A man is as old  
as he feels.

The man, who feels old, is  
the man who neglects his liver  
and stomach.

Every man can be 50 or 60  
years YOUNG, by keeping  
his stomach clear—liver  
active—and bowels regular.

## HARD TO GET MARRIED

A CATHOLIC PRIEST RE-  
FUSED TO TIE THE KNOT

A Methodist Minister in Picton  
Did the Deed at Midnight—  
Yachts Gathering at Glen  
Island.

Picton, July 24.—The simple an-  
nouncement of the marriage of  
Malone, of Richard Dominic Rice  
of Malone, N.Y., and Mrs. Pearl  
of Picton and daughter of David McBurney, by Rev. J. J.  
Rae, contains much behind it that is  
of unusual interest. Couples seldom  
experience such a strenuous attempt to  
be married, as did Mr. and Mrs. Rice  
last Wednesday. The bride's home had  
been in Deseronto. She was a Presbyterian  
in religion and when Mr. Rae,  
a Roman Catholic priest, made his  
promise of betrothal, the two visited the  
priest, who, it is understood, declined to  
solemnize the marriage, advising them to go to a certain  
priest in Kingston. However, the  
priest they sought being absent from  
the city, they took the steamer Cas-  
pian and came to Picton. On arrival  
here the much tried couple sought the  
pastor of the local Methodist  
church. It was late, after one o'clock and  
Mr. Rae was adverse to marrying  
the couple so late at night. Con-  
sidering their experience he consented,  
if the intended groom would get the  
necessary license. A man was paid  
\$5 to get the desired license and the  
marriage knot was tied before mid-  
night.

The Croesus Yacht Club of Water-  
town, N.Y., have arrived at Glen Is-  
land for Thursday's regatta of the  
Eastern Yacht Racing Circuit of Lake  
Ontario. The members of the Bay of  
Quinte Yacht Club, in their motor  
boats, went down to the island, Mon-  
day evening and Commodore Miller  
extended the glad hand to Commo-  
dore Reeves and his good fellows. The  
Watertown men have a fleet of  
yachts and yachts and many motor  
boats with them. A special excursion  
will be over for Thursday from Water-  
town, Oswego and Cape Vincent.  
Commodore Rev. Mr. Armstrong was  
in town, to-day, arranging for the  
Trenton excursion. The Teutonians  
are placing much hope in the Little  
Nell, their entry in the eight-fold  
rate events. She has been cleaning up  
all sorts of "junk" and Monday  
got the girl Belleville's fast boat.  
At a meeting of the town council  
Monday, it was decided to levy this  
year's taxes at nineteen mills. The  
council has engaged J. S. Farrington  
as street sprinkler for the rest of the  
season at \$300.

Mrs. George Vance is recovering  
from the effects of a very severe  
stroke. She stopped on a rusty nail  
but not feeling pain at once, neglected  
it for four feet until the following  
day. Blood-poisoning had set in,  
but was checked before reaching an  
alarming stage.

Mrs. A. W. Hendricks and  
little daughter are here to spend  
the summer. Mr. Hendricks was for  
several years teacher of modern history  
in High School until he left to take  
the principalship of the educational insti-  
tute in Walla Walla, Washington. This  
summer he graduated in law and in  
the autumn he expects to begin practi-  
cising before the bar.

Mrs. D. J. MacPhail, Toronto, will  
spend a week the guest of Mrs. W. T.  
Ross before leaving for Germany to  
spend a month with her father, Judge  
Brown.

Mrs. Clarke, Toronto, is visiting her  
sister, Mrs. (Dr.) Currie, Harold  
Burke, Utica, N.Y., is in town visiting  
friends. Mrs. Martin, wife of Manley  
Martin, the well-known proprietor of the  
Tremont house, is confined to her  
room through illness. She underwent an  
operation, from which she is recover-  
ing favorably.

ASK FOR A COMMISSION.

To Seek to Make Universities  
Modern.

London, July 24.—The movement to  
return the Universities of Oxford and  
Cambridge long-since in the press,  
and elsewhere, will be advocated in  
parliament, to-day, when the Bishop  
of Birmingham, a distinguished Oxonian,  
will move, in the House of Lords,  
for the appointment of a royal com-  
mission to consider whether outside  
pressure should be applied to induce  
the universities to adapt themselves to  
the modern conditions. Several pro-  
fessors at Oxford write, collectively,  
to the Times, endorsing the proposal  
for a university commission.

Holding Over-A Castle.

The British government will on Fri-  
day next hand over to the States of  
New Jersey the historic castle of Mont  
Orgueil. Standing on a high rocky  
promontory and overlooking the coast  
of Normandy, the castle once played a  
notable part in the French wars. Two  
years ago the war offices offered to  
hand it over to the islanders, who  
accepted a mooring of the stones on  
the glacial beneath the castle walls.  
The jurats and the rectors will wear  
their red and black robes and will  
march in procession to the outer gate  
of the castle. Here they will be re-  
ceived with a guard of honor and the  
band of the East Surrey regiment will  
play a reception march. The light-  
ant-guards will then hand the keys  
of the castle to the chief magistrate,  
who will, in the name of the island  
accept the gift from the crown.

Jasper, July 23.—The prolonged  
drought in this section was broken by  
a fierce storm, on Saturday, and by  
a heavy rain on Monday. They have  
crop which was very light, is nearly  
all gathered in. Rev. John A. Mc-  
Donald preached, on Sunday, in the  
Presbyterian church, in the interest of  
Sundays schools. Miss Mattie Routh  
has gone to Kingston, and her  
holidays with friends. D. E. Huffman  
is at Picton. On arrival here the much  
tried couple sought the pastor of the  
Methodist church is renovating the  
parsonage. A large number took in the  
A.O.U.W. excursion from Westport to  
Ottawa on Wednesday last. George  
Hutton has returned from a prolonged  
visit in Alberta. His son has charge  
of the experimental farm at Lacombe.

At Brewer's Mills.

Brewer's Mills, July 23.—The great  
desire to have a name, and as a re-  
sult the crops are much improved.  
The farmers have commenced haying and  
a fair crop is reported. F. Roche  
will spend the next few months on  
Howland Island. Mrs. A. Milne,  
Kingston, returned to the city, last  
week, after a two weeks' visit with her  
parents. Misses E. Dunn and E. Gal-

Traynor and a number of his per-

storm, which passed over this vicinity  
on Saturday last. P. McKenna and  
mother, also J. Rochefort, Jr., and M.  
Smith, spent Sunday in Kingston.

have commenced haying and report a  
very poor crop. A few from here at-  
tended sales at Echo Lake on Sun-  
day. Miss Lena Wagner has returned  
from Watertown. William Rat-  
tan, who has been ill some time, is  
not expected to recover. Richard

A Poor Hay Crop.

Pinefield, July 22.—The farmers are  
drawing long faces over the hay  
crop. Frank Howes, one of our lead-  
ing farmers here, cut four loads last  
year; other farmers are same.  
Desired marchers are easily  
sought after; others are still to be  
had. A horse, while rais-  
ing a load on jink sacks, had four  
of them broken. A short time ago one of  
his little boys, thinking to have a  
fish, wanted to go out farther, so  
as to get deeper water. He waded too  
far and stepped off the rock and  
fell into the water. His mother  
caught him by the coat and pulled him  
out. They are to tell us that he  
had to be hospitalized.

possible.

To talk of exchanging Alsace-Lor-

Rhin.

A. Marcel Prevost, the famous lit-  
erature, said that the old rumor of  
an understanding between Germany and  
France, regarding the formation of a  
Franco-German alliance, circulating in  
the near future, will still be discussed by  
many of the Paris journals. From the  
articles of the articles one readily sees  
that French opinion in regard to Ger-  
many has changed but little since the  
war of thirty-seven years ago. Alsace-  
Lorraine is still the great stumbling  
block in the road of a complete pacifi-  
cation between the two peoples.

France, laying Germany's advice to  
Germany, does not talk of the lost  
prospects, but she never thinks of them.

The interesting this evening pub-  
lished the views of a number of pro-  
minent Frenchmen on the question.

They say, in effect, that it is futile to  
discuss a re-appraisal while the front  
line is the Vosges instead of the Rhine.

M. de Marigny, republican liberal  
and anti-war, said it was nonsense  
to talk of France accepting "Taffaire"  
in return for Germany recognizing  
her preponderating influence in  
Morocco. Germany has nothing to  
do with Morocco, and consequently  
France had nothing to give her. The  
French nation had need of a natural  
frontier, and that frontier was the

Rhine.
