Oil Well Mystery Solved.

London, Aug. 10.—Dr. Stott, medical
officer of health for Sussex, has
examined the well at Niffield (Sussex),
which was reported to be poisoning
oil, and reports to the Hail-
ham rural district council that he is
of the opinion that some person is
polluting the well with paraffin oil
of spilt.

Double Sunset.

London, Aug. 10.—Percival Spencer,
in an account of a balloon ascent
from Huckleall, says that a peculiar
effect was the double sunset which
was observed, the sun seeming to set
twice as the balloon rose and fell at-
ternately.

Instruments Of Torture.

London, Aug. 10.—The chairman of
the Yarmouth bench of magistrates, in
fining a piano grinder for causing
an obstruction, said organs were
not musical instruments at all, but
instruments of torture.

Friendship

Friendship is a beautiful
thing and has been said to be
a golden link that binds two
souls together. That's all well
and good with real friendship,
but business friendship is an-
other matter. It is a very
weak prop to lean upon for
business patronage. One buys
where his money goes two
farthest, and if that's all well
and good with real friendship,
but business friendship is an-
other matter. It is a stranger-
advertiser to give certain
values, business friendships
are forgotten. A man's purse
is a much keener considera-
tion.

MAJ. POWELL'S VIEWS

England is Very Backward in War Balloons.

While France Has Led and Germany Followed, Island Empire is Still Very Inactive.

London, Aug. 10.—"If a war were to
occur in the near future between Brit-
ain and another power should we be
found wanting, and, consequently
handicapped, in the matter of air-
ships?" Such was the question put
to Maj. B. F. S. Baden-Powell, the
well-known aviator, yesterday.
"France," said Maj. Baden-Powell,
"has made great headway; Germany
has now shot suddenly forward, but
England will not be left behind. The
authorities are keeping their eyes open
to all new developments, and though
I would not divulge any information
of a technical character, I think I
may state that experiments have been
attended with good results."

Maj. Baden-Powell, however, reluc-
tantly admitted that the English ex-
perts had gained no practical expe-
rience. In their quarters at Aldershot
they have plans and models in abun-
dance, but never once has a military
airship been sailed in England. France,
on the other hand, already possesses
two which have proved successful, and
it is stated that five more are in or-
der. From these the French army
would receive invaluable assistance in
the event of war. In England the
lack of funds for experiments is the
great handicap.

"As to the utility of these for com-
municative purposes, however," contin-
ued Maj. Baden-Powell, "I am rather du-
bious. For scouting purposes they
should prove of inestimable service in
providing information as to the dis-
position of the enemy's force, but the
limited amount of ammunition which
they can carry will render them
almost useless as war machines. Drop-
ping a charge bomb into the middle
of a fort will do little harm. It would
be extremely difficult for them to hit
a gun."

"In the chance of war during the
next year or two the presence of air-
ships would mean nothing very re-
volutionary, but before ten years are
passed many new inventions will
doubtless have made them an impor-
tant factor."

France Trains Crews.

Paris, Aug. 10.—Ministers generally
do not seem anxious to imitate the
example of M. Clemenceau and Gen.
Picquart, who were passengers in the
sixth aerial voyage of the Patrie on
Monday last.

The premier has had to submit to a
good deal of opposition chief in con-
sequence of his journey in cloudland.
What would have happened to the
country if M. Clemenceau had not
come back? Did France run the risk
of a coup d'etat while the premier
and the head of the army department
were in the air? These are some of
the journalistic questions which
have been hurled upon M. Clemenceau.

But handling of this kind does not
affect the premier. He had been up in
a captive balloon, here and there, in
a dirigible, and both he and M. Pic-
quart are greatly impressed with the
possibilities of the aerial fleet, on the
lines of the Patrie, which, as pointed
out in the Daily Chronicle a week ago
France contemplates building.

M. Berteaux, ex-minister of war and
chairman of the army budget commis-
sion, made several trips in the Le-
baudy last year, when she carried out
her trials in the neighborhood of the
eastern frontier, and he is an ardent
supporter of the scheme for increasing
France's aerial fleet.

Yesterday M. Clemenceau had a long
chat with M. Julliot, the constructor,
of the Lebaudy and Patrie, and warm-
ly congratulated him on giving to
France what experts agree is the most
perfect type of dirigible yet designed.

"The Patrie is not to go to her front-
ier station at Verdun for the mo-
ment. She is still at the balloon park
at Menton, where she is employed in
the training of the crews of the fu-
ture airships, and in this connection
she will make a series of ascents
weekly."

M. Clemenceau contemplated making
another ascent shortly, this time with
M. Thomson, minister of marine.
Some of M. Fallieres' intimate friends
suggested that he should go on a
presidential cruise in the Patrie, but
M. Fallieres is said to have reported
that he will think about it when his
term of office had expired.

WIRELESS MESSAGES BY LOCAL SERVICE

A German Engineer Invents Apparatus That May Be Carried Quite Handily On a Man's Back.

Berlin, Aug. 10.—A German engineer
named Heinicke has invented a system
of wireless telegraphy for short-dis-
tance service which can be transported
from point to point with remarkable
ease and rapidity.
It is expected that the system will
find general use in connection
with military reconnoitering opera-
tions; naval landing parties and other
similar purposes.
Negotiations have been begun for the
installation of the system on the trains
of one of the principal railway com-
panies in the United States. American
railway travellers will thus be able in
the near future to transmit telegraphic
messages during their journeys by
transmitting messages to receiving sta-
tions along the line.

Political Murders in Russia.

St. Petersburg, Aug. 10.—An official
report states that between January
1st, and July 1st, of the current year
(old style), 236 persons were killed
and 320 badly wounded in Lodz, Sev-
enteen men and three women who were
"executed" by order of a terrorist
committee are included in the first
list.

MANY ARE SLAIN.

Casa Blanca, Aug. 10.—
The Moors, on Thursday
night, renewed their at-
tempt to invade Casa
Blanca, but were repulsed
with heavy losses by the
fire from the warships. All
the consulates here are now
guarded by machine guns.
The total of the Morish
losses here is estimated at
two thousand.

PITH OF THE NEWS.

The Very Latest Culled From All Over The World.

Hon. Edward Blake, has sailed for
Canada.
There is rejoicing in Canton. Ac-
cording to the imperial decree, all the
opium dens were closed.
Work on the Quebec bridge is prac-
tically on a standstill. The men have
all struck because the contractors re-
fuse to pay the transportation to
Quebec of some men who wish to give
up work and return to the United
States.
According to the New York papers,
the attorney-general of the United
States, Jerome Bonaparte, is plan-
ning, as an outcome of the investiga-
tions of the inter-state commerce com-
mission, to bring criminal prosecu-
tions against individuals, not the un-
derlings, but the trust magnates
themselves. A much better moral ef-
fect is reported as saying, would be
produced by sending a few prominent
men to jail than by a great deal of
litigation, however successful, against
the corporations they control.

THE REIGNING PRINCE.

He Has An Income Of About \$50,000.

Nicholas I of Montenegro

Nicholas Ist, the reigning prince of
Montenegro, was born on October 7th,
1841. He was educated at Trieste and
attended the University of Paris. On
August 14th, 1860, he succeeded his
uncle Danilo Ist, as Prince of Mont-
enegro. He was married on November
21st, 1860, to Milena Petrovna Uve-
ctiova, a Russian lady of high rank
and great wealth. The heir to the
principality is Prince Danilo Alexan-
der, who was born on June 29th, 1871.
His yearly income is about \$50,000, to
which Russia adds \$100,000 annually
and Austria \$50,000 a year under an
old diplomatic agreement. The prince
is a member of the Greek church, and
is strongly Russian in his tendencies.

SOUTH AMERICA MILLIONAIRE

Alexandria Bay Entertaining William Sierra.

Alexandria, Bay, N.Y., Aug. 10.—
Seven years ago William Sierra, a
native of Valparaiso, South America,
worked for the Remington Paper
company in Watertown, at a nominal
salary and to-day he is stopping at
the Crossman house with his two
sisters and a millionaire twice
over. The sudden rise to prosperity
was due to his energetic will power,
that foresaw the great need of paper
mills in the southern country and
after working long months to secure
his great success. He is the largest
paper manufacturer in Argentina Re-
public, and the fame of Sierra paper
is widespread in the countries south
of the north.
His sisters, Miss Blanche and Sara,
are typical of the Spanish beauties
famed in the warmer countries, and
with their ironical pride to be Miss
Adele Gubler, they manage to have
a good time, though none speak Eng-
lish.
Before returning home, Mr. Sierra
will visit them and purchase consid-
erable machinery, which he intends to
install in a new mill just built.

Danger Of Little Drinks.

London, Aug. 10.—A doctor stated,
yesterday, at an inquest, that
Lawman, a public house frequented at
Eistead, Surrey, who committed sui-
cide, that he had suffered from delir-
ium tremens, brought on by taking
"little drinks." The worst cases of
delirium tremens, he said, were caused
by constant tipping.

Danish Edelweiss Now Grown

Copenhagen, Aug. 10.—A Danish
gardener has succeeded in growing
edible, the famous Alpine flower
peculiar to the highest heights of the
Swiss Alps. The enterprising garden-
er is exporting large quantities of the
flowers to Swiss hotels, where they are
sold to tourists.

Hat Causes Death.

London, Aug. 10.—Mrs. Hugh Beck,
of Norwich, overbalanced herself in
smothering at her hat, which the wind
had blown from her head and fell
from the balcony of a house at Cra-
mer, where she was staying for her
health. Though the fall was only
three feet, she was killed.

Bourassa To Speak.

Montreal, Aug. 10.—Henri Bourassa
has accepted an invitation to speak
at Rigaud, Vendouville county, on Sun-
day, August 18th. The invitation was
extended by a number of local lib-
erals.

MARRIAGE OFFERS

The Future is Bright for the Popular Criminal.

Admirers Buy Him Workshop and House, and Will Give Him Start When Released.

Berlin, Aug. 10.—The committee
formed at the end of last year to pro-
mote the welfare of the world-famed
criminal, William Voigt, the shoe-
maker, who perpetrated the wonderful
escape at Kossowick, under the very nose
of the Kaiser and the imperial German
government, announces that full pro-
vision has been made for Voigt's fu-
ture happiness when he is released
from prison in 1910.
The committee, which was formed
in consequence of Voigt's immense
popularity, has collected enough sub-
scriptions to start him in life again
when he is liberated. A cottage will
be bought for him, so that he may
end his days on his own freethold pro-
perty.
A workshop will be built for him in
which he can ply his former trade of
shoemaking. The house will be neatly
furnished, and the workshop will be
well equipped with tools.
A fund will be invested in securities
to provide Voigt with a lifelong pen-
sion when he grows old and unfit for
work. The committee received sub-
scriptions from all parts of the world,
including England and America. No
fewer than 135 women wrote to the
committee offering to marry Voigt as
soon as he is released.
The names of these female admirers
are discreetly withheld, but it is un-
denied that, although the majority
named, they are German women, several
offers of marriage were received from
women of other countries. Two Amer-
ican girls and one English widow
wrote, offering heart and hand to
Voigt.

BOTH DROWNED.

Gentleman Lost Hat, Lady Reached For It.

Hamburg, Conn., Aug. 10.—Law-
rence Gilkinson, New York, and Miss
Rena Rivers, an actress, of Boston,
both summer boarders here, were
drowned in Hamburg Cove, while
boating on Eight Mile River, a branch
of the Connecticut. They were in a
small row boat. Mr. Gilkinson's hat
went overboard, and Miss Rivers, in
reaching for it, lost her balance, and
fell into the water. Mr. Gilkinson at-
tempted her rescue, but both went
down in thirty feet of water.

The Ottawa Blocked.

Ottawa, Aug. 10.—Sawmill men on
the Ottawa, between Pembroke and
Hawkesbury, complain of the action
of John R. Booth in filling the Ottawa
river with a three years' supply of
logs and pulpwood in advance of his
requirements, and thereby blocking
the drives of other lumbermen.

KING EDWARD SEES ONLY PRIVATE CIRCUS

A Unique Exhibition Given Before His Majesty at the Residence of Alfred de Rothschild.

London, Aug. 10.—The king paid a
flying visit yesterday to the Hal-
lons House, Alfred de Rothschild's resi-
dence in London.
One of the most interesting things
King Edward saw there was the private
circus which Mr. de Rothschild has
lately established at Hallons. A
path from one of the lavas leads into
a circle hidden from the general view
by a thick wall of ferns and greenery.
An inner circle is railed off and fitted
with the trappings of a first-class
circus and a miniature stepladder
combined.
In the centre and all around are
tall electric arc lights, which throw a

Straw Hat As Evidence.

London, Aug. 10.—Maurice G. Vin-
cent of Regent street, who was sum-
moned at Kingston, yesterday, for
driving a motor-car at forty miles an
hour, said he was wearing a straw
hat at the time, and was smoking a
cigarette, which he could not have
done if the speed had been so great.
The case was dismissed.
