Synopsis of Canadian Northwest HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 8 and 16, not reserved, may be homesteaded by any person who is the head of a family, or male over 18 years of age...

Application for homestead entry or inspection must be made in person by the applicant at the office of the local Agent or Sub-Agent.

In case of "personalty" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An applicant for inspection must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

Applicants for inspection must state in what particular they are in default, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose his right of priority...

(1) At least six months' residence upon the cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for by such homesteader, the requirement as to residence may be satisfied by each person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement may be satisfied by residence upon such land.

Coal—Coal lands may be purchased at \$10 per acre for self cost and \$20 for acquisition by one individual or company.

Patent provides for the payment of a royalty of 2 1/4 per cent on the sales.

AN ANXIOUS TIME PAPERS DOING HARM AMONG THE PEOPLE.

The Writings of Indian Editor Leads to Much Unrest — One Journal is Honest in Its Interpretations.

Canada is just now watching with great eagerness and anxiety the reports emanating from India, dealing with native insurrections and alleged unrest generally.

"Yesterday we demanded the recall of Mr. Hare (the Lieutenant-Governor of Eastern Bengal), who has already shown himself as a bachelorette of his profession without any of the redeeming points of the latter.

The effect which the persecution of Hindus in East Bengal under the personal supervision and guidance of high officials of the Government, and the demolition of Hindu idols, cannot fail to produce in the minds of Hindu chiefs, Hindu officials, and the native army, who have to endure the taunts of their co-religionists...

Only one Bengal organ, The Mirror, has the honesty to admit the sequence of cause and effect, and to advise the recalling of the Hindu agitators who have done so much harm in many parts of the country.

SHABBY PORT SAID.

"The Gateway to the East" a Cheap and Filmy Place.

After a quiet night in the roads the dock passed into the vestibule of the canal before the assembly of the new crew that comprised the population of the place.

As you look over the side it needs no stretch of fancy to lose the sense of the grimy coal dust, the smut and sweat of the toilers, and see instead demons in a darksome pit scraping, always scraping, at the endless chains that to a weird, formless chant go round and round up the springy plank and back again.

Fastidiously almost the ship builds up out of the confusion below. Vaguelike masts, rigging, funnels and ventilators are outlined or touched here and there with a delicate rosy light so full of subtle meaning that the entire fabric is built up by a few suggestive lights, while the whole is repeated in still darker waters beneath.

CANADIAN BEAVER FARM.

Clergyman Rears Colony of These Interesting Animals.

Beavers have always proved a study of most absorbing interest to naturalists, and the Reverend W. E. Christmas, of Oxbow, Canada, has not only facilities for investigating the habits of these curious animals, but possessing as he does one of the few beaver farms of Canada, this remarkable property is situated on the banks of the River Souris, which, being fringed with poplar-trees, provides the beavers with the best building material in addition to their food.

One night these beavers cut down fifty-two trees, according to the Reverend Mr. Christmas, who takes a great deal of interest in his little colony and watches carefully to see no harm comes to them.

Although it is impossible for the beavers to live for long under water, the entrance is built for some distance under the water, and the regular dam, or food, as may be required. The house of the beaver is built on the bank of the river, with its entrance under water.

Canada's new citizens. Englishmen Coming This Way, But All Countries Contribute.

Analysis of the Immigration Department's figures for the nine months ending March 31st, comprising the last fiscal period, shows that England is supplying by far the largest number of Canada's new citizens.

From the United States there came during the nine months 34,638 new settlers, of whom over 150,000 were repatriated Canadian.

Canada is evidently becoming a popular objective point for the hordes of Jews of Russia, Poland and Austria-Hungary.

Mormons in Canada. The London Presbytery at its recent meeting discussed the subject of "The Mormons in Canada," and adopted the following resolutions:

Whereas the presence of the Mormon element in certain parts of the Dominion and the danger thereby of the perpetuation of the practice of polygamy is a serious menace to the morals of our land, and whereas the people of the United States have for years suffered very seriously from the same element.

How to Be Miserable. Charles Kingsley's recipe for being miserable is as follows: "Think about yourself, think of what you want, and respect people ought to pay you and what people think of you—in other words, centre all your thought on self—and you will have abundance of misery."

Some wives get comfort out of the thought that their husbands are just as good as other men when they are asleep. The man who never thinks of the feelings of others is sure to be devoid of epidemic himself.

SIR WM. MULLOCK TO MINERS.

An Object Lesson to Canada In Settling Labor Questions.

At the final meeting of the Conciliation Board, met to deal with the miners' grievances in Fernie, the other day, Sir William Mulock made an able address upon the labor disputes, the methods settling them and the law.

"We had not organized formally under the act," returned Sir William, speaking also for his colleagues.
