

FACE TO FACE TALKS

A smooth face is rather to be chosen than many whiskers especially in summer. And the daily morning shave may be turned from torture into pleasure by the use of the right shaving kind. We have the pleasure-giving kind.

Razors

Twenty odd kinds—every one guaranteed to suit.

\$1.50 to \$2.50

Safety Razors

The Star, the Gem, or the Yankee, with latest improvements.

\$1.50

Gillette Razors

A Safety Razor that needs no stropping—the best thing yet, with enough blades to last a year.

\$5.00

Razor Straps

Finest line of good straps ever shown in City.

Shaving Outfits

Cases containing razors, straps and brushes. A fine assortment.

Corbett's.

Frontenac Business College. Superior Courses. Moderate Rates. T. M. STODOLSKY, Principal. Phone, 680.

Kingston Business College. Limited, head of Queen street, Canada's Highest Grade business school. H. F. METCALFE, President. J. E. GUNNINGHAM, Secretary.

When You Buy COAL From P. WALSH. You get genuine Scranton, as he handles nothing else.

COAL! The sudden change in weather ought to suggest the wisdom of putting in some good Coal. We sell good Coal. It's the kind that burns out the best heat, and makes the home comfortable; it's the best money you can buy, and there is none better.

Wm. Murray, Auctioneer. 27 BROCK ST. New Carriages, Cutters, Harness, etc., for sale. Sale of Horses every Saturday.

The Economical Housekeeper gets the best coal. She buys right now in the summer, when many don't think of it. She gets her coal piled full of good, honest, soft coal, as clean from dirt and dust as if it had been washed. She gets it for less money than she would later, and she gets better attention. Dealers are not trusted with orders. We would be glad to have your order. The coal will be put in without any dirt or annoyance.

R. CRAWFORD. Phone 9. Foot of Queen Street. Coal that sells.

Daily Whig.

HONOUR WHERE DESERVED.

Berlin has shown its appreciation of W. L. Mackenzie King's success in public life. He is the grandson of a distinguished Canadian, William Lyon Mackenzie, whose name he bears and whose ability and instinct for public duty he has in some degree inherited. Graduating from the university with honours, he decided to study the great economic questions of the day. Academically trained for efficient work, he was called to the department of labour, as deputy minister, practically untried and with many serious questions before him.

NEW WITNESS IN SUIT.

American to Give Evidence in Bruce Claim. London, July 8.—A new witness in connection with the claim of George Hollamby Bruce to the dukedom of Portland has been found. This, it was stated at a meeting of the shareholders in the Bruce company yesterday, is an American, who will be able to prove conclusively, that the alleged burial of Thomas Charles Bruce was a mock one, and that the coffin contained only small strips of lead, screwed down and held in position by brass clamps.

LUNATIC AT THE ELYSEE.

Paris, July 8.—A well-dressed woman called at the Elysee last night, and addressing herself to the gate porter on duty, asked to see M. Fallieres. She was asked her business. "Why, certainly," said the lady sharply. "I am the queen of France. There is no longer a president. Please tell M. Fallieres, with my compliments, that he is to vacate the Elysee as soon as possible, as I wish to enter into possession." Then the porter, realising that he had a lunatic to deal with, gave her in charge. To-day she was sent to an asylum.

HE DOES HIS DUTY.

Mr. Graham, who ably leads the opposition in Ontario, has given offence to the government and its supporters. He could hardly do otherwise, and indulge in the criticism which the policy or act of the government has evoked. Mr. Graham has predicted that there will be a marked change in the position of parties in the next election, and a contemporary has cartooned Mr. Whitney as being immensely amused in consequence. The city of the conservatives in the last election will not be the same in the election that is to come. That is certain. There were promises in one. There will be performances in the other.

A GOOD TIMEPIECE

is a very essential thing during the hot summer months, when one is away from the constant flow of the city clocks. With other things you need a reliable timepiece or would like your watch set in thorough order, one of the most reliable places in the city is at Kinnear & d'Estero's, 100 Princess St. Phone 338.

New England Chinese Restaurant

Open from 10.30 a.m. to 3.00 a.m. The best place to get an all round lunch in the city. Meals of all kinds on shortest notice. English and Chinese dishes a specialty. Phone 656.

THE FRONTENAC LOAN AND INVESTMENT SOCIETY

ESTABLISHED 1863. President—Sir Richard Cartwright. Money loaned on City and Farm Freehold, Municipal and County Debentures, Mortgage purchases. Deposits received and interest allowed. S. C. McGill, Managing Director, Office, 87 Clarence Street, Kingston.

Wm. Murray, Auctioneer

27 BROCK ST. New Carriages, Cutters, Harness, etc., for sale. Sale of Horses every Saturday.

New York Chinese Restaurant

Open from 10.30 a.m. to 3.00 a.m. The best place to get an all round lunch in the city. Meals of all kinds on shortest notice. English and Chinese dishes a specialty.

EDITORIAL NOTES.

What the street railway wants more than fenders is conductors who will see the people safely on or off the cars. Of course the school book to the pupils in Kingston will be away down, when the schools reopen. Will all contracts be declared off?

William O'Brien, in his paper, the Irish People, says the Irish party are again parliamentary liabilities. Evidently he has no use for Redmond and his allies.

The Globe has done the public a service in exposing the sales of school books wholesale at the old rates. The people are not going to get the advantage of any book reduction if they don't look out.

Dr. Fyde leaves the medical council's office with regret. The marvel is that he held the \$2,500 job in it so long, after he became a member of the government. His tenacity of office did not look well.

So stationary engineers will now have to be examined and licensed if qualified after July 1st, 1908. Well, that is right. A handy man may be able to run an engine, but an engineer will run it better, without danger of accident.

Mr. King organized the department and largely made it what it is. True he has had the counsel of men who sympathized with him, and earned thereby the gratitude of the working classes. These are Sir William Mulock and Mr. Lemieux. The solution of knotty points depended on Mr. King however, and he has had a most successful career. He brought to bear on each difficulty a knowledge of all the facts, of what history has taught under similar circumstances, of what philosophy has suggested. Scholarship and energy could not have scored his triumphs without the diplomacy, the sagacity, the spirit of conciliation with which he is so richly endowed.

The city of his birth and early association did a worthy act in inviting him to visit it and receive some evidence of its consideration. Nor was it an occasion for flattery. The board of trade simply desired to express its recognition of his position as the country's great peace-maker, and in this it has encouraged all the young men to imitate him in being worthy of themselves, their talents, their opportunities, and so qualifying for the places of honour, responsibility and trust which will undoubtedly be theirs.

LATEST SCHEME

WHIZZING EGGS AWAY TO MARKET. The Latest Invention Will Carry Farm Produce to the City and Bring Back the Money.

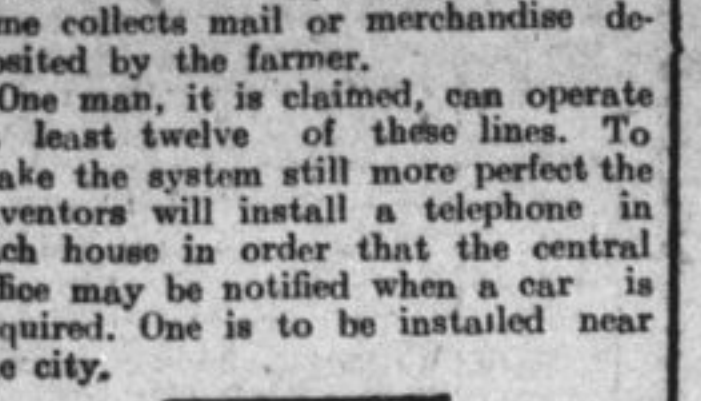

Pittsburg, July 8.—Sending his butter and eggs to market at a speed of twenty-five miles an hour without moving further than his front gate is the scheme which an ingenious inventor has devised for the convenience of the farmer.

All the farmer will need to do in case this automatic delivery device becomes a reality will be to pack his produce in a basket, telephone for a small delivery car, if one is not already without his gates, deposit his package when one arrives, and collect the receipts at the end of the day.

The delivery is made by means of a carrier which travels on light rails about twelve feet from the ground. The carriers deposit while en route mail or packages at any or all of the stations on the line, and at the same time collect mail or merchandise deposited by the farmer.

One man, it is claimed, can operate at least twelve of these lines. To make the system still more perfect the inventors will install a telephone in each house in order that the central office may be notified when a car is required. One is to be installed near the city.

Evening Gown.

Simplicity is the characteristic of the stylish evening gown shown in the accompanying sketch. It is made of lavender tint d'epit. The blouse is cut very full, V shaped, and has the Japanese sleeve trimmed with a band of liberty silk to match. The skirt is made with a long sweep and has four flounces from the knee down, each being four inches wide. A guimpe of mesaline lace worn with this gown makes it quite appropriate for afternoon wear.

The First Lighthouse.

Toronto Telegram. In 1803 the Canadian legislature passed an enactment arranging for a lighthouse upon the south westernmost point of a certain island called Isle Forest, situated about three leagues from the town of Kingston, in the midland district.

Rats Attack Children.

London, July 6.—A number of large sewer rats which were disturbed by excavations at Exeter found their way into the bedrooms of a tradesman's house, and attacked the inmates in their sleep. Three children were badly bitten. Jenkins' raincoats just the thing for this weather.

Every man ought to marry a woman who is a good manager, because few men are any good unless they are properly managed.

Are You Often Bilious?

Read This And Learn How To Prevent Attacks. Biliousness is merely a term applied to a condition that exists, when the body is over-loaded with bile. The complexion turns yellow, eyes look dull, pimples, itching and eczema break out, headaches are ever present. Biliousness has two great causes, constipation and defective liver action.

Will Retain Sight.

Genora, a sailor, is in l'Hotel Dieu, with a bad eye. At Cape Vincent, N. Y., recently he was helping to remove a cast from a shaft when a broken piece of steel was driven into the man's eye. Dr. O'Connor says the man is progressing nicely. His sight will be preserved and will be as good as ever.

To Receive Coal Tenders.

The civic light and water committees will have a meeting on Saturday afternoon to receive tenders for coal. Joint tenders were called for, the light plant requiring 2,500 tons of slack coal and the waterworks 1,300 tons.

Premier McBride, of British Columbia, is pleased with his visit to England. He has penned his want. What was it? An increased subsidy for the province, only larger than the dominion conference agreed upon, was expected. The colonial office heard his grievance—and hied it.

Independence Day in the United States should be called Slaughter Day, because of the accidents and deaths that attend its demonstrations. On the 4th it is estimated that 5,000 children lost their lives through gun-powder explosions.

Our Store Closes at 5 P.M., Saturdays Excepted, During July and August.

Men Who Know Come Here for Clothes.

We have the kind of Clothes that will convert the tailor-made fellows into a regular patron. All the new fabrics are here, and the cut of our garments shows every correct idea worked out to perfection.

See our special \$15 Blue and Black Suits.

THE H. D. BIBBY CO.

ASK FOR Labatt's PORTER (LONDON). Undoubtedly the best brewed on the continent. Proved to be so by analysis of four chemists, and by awards of the world's great Exhibitions, especially Chicago, 1893, where it received ninety-six points out of a possible hundred, much higher than any other Porter in the United States or Canada. JAMES McPARLAND, Sales Agent.
