, when he can  
get them?" "As a matter of fact,  
isn't your father a pretty worthless  
fellow, a dead beat, and a loafer?"  
"I don't know, sir; you'd better ask  
his sitting over there in the  
jury."

Lombardy Locals.  
Lombardy, June 26.—Miss Marie  
Docher is the guest of the Misses  
O'Loughlin in Perth. Miss Minnie  
Ryan, Smith's Falls, spent Sunday at  
her home here. Clinton Williams, of  
Englehart, is visiting at his home  
here. Owing to the long-continued  
drought the farmers here expect a  
shortage in the hay crop. Daniel Der-  
rick, of Toledo, visited friends here last  
Sunday. Miss Ella McGuire, of To-  
ledo, is visiting her sister, Mrs. Ed-  
ward Covell. Born: On Sunday, June  
23, to Mr. and Mrs. Albert Covell, a  
daughter.

What Elgin Hens Laid.  
Elgin, June 27.—About a month  
ago this place had a hen lay  
which measured 6 1/2 by 8  
inches, and yesterday another hen  
laid an egg 7 1/2 by 9 1/2 inches. This lat-  
ter egg, when broken, showed a com-  
mon sized egg shell and all surround-  
ed with the yolk and white of the  
larger egg, making two complete eggs  
in one. Both hens were a mixed  
breed. Can one of the thoroughbreds  
we hear so much about beat the com-  
mon hens.

The Continental Sunday.  
New York Post.  
John Gambler, of St. Joseph, Mo.,  
has been convicted of "constructing a  
trotting track in a billiard parlour on  
the Sabbath day. This is what comes  
of letting Europe pour its stream of  
criminals into this country."

Of a million girl babies born, 871,  
296 are alive at twelve months. Of  
the boys, 30,000 fewer live throughout  
the first year.

How Emigrant Was Robbed.  
A week ago, an intending Canadian  
emigrant was robbed of \$16 at Edin-  
burgh by means of the confidence  
trick. He was accosted by a plausible  
man, who said he had a farm in Can-  
ada, and was returning there, and  
after fraternizing for some time he  
showed a \$100 bill, adding that he had  
a loan of £16 to pay his passage, and  
with a companion went in the direc-  
tion of a bank, ostensibly to pay, and  
then he was asked to wait, per-  
suailed and he would, his suspicious be-  
ing allayed by the fact that the men  
went towards the side door of the bank.  
They went down another street,  
and of course never returned.

RIVALS THE HAZARD.  
New Invention For Shaving—Magic  
Powder Does the Trick.

To abolish razors a "shaving pow-  
der" has been invented by Mr. With-  
erington, of London, England. The  
powder, made into a paste and rub-  
bed on the most stubborn beard, is  
said to act like magic. All that re-  
mains is to wipe it off, and the chin  
is as clean and smooth as alabaster.  
At a demonstration given at Can-  
non Street Hotel, Mr. Frank Richard-  
son, the eminent whisker hater, was  
present. Here is his description of the  
scene:  
"I have just seen whiskers harvested,  
and I never saw anything like it be-  
fore.  
"Provided I receive certificates that  
the "shavers" are alive and happy a  
week hence, I will expect to see the  
Minister to make me a member of the  
Cabinet.  
"It would be only fair to reward me  
when my desperate campaign against  
whiskers had ended in their annihi-  
lation.  
"A crowd of journalists (mostly  
clean-shaven), jealous barbers (all  
carrying razors), and other intellec-  
tuals and intellectuals fought their  
way into the room where the  
exhibition was given.  
"Six nervous men sat on a platform.  
The master of ceremonies distributed  
a white paste over the several beards.  
Even moustaches were attacked by this  
ruthless person. Thus the labor  
of years was fulfilled to make a  
journalist's holiday.  
"Of-Shoots Filleted."  
When the paste had been doing its  
insidious work for some minutes—  
during which no one had dared to  
breathe—four or five desperate men  
broke into the historic place, say-  
ing that they were determined to be  
in at the death. These were clearly  
a set of people who had been  
reading my books, and had been re-  
garded against whiskers by my elo-  
quence.  
"The paste was sprayed with water,  
then two whisksers were neatly  
ed off with a paper-knife. Everyone  
applauded and congratulated the pa-  
tients on their improved aspect. Their  
employers will probably double their  
salaries. They said they felt quite  
convalescent.  
"One man had the southern wing of  
his bush removed with a thing like a  
garden spade. Another had his off-  
shoots filleted.  
"Then they brought up a man with  
prized whiskers and abolished them  
with a few well-directed swoops.  
Whereupon I proceeded to relate the  
news of the splendid victory.  
"Paupers in a Palace.  
"A structure which, in many of its  
details, is equal to any mansion in the  
land, and could vie in many respects with  
some of the most expensive hotels in  
London."  
Such was the description given by  
E. F. Robb, on behalf of the Ratepay-  
ers' Association, of the new Ham-  
mer-Smith Workhouse and Infirmary at  
Wormwood Scrubs, at the opening of  
the Local Government Board inquiry  
into certain charges of extravagance.  
The building, which is estimated to  
cost \$1,307,620, was elaborately  
described by Mr. Robb.  
In the whole of the administrative  
block they entered between handsome  
screens fitted with pitch pine and  
plate glass, on the floor, and a wide  
aisle and surrounded by a dado of en-  
caustic ware of the most expensive  
art type.  
The cooking apparatus had cost at  
the rate of \$15 per burner, and the  
cost of supplying electricity per par-  
ter was from \$10 to \$12.50 per an-  
num.  
The kitchen blazed with four brass  
electrolites, fitted with five lights  
each. In every corner or vestibule  
that a light could be carried it had  
been done.  
A system of duplicate wiring had  
been introduced, and he was credibly  
informed that when alterations were  
undertaken at Buckingham Palace a  
system of this kind was being intro-  
duced.  
The dining hall was almost baron-  
ial in its style. It was like a cat-  
hedral or chapel. The light was the  
effused through the stained glass win-  
dows. The whole apartment was equal,  
if not superior, to most of the dining  
halls to be seen in the colleges at  
Oxford.

Cost of Arms for Alberta.  
Early announcement may be ex-  
pected of the fact that the Herald's  
City Council has approved of the propo-  
sed cost of arms for the Province of Al-  
berta.  
"The design submitted shows a  
shield field in the center, with snow-  
capped mountains in the background,  
the whole surmounted by a St.  
George's Cross. When this shall have  
been approved, all the provinces of  
the Dominion will have been granted  
coats of arms, but it is not expected  
that there will be any change in the  
coat of arms of the Dominion itself,  
which will continue to show the shield  
of the four original provinces—On-  
tario, Quebec, Nova Scotia and New  
Brunswick, although the time may  
come when it shall be considered ad-  
visable to recast the design and in-  
clude a representation of all the pro-  
vinces."  
A Ten Days' March.  
The Royal Canadian Horse Artillery  
left Kingston last week on a ten days'  
march across country to Petawawa, a  
distance of 170 miles. The artillery  
is under command of Lieut.-Col. Les-  
lie.  
On the trip bivouacs will be made  
at Brewers' Mills, Elin, Oliver's Fer-  
ry, Perth, Carleton Place, Pakenham,  
over Sunday, Sand Point, Forrester's  
Falls and Perth. The force will  
remain at Petawawa until late in Sep-  
tember.  
While away Tete Du Pont bar-  
acks will be renovated.  
"The Batters now in Toronto, will  
return to Kingston in September.  
Comedy Treats.  
Willie—My mia is going to take me  
to see some funny movie' pictures.  
Tommye—That's nothing. My ma  
is going to let me see pa make a shell  
for our attic."

The Hague conference, on Thursday,  
discussed the bombardment of unde-  
fended towns.  
West Huron conservative nominated  
their pro-tem member, E. N. Lewis, for  
the common.

European Skin Specialist Says  
Dandruff is Caused By Para-  
sites.  
Upon that theory, proved beyond a  
doubt, a cure for dandruff was sought  
after. Scientists, chemists, druggists  
and physicians all "took a hand" and  
the successful issue is the present pro-  
cedure known as "Newell's Herpicide."  
This remedy actually kills the para-  
sites that infest the hair bulb, does its  
work most effectively and contains not  
an atom of substance injurious to any  
thing else than the germ alone. Her-  
picide causes the hair to grow as na-  
ture intended it should, soft and abun-  
dant.  
Sold by leading druggists. Send 10c.  
in stamps for sample to The Herpicide  
Co., Detroit, Mich. Two sizes, 50c.  
and \$1. G. W. Mahood, special agent.

Attack by A Bull.  
Bath, June 27.—Mrs. Maxwell Rob-  
inson is visiting friends in Kingston  
this week. George Irish and wife,  
Kingston, who have been visiting at  
A. Irish's for a few days, returned  
home on Thursday of this week. Our  
village was visited with a shower  
of rain, on Wednesday, which has done  
some good. Quite a number from this  
locality took in the circus, in King-  
ston, on Thursday of this week. The  
steamers Caspian and North King are  
making daily trips to the Thousand  
Islands now, calling at this port regu-  
larly. The entrance examinations are  
being held here this week, about forty  
children being in attendance. Mr. As-  
selstine, Wilton, is examiner. Miss M.  
G. Edwards has returned to her home  
in Naparoc for the holidays. Our Am-  
erican visitors are coming to the sum-  
mer resort here, a few having arrived  
this week. James Stevenson, serious-  
ly injured last week, by a bull at-  
tacking him, is recovering and able  
to be around again.  
Rideau Lakes—Ottawa.  
Steamers Rideau, King and Queen  
leave Monday, Wednesday, Thursday  
and Saturday at 6 a. m.  
For Clayton—Tuesday, Wednesday,  
Friday and Saturday, at 6:15 p. m.  
James Swift & Co., agents.

POEMS BY CANADIAN AUTHORS.  
(Epitaph For a Husbandman.)  
He who would start and rise  
Before the crowing cocks—  
No more he lifts his eyes,  
Whoever knocks.

He who before the stars  
Would call the cattle home—  
They want about the bars  
For him to come.  
Him at whose hoary calls  
The farmers flock to raise,  
The horses in their stalls  
Expect in vain.  
Busy and blithe and bold,  
He labors for the morrow—  
The plough his hands would hold  
Rusts in the furrow.  
His fields he had to leave,  
His orchards cool and dim;  
The clouds he used to cleave  
Now cover him.  
But the green, growing things  
Lean kindly to his sleep—  
White roots and wandering strings,  
Clearer they creep.  
Because he loved them long  
And with them bore his part,  
Tenderly now they throng  
About his heart.  
—Chas. G. D. Roberts.

ENGLAND AND CANADA.  
Much Interest Being Taken In Next  
August's Artillery Contest.

Arrangements have been completed  
for an interesting competition during  
the first week of August between Brit-  
ish Royal Garrison Artillery Volun-  
teers and the Artillery Militia of the  
Dominion of Canada. On or about  
July 12, a detachment, consisting of  
six officers and some thirty non-com-  
missioned officers and gunners, will  
sail for Montreal, under the command  
of Col. Sydney Wishart, 1st City of  
London Artillery, Col. the Earl of  
Strathbrooke, V. D., chairman of the  
council of the National Artillery As-  
sociation, will accompany the detach-  
ment. Field artillery competitions will  
be held in Ontario, and garrison com-  
petitions in the forts at Halifax, N.S.  
It is well on toward 30 years since  
a team of volunteer artillery visited  
Canada, the first and only previous  
occasion on which such a visit was  
made being in 1854. The Canadians  
returned the compliment in 1857, when  
a specially selected detachment of  
Canadian artillery, under the com-  
mand of Col. Minden Cole, took part  
in the National Artillery Association  
meeting at Shrewsbury, and distin-  
guished itself by winning the Queen's  
Cup in the group firing competition.  
Recently the National Artillery As-  
sociation renewed its invitation, and  
the National Artillery Association  
found itself in a position to accept it.  
The selection of Col. Wishart to com-  
mand the detachment is one that will  
be entirely acceptable to British vol-  
unteer artillerymen. He is recognis-  
ed as a thoroughly competent gunner,  
and a thoroughly competent officer, of  
the highest character and other quali-  
ties necessary to make the visit a  
complete success. The presence of  
Lord Strathbrooke, who takes the keen-  
est possible interest in artillery work,  
will be of immense service, and the  
volunteer gunners may rest assured  
that they will be worthily represent-  
ed during the approaching visit to  
Canada, as mentioned, and particu-  
larly showing that Lord Strathbrooke's  
interest in the volunteer artillery is of  
a practical kind, that his own reg-  
iment, the 1st Norfolk Royal Garrison  
Artillery, won the King's Cup in the  
National Artillery Association competi-  
tions at Shrewsbury in 1905, when  
he himself was present with his de-  
tachment.  
A committee of selection, consist-  
ing of Lord Strathbrooke, Col. Wishart,  
Col. F. C. Paul, V. D., and Capt. R. J.  
Wallis-Jones, 1st West Gloucestershire  
Royal Garrison Artillery, has been  
appointed to choose the members of  
the detachment which will represent  
the volunteer artillery in Canada. The  
detachment will be equipped with  
khuaki uniforms, and it is probable  
that they will be assembled for a  
fortnight's special training at Shrew-  
sbury under Col. Wishart's immediate  
direction, before starting. The officers  
who are going will pay their own ex-  
penses, but it will be necessary to  
raise a fund to defray the expenses  
of the non-commissioned officers and  
gunners.

BLACK ANTS EAT SILLS.  
Oak Foundations Reduced to  
Shells By Insects.  
W. M. Thomson, a grocer, of Rock-  
ville, has had an unusual experience  
with ants. For several years he has  
observed that in the spring a certain  
variety of black ants, with white  
wings, swarm like bees from crevices  
about the foundation of his house, in  
South College street. Usually three or  
four swarms, seemingly millions,  
would issue forth at intervals and fly  
away. The thought of any damage to  
his house, however, was not dreamt  
of until recently, when an examination  
revealed the fact that the foundation  
sills consisted only of a thin outer  
shell, the whole interior being reduced  
to a powder.  
Within the last week some sixty-  
eight feet of sills in this condition  
were removed from the east side of the  
building and the sill under the south  
side was also removed. These sills  
were 10x12 inch bled oak.  
UNNA DEFINES A CAUSE.  
European Skin Specialist Says  
Dandruff is Caused By Para-  
sites.

If you were a grocer—and you  
had recommended St.  
George's to your customers  
—and they had tried it—  
and had come back to tell  
you that it was BETTER  
than you said it was—  
—now, wouldn't you smile?  
"That's the way I feel about  
St. George's  
Baking Powder  
"Use St. George's—and smile on baking days."  
"If you write The National Drug & Chemical  
Co. of Canada Limited, Montreal—they will send  
you, FREE, a handsome cook book, bristful of  
excellent recipes."

Refrigerators!  
Our line of Refrig-  
erators is now com-  
plete. We have them  
ranging in price from  
\$8 to \$35  
Ours at \$15.00 can  
not be beaten for the  
money. Before go-  
ing elsewhere, it will  
pay to inspect our  
line first.
