What an OXFORD Gas Range will do for you.

A gas range used to be a makeshift for the warm days. You put up with its shortcomings because of the relief it gave you from the heat of a coal fire, the heavy work of a coal range and the dirt of the ashes.

Any gas range is a relief from this drudgery.

But the Oxford Gas Range is also a wonder of efficiency.

It bakes, roasts, broils—cooks a large dinner in a most satisfactory manner with the least possible work and worry.

The Oxford oven has an extra corrugated steel lining and air space at the back, and is lined throughout with asbestos millboard. You thus get the full benefit of all the heat generated, none is lost. The oven is scientifically ventilated so that the fumes of the cooking and all excess moisture are drawn up the chimney.

The oven rakes are of pressed steel, practically unbreakable.

A cover plate in the bottom of the oven permits of the examination of the burners, which may be removed for cleaning.

The drop-oven door has balance springs, which permit its being left open at any angle. When fully open the door forms a strong firm shelf on which the pan may rest while inspecting pastry or bassing a roast.

The Oxford Range is fitted with our new adjustable gas valve, which accommodates any pressure of gas. This valve regulates the flow of gas so that none is wasted and the proper proportion of air is burned.

The top of the stove is flush so a heavy pot may easily be slid on or off the fire. Each range is equipped with giant and simmering burners.

For economy, comfort and perfect cooking, you should have a gas range, and the best on the market—the Oxford Gas Range—doesn't cost any more than the other kinds.

The price of this high-grade gas range, with 16-inch oven, is from $18 to $20, according to finish.

Call and see the Oxford and have the exclusive features demonstrated to you.

PRICE, $18.

THE CROP PROSPECTS.

Were No Better Than At Present In 1884.

Sharpton, July 1.—Grain prospects are fair. We have seen grain considerably worse than it is now and yet have a good crop after. In 1884, previous to the 4th of July in that year, the grain crop was in a deplorable condition for want of rain. On the 4th of July the rain came down in torrents and soaked the earth thoroughly as it did on Sunday. The grain crop was very plump and good, although the straw was short. Even uncut hay improved considerably. It certainly is not too late yet should another good rain come soon. A great deal of corn has been planted as a provision against a scarcity of fodder. Some one has wittily remarked that corn laughs at dry weather. Corn certainly loves heat, especially in the early stages of its growth. One half the crop is doing well. The later sown cannot germinate for want of moisture in the soil. Quite a reaction has set in as to the value of fodder. Fodder that was scarcely saleable last winter is now considered as good as gold. Potatoes and garden stuff are in the same category with other crops. Pastures are not good and the supply of milk is diminishing.

Visitors: Mrs. W. Hanley and daughters, Lena and Mossie, with friends at Battersea; Mrs. Wood, Hartington, with friends here. School has closed for the holidays.

Cole Lake Notes.

Cole Lake, July 1.—The crops are looking better after the rain. S. Martin is improving his house with a new woodshed. The cheese inspector was around again and found everything in good condition. Mr. and Mrs. William Killins returned to Chapleau. Benson Peters had the misfortune to lose one of his young cattle by a train knocking it off the track. A number of the young people enjoyed the lawn social at Verona. Visitors: Miss D. Peters at her parents; Miss Susie Shillington at A. Harten's; Miss Ethel and sister Muriel, Hamilton, at Henry Swafrick's, Tichborne; A. Kish at T. Butterill's; Miss E. Peter's, at Walter Brown's, Green Bay; G. Botton, at J. Shillington's; H. Killins at J. Hills'; Miss Maggie and Ella, spending Sunday in Kingston.

PUT UP NEW STAFF.

On the Columbian Hotel At T. I. Park.

Thousand Island Park, July 1.—Cottagers are arriving daily. The Columbian and New Wellesley have an unusual number of guests for this date. The downfall of rain, on Saturday night, and all day Sunday, was greatly appreciated by farmers in the locality. Rev. Dr. Phelps, Syracuse, director of Tabernacle services, has arrived and is occupying the Griffith cottage on Central avenue. Dr. Warner's new cottage on East Coast, is nearing completion. The flag staff that was blown down recently on the roof of the Columbian, has been replaced by a new one sixty feet long. Superintendent Thibeau is recovering from his late accident. The various steamers doing the island rambles are doing a light business as yet. The steamer Island Belle gives excursion rates to-day to Brockville and also to Ogdensburg on the 4th. Freeman & Mitchell have received scow loads of wood for the use of cottagers. This wood comes from the north woods and is in slabs fourteen inches long and retails at $3.50 per cord.

Mrs. L. B. Spencer, also the Birch family, of Kingston, Ont., are occupying their cosy cottages on Ontario avenue, west. The Canadian ensign floats proudly over the Birch cottage. Tabernacle services were conducted yesterday morning and evening by the Rev. F. T. Keene, of Syracuse, N.Y.

Misses' Costume.

The accompanying sketch reveals a smart frock made with a jumper, which is in the usual blouse style, having the large armholes and trimmed with insertion. The guimpe has a yoke of embroidery to match insertion, the sleeves are made full, having frills of embroidery. The skirt is a plain five-gore, being slightly gathered at the waist and trimmed with two full ruffles of the embroidery. A pretty suggestion for development of this design is Persian lawn or French batiste.

The Paragraph Pulpit

Unitarian

REV. C. W. CASSON, OTTAWA

A Patriotic Religion.

Much of the religion in vogue in Canada to-day is distinctly unpatriotic, and prejudicial to the interests of the country. Insofar as it teaches men that they are depraved and dependent, incapable of the good and unworthy of the best, it is striking a blow at the very foundations of good citizenship. Insofar as it keeps its adherents slaves to a code or a superstition, it tends to make a nation of slaves. It is only when religion makes men free in thought, large in faith, strong in action and worthy of patriots. We need a religion that will make every citizen have faith in himself and faith in his fellow-citizens.
