COMMERCIAL MATTERS.

What is Going on in the Business World—The Markets.

Failures in Canada this week, 27; since week 1906, 11. It is estimated that over \$4,000,000 worth of low grade ore is on the dumps at Cobalt.

The oldest strike is virtually broken, said C. J. McLaughlin, of Montreal, and added miners are now gradually drifting back to camp.

The directors of the Nicholson & Ontario Navigation Company, have declared the regular quarterly dividend of 14 per cent.

The American Tobacco Co., New York, declared on its common stock the regular quarterly dividend of 2 1/2 per cent, and an extra dividend of 7 1/2 per cent, against 2 1/2 regular and 5 per cent extra, the last year.

The dividend is payable September 2nd. The first organization ever known in the spice trade has been effected at New York. Fifty-six of the most important concerns of the various countries were represented. The new organization will be called "The American Spice Trade Association." Its objects are to settle questions and disagreements that may arise in the trade.

The total output of the four collieries in the Nova Scotia Steel & Coal Company for the month of July amounted to over fifty-five thousand tons. The June record output of the Steel works of 6,000 tons was again equalled in July, when the pig iron output reached 6,000 tons.

A summary of nearly forty interviews with big growers tends to show that the Central New York hop crop this year, while it will probably be of excellent quality, will not be nearly as large as last fall.

The New York Central and the C. P. R. railroads are planning extensive improvements to their ferry slip at Ogdensburg and Prescott. The C. P. R. will construct an entirely new slip and purchase a new ferry. The New York Central will lay out \$50,000 in rebuilding and enlarging the present slip at the highhouse.

To Hold a Meeting.

Allen Studholme, labor M.P.P., arrived in Kingston, today, and in company with W. Kelly, and others, is enjoying himself at Lake Ontario Park. Mr. Studholme will address an educational meeting in Labor hall, Sunday afternoon, and again on Monday night. This is the beginning of a series of educational meetings to be held prior to the coming elections.

James H. Rodolph, a commission merchant, with an office in the Chamber of Commerce, Buffalo, N.Y., was killed by a revolver shot in the office of the Niagara Mill and Elevator company.

THE COFFIN NAILS

SHOW A BIG INCREASE IN CANADA.

One Third More Than Last Year—Consumption of Tobacco Biggest on Record—Considerable Beer Drinking.

Ottawa, Aug. 10.—The returns of the consumption of tobacco in Canada for the twelve months ending June 30th last show an increase of nearly one-third in the number of cigarettes while the consumption of cigars has remained practically the same as compared with the fiscal year 1905-06. For the twelve months ending June 30th last the total number of cigarettes entered for consumption in Canada was 333,972,137, as compared with 269,331,937 for the corresponding period of 1905-06, an increase of nearly one-third. In 1904 the number of cigarettes entered for consumption was 229,869,287, and ten years ago it was only 3,735,000.

The consumption of cigars for the twelve months ending June 30th last was 133,516,575, practically the same as for the preceding twelve months. Cigars made from Canadian tobacco numbered 2,826,721, as compared with 3,174,466 for the fiscal year 1905-06. The total consumption of tobacco of all kinds for the twelve months is estimated at 2,933 lbs. per head of the population, the largest on record.

In regard to malt liquor, the consumption of beer shows the largest increase. For the twelve months it was 5,285 gallons per head, as compared with 5,255 gallons per head in 1905-06. The consumption of spirits was 347 gallons per capita and of wine, 662 gallons per head, both practically the same as for the previous year.

MATTER ARRANGED

And the Yacht Race Will Now Go On.

Rochester, N.Y., Aug. 10.—Complication that threatened to result in the forfeiture of Canada's entry to the Royal Canadian Yacht Club, arose yesterday afternoon, and only after a conference of Canadian and American yachtmen, that lasted until after ten o'clock last night, was the matter amicably settled. The Royal Canadian Yacht Club officials insisted, as they had a right to do, that the Rochester Yacht Club produce Designer Herschell's design of the centre-board, that the boat's displacement might be figured. This the local club was unable to do and, after arguments and suggestions had been exchanged for three hours, Olin Crosswell, of the New York Yacht Club, the neutral judge for the race suggested that the only way out of the mix-up would be to weigh the defender. This was accepted by the Canadian and the Seven was hauled out early this morning and weighed on the scales at the plant of the Charlotte Blast Furnace.

Referee Owen said, last night, that he was certain that, with slight alterations, the defender would qualify. In view of the hauling out and weighing of the Seven, the start of today's race was delayed until this afternoon.

RESZKE "CHIEF OF SONG."

Well-Known Tenor Fills a New Position.

Paris, Aug. 10.—M. Jean de Reszke, the well-known tenor, has been engaged by M. Messager for the Paris opera to fill a new position with the title of "chief of song."

"Singers at the opera," M. Messager explains, "are engaged either from the Conservatoire or from the provinces. It often happens that singers who were quite good at the Conservatoire are lost on the enormous stage of the National theatre, and that singers from the provinces need schooling."

"It will be M. de Reszke's work to direct their efforts, and I think we may expect to see some fine singing in the future, even if we cannot prevail on M. de Reszke to sing now and again."

SHARKS EAT BATHERS.

Man and Woman Meet Awful Deaths.

Vinona, Aug. 10.—Two bathers have been eaten by sharks within the last few days off the Austrian Adriatic coast.

Josef Silovic was swimming with a friend off the island of Veglia, when his friend heard him utter a piercing cry, and on turning round saw him being dragged under the water. A young woman, who was a school teacher, met a similar death.

A reward of \$5 for every shark caught is paid to fishermen by the authorities, but as the plague has so much increased of late it is intended to equip a special vessel to fish for them.

Latimer News Budget.

Latimer, Aug. 9.—Much damage was done by electrical storm on Wednesday. Alexander Glassford lost a valuable horse and colt by the lightning. Frank Darling is spending a few weeks at Gananoque. Miss Myrtle Spooner starts for Montreal in a few days. Miss Clara Grant, Pittsford, is spending a couple of weeks with Miss Luella Travis. Mrs. Sweet is visiting her mother, Mrs. B. Wartman. Miss Nettie Johnston has been visiting her friend Miss Pearl Taylor. A small private picnic was enjoyed at Collins Lake by a few of the young ladies on Monday afternoon. In the evening a number spent a very pleasant evening at J. Taylor's. Mrs. Bruce has left for the Adirondacks for the benefit of her health. A few from this vicinity attended the funeral of T. Shannon, at Sunbury, N. Bateman at T. Sherbrooke's. Miss Beatrice Travis is spending a week in the city. The boys are still practising football and it is hoped they will soon have a match. Mrs. W. Spooner Glembarino is at J. Sherman's. Mrs. C. D. MacFarlane is returning to her home in Montreal. Miss L. Cochrane is spending a few days with friends in Kingston. Miss Pearl Taylor leaves tomorrow for Marlboroak for a visit. There she will go to her school at Harlowe. A business meeting was held by Rev. Mr. Routhouse, assisted by Rev. Mr. Spaulding, chairman of the Methodist district, in Latimer church, on Monday evening. Rev. Mr. Laing, Kingston, spent a few days of this week at J. H. Hughson's. Miss Ella Caswell, recovering from a severe attack of neuritis, Miss Fannie and Master Gratton Cochrane, Syracuse, are the guests of Mrs. Cochrane. Miss Kathleen Sherman is spending a few days in Kingston. A party was held at Miss Luella Travis' Wednesday evening in honor of her guest, Miss Grant. J. Wolfe and daughter, Vera, spent a day fishing at Leborough Lake, this week.

INCIDENTS OF THE DAY.

A justice of the peace will try another liquor case at Edinboro early this week. The charge is laid against a man for selling fire water on board a boat without a license. The papers were served this afternoon by Constable Smith.

Orange, 20c. up. Edwards and Jenkin. Phone 775.

Two men were engaged in selling patent medicine on the Market Square this morning without the necessary license having first been taken out. The police were keeping an eye on the men, but no action was taken, as business did not appear to be very good.

Robby's for best \$1 shirts.

The new leaders on the street cars give the motormen a great deal of trouble on account of their falling down. The least jolt or even a small rut between the rails causes the female riders to fall. Every time this occurs it takes two or three minutes to raise it in position again, and in this way time is lost.

Campers' supplies, Edwards and Jenkin, 274 Princess street.

The steamer Nevada will likely go to Toledo to be repaired instead of entering the dry dock here, as it will be cheaper. An American boat using the dry dock here has to pay fifty cents a day on every day, even to wharfage, but a Canadian boat can dock in the United States without duty being charged. This law should be remedied as it stops many a boat from coming to Canadian docks to be repaired.

CONCESSIONS IN THE SHIPMENT OF OILS.

The Grand Jury Brings Down Its Report at Jamestown, N.Y.—There Are Several Hundred Counts.

Jamestown, N.Y., Aug. 10.—Judge Hazlin, of the federal court for the western district of New York, received from the grand jury, yesterday, a partial report of the investigations which have been made of the government's charges against the Standard Oil company, the Vacuum Oil company, the New York Central and the Pennsylvania railroads of giving and receiving special and illegal concessions on the shipments of oil from Oil to points in Vermont. The report includes the presentation of two indictments against the Standard Oil company, two against the Vacuum Oil company, two against the New York Central and Pennsylvania railway, jointly and two against each of these railways separately, a total of ten individual indictments. Of the two indictments against each corporation one contains 188 counts and the other forty counts. The law provides a penalty of \$20,000 for each count on each indictment in case of conviction.

COMET WITH SEVEN TAILS.

Diameter Twenty-Two Times That of Earth.

Paris, Aug. 10.—M. Camille Flammarion, the well-known astronomer, has given out some interesting details of the new comet.

The comet is now at about 100,000,000 miles from the earth. It has seven tails, the longest of which is about 7,000,000 miles in length. The diameter is twenty-two times that of the earth.

The comet may be seen between one o'clock in the morning and dawn in the east under the Pleiades. Its most brilliant period will probably be during this month.

Fishing Or Agriculture.

Captain Easton, the auctioneer, is living for the summer on his houseboat Drabon, anchored in Sheepshead Bay. His friends tell of an incident which occurred recently. One day a dinky-looking rowboat carrying two colored men, rowed out from Corral's dock down the bay. The captain happened to be on the verandah of his houseboat, as the ancient craft went by, and he recognized one of the darkies as a stableman whom he had often spoken to at the Sheepshead Bay track.

"Hello, Eh," he called, "where you going?"

The darkies rowed the boat over to the rail of the captain's verandah and the one Captain Easton had spoken to, showed two gleaming rows of ivory. "Can't see rightly, say, Cap'n," he responded, "cause to tell the truth, I don't know, whether it's fishin' or agriculture."

"By Jove, that's queer," said the captain. "What are you going to do?"

"Oh, jes' dig some clams," said the negro as he rowed away.

YEAR 74.

London, Aug. 9.—Grouse shows opens on the 12th, and long before that there will begin an exodus of London aristocracy to the moorlands of Scotland.

Of course, men will predominate of late years women have participated in what is called the sport, and so the bigger bags of a day on the he are credited to them. Unfortunally, they too often participate in cruel and degrading games of shooting when the slaughter of decent and helpless birds becomes them an apparently positive delight.

This form of sport is discouraging the queen, but that it is excessive indulged in by the sporting clubs of country there can be no doubt.

It goes without saying that a woman more than a man can become a class shot without an infinite amount of practice and experience, and, moreover, unless she has a natural genius for a great marksman cannot make, no matter how often she practices and wide her experience with proper instruction it is quite possible for the average woman to be a very passable shot, and there is a very possible increasing number of female markswomen to be seen at shoots is due to the fact that the modern sportsman than was the case twelve years ago.
