Bowel Troubles Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stop taking purgatives and the bowels become "tight" again. "Fruit-a-tives" are the one certain cure for Constipation because their action is upon the liver. "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation. "Fruit-a-tives" are fruit juices with tonics and antiseptics added. In "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a box—\$2.50 for 6 boxes. At all dealers.

Death At Klyneshorough. Klyneshorough, July 28.—The death occurred on Sunday, July 21st, of Miss Cora Klynesh, only daughter of Mr. Klynesh, of Klyneshorough. The deceased young lady had been in declining health for the past year, and she died about a week or two previous to her death. On the Sunday week previous to her death, she attended church. She had attained her twentieth birthday, and was a bright and lovable girl and was popular with a host of friends. Beside her sorrowing parents she leaves an only brother. Her funeral on Tuesday last was a very large one, having a high top, one hundred carriages bearing friends to her last resting place. There has been a strange specimen of field flower seen about here this summer, showing a blossom very like British dandelion, but the stem, or stalk, is held on a tall stem, or stem, and bursting grain. But the leaves on this peculiar plant are like those of a thistle, resembling the Scotch thistle. The plant being a strange one, it would occur to one that the birds of passage might be responsible for its appearance here. Some specimens measured as much as thirty-three inches.

THE Penn Esther RANGE is an ideal baker, the construction of the oven being such that every heat unit has to pass completely around it with all its warmth retained before the smoke and waste can escape up the chimney. The heat travels from the fire box across the top of the oven, down the back and then forward again underneath, until it strikes a baffles plate, around which it circles and goes to the chimney. The temperature of the oven in the Pen Esther is always even—there is no possibility of a gust of cold air spoiling a baking. Call on our local agent or write us direct for catalogue
