

PETER'S BOBIES RENDEZVOUS
OR A COUNTRY FOR THE WHITE MAN?
Allan Studholme, Labor M.P.P., Says the People of Canada Will Have to Decide This Question Very Soon.

Mr. Studholme again addressed a meeting at the labor hall, last evening. The chair was taken by Mr. Coward, who, in a short preliminary, introduced the speaker. Mr. Studholme gave a brief resume of Sunday's address and enlarged upon the subject of foreign labor. He said that in his native city of Birmingham, the conditions of thirty-seven years ago still obtained. Children of three years old were sewing hooks and eyes on garments for 2s. 4d. per week, and sixty hours, while the maximum was 1s. 2d. Was it to be wondered at that these poor wretches jumped at the chance offered them to come to Canada? "The Frontiers Land" is a land of milk and honey. The sad fact was the disappointment upon their arrival here to find that things were not as glowing as represented. "It appears to be almost a certainty," he continued, "for a man to bring his wife much less any children."

Immigration, he said, would be a growing curse unless taken up by government and systematically controlled, otherwise he recommended the immigrant to starve where he was known. Underpaid labor drove the foreigner to England. She, in turn, being the open door for refugees of every type, made room for them by cutting wages and compelling her own people to emigrate to the colonies. Foreigners, who did not go to England, came here. We paid 13s. per adult and 6s. per child for continentals, £1 for every Briton. Italians existed on five cents a day, lived in shacks and shanties, and slept in benches in batches of fifty, banked their money and at the end of the season returned with millions of dollars to Italy, only to retrace in some cases as many times, each time, each time costing us \$2.40. This he said was a part of the white man's burden. Some people sought to excuse these methods by saying that the Hindoo and all under the British flag have equal rights.

He strongly denounced the get-rich-quick mining magnates, who created the demand for coolies, by underpaid labor, with the result that eventually they had to call for deportation on account of wholesale immorality. British Columbia was to be congratulated on levying \$600 on every Chinese and Japanese, although government disallowed it on the Jews, whilst employers paid it, and even resorted to smuggling, so that the province had to stipulate a standard of education and ability to speak English. British Columbia, he said, would be the coming congress, demand exclusion, by insisting that Mr. Dunsmuir sign the act, which for some unknown cause, he had avoided. Kingston should send a man to vote protection for all Ontario.

Mr. Studholme wished to thank the two papers of the city very kindly for their very fair and square deal, also one member who so kindly introduced him to the meeting, and had given him great encouragement. In conclusion he urged all present to decide whether this should be a white man's country or a rendezvous of coolies. Mr. K. then asked the man to vote protection for all Ontario.

THE VALERIA SOLD
THERE MAY BE A NEW STEAMBOAT LINE.
From Alexandria Bay to Buffalo—Hard Work in Getting the Dredge Boat—The Harbor Tidal.

The tug Loretta has commenced dredge work on the Hudson. The steamer Albatross took nearly a hundred passengers to Ogdensburg, this morning.

The steamer Mississippi made its regular trip up the river to Kingston, to-day.

The tug Sir Richard has resumed duty, after being laid up, having her crane repaired.

The schooner Christie Marshall has cleared from the post for Oswego, to load coal for the steamer at Richardson's. The steamer Wahconda cleared for Port William; the steamer Phoenix arrived from Chicago, with 35,000 bushels of corn.

WAGERED \$100.
That Toronto Baseball Club Will Stay in Lead.
The Toronto returned on Sunday in good spirits after a successful jaunt to Buffalo, having won the series three to two, making a tie to date on an eight-hour day, just as the Toronto Corcoran arrived from Port William with 50,000 bushels of wheat.

There is talk in steamboat circles of a new line between Alexandria Bay and Toronto. The Ontario Navigation company has long looked upon the scheme with favor and may carry the matter through. Travelling Passenger Agent Convin denies any knowledge of the company's plans but says that such may be their intention.

It was with surprise that Morrisburg citizens learned that the popular ferry boat Valeria had been sold to a party in Montreal, this evening. No vessel of this name has been available to make any progress, the chains breaking on every attempt to raise her. The work at the present time is at a standstill.

Since yesterday morning the government dry-dock gate has been undergoing repairs. The gate had been moved out to locate an obstruction and the passage in the evening. No vessel, however, has been able to pass through it. The rollers on which it operated were also completely over. Some mason work has also been done around the sides. It is expected that the work will be completed this evening. No vessel, however, has been able to pass through it. The rollers on which it operated were also completely over. Some mason work has also been done around the sides. It is expected that the work will be completed this evening.

Ready 15th November.
The work of reconstructing Hotel Quebec is progressing slowly. The mason work upon the building proper is all completed, and the additional storey is a great improvement to the appearance of the structure. At present an addition to the rear of the building is being added. This is a boiler room, which will be but one storey in height. To the two wings of the main building additions of twenty-two feet in length will be added. A representative of the Intelligence asked Mr. Jenkins when he expected the hotel would be ready for opening and his answer was "About the middle of November."

A Wife's Secret.
"A Wife's Secret," Spencer and Aborn's successful emotional dramatic production, will be seen at the Grand on Saturday, August 17th, matinee and night. From all reports, this offering should meet with the undivided approval of the patrons of emotional plays here, for it is said to contain story of human nature, beautiful comedy, thrilling sensations, a cast of general excellence, and an elaborate scenic production.

The "Pratice Boys" excursion to Picton Monday proved a most enjoyable one. The steamer America arrived back with the excursionists at 9:30 p.m.

Blood coolers, Eno's salt, Abbey's salt, Saling laxative and grape fruit salt, all fresh at Gibson's Red Cross drug store.

Kingston's Famous Fur Store.

Red, Itching Skin
Constantly itching with Eczema, Salt Rheum, Tinea and constantly scratching until the skin is raw. Nothing gives relief? You're wrong. Just try **MIRA**.

WILL THEY DRAW
IN ORDER TO START DOMESTIC SCIENCE?
Position of the Board of Education—Has No Money for the Department—The Views of a Trustee.

"What will you do about inaugurating domestic science in the public schools when the city council has refused to grant the necessary money?" a member of the Board of Education was asked.

"Well, we can easily get over that difficulty," he replied. "We can inaugurate the class, and overdraw our appropriation."

"But can you do that when your budget does not provide the money?" he was asked. The answer was that the board could very easily overcome that difficulty.

"Well, was the further query, "if you would overdraw your appropriation for domestic science, couldn't you do the same thing in order to keep down the Collegiate Institute fees?"

"Certainly not," he replied. "There is no reason for reducing the collegiate fees. The only people who want them reduced are those who have children at the institute. There are only 300 Kingston pupils at the collegiate. The other sixty are from the county. Why should the fees be reduced for the benefit of the 300, and hundreds of other people, including the poor, to be asked to pay increased taxes for educating other people's children. I'll guarantee that if a plebiscite be taken, that four to one would vote for the increased fees. It's only those who have children at the collegiate who are demanding that the fees be lowered. No one else is asking it."

To Introduce The Class.
A special meeting of the management and property committees of the board of education was held, last evening. It was decided to inaugurate the class on Thursday evening, that domestic science be inaugurated in the public schools at the beginning of the September term and that Miss Susan Bowler, of this city, appointed teacher. There will be \$500 for the class till the end of the year. Of this sum Queen's University will pay \$200 for the benefit of the pedagogical students.

The committee of management will also recommend that a teacher be advertised for who can fill the position of principal of Frontenac school and also be qualified to consult with the dean of the faculty of pedagogy on various school matters.

No Petition Received.
No petition has yet been received by the board, asking that the collegiate fees be not raised. There will be a special meeting of the board, on Thursday evening. If any trustee desires he can move for a reconsideration of the board's recent action in raising the fees, and have the question discussed.

Baby Cut Mother's Head.
Swinging a stick at his play, the little son of Mrs. L. Webster, 215 St. George street, Montreal, struck his mother a blow over the eye, inflicting a nasty gash. Inflammation followed, and the wound looked very ugly, when a box of Zam-Buk was obtained. The pain was soothed, the inflammation subsided, and the wound healed. Mrs. Webster, "and healing commenced. In four or five days the wound was closed, the inflammation gone, and there was only a faint red line showing where the gash had been. Even this mark is now gone. Zam-Buk is such a wonderful healer it should be in every home where there are children."

Imagine a combination of the finest healing balms and essences procurable from the best medicinal plants all over the world. Add to this combination high antiseptic powers. Mix it not with a base of coarse animal fats or oils (as most ointments are), but use a vegetable base. Distill, concentrate and purify the whole. That is what Zam-Buk is!

It heals cuts, sores, bruises, abrasions. It cleanses and cures eczema, patches, blood poisons, ulcers, abscesses, heat sores, etc. It takes the poison out of stings, cools and cures sore feet, and it is the best known cure for piles. All mothers should keep it handy. Fifty-cent a box, at all stores and druggists, or Zam-Buk Co., Toronto, for price. Three boxes for one twenty-five. Send one cent stamp for trial box.

B. A. Hotel Arrivals.
W. G. Cohen and wife, Johnston, N.J.; L. G. Straus, Cincinnati, Ohio; Mrs. M. L. Stewart, Plans, Ill.; A. Marsh and wife, DeKalb, Ill.; Mrs. T. D. McMeiken, Chicago, Ill.; Mrs. Flora Alling, Genoa, N.Y.; Dr. A. E. Lett, Watertown, N.Y.; H. C. Taylor, A. Eaton, C. C. McLennan, S. C. McGowan, W. H. James, L. Glover, N. McLean, E. M. Kallmayer, E. H. Rutland, Toronto; A. N. Cote, J. H. Meade, H. T. Graham, H. Dubois, Montreal; J. E. Shields, Hamilton; J. T. Thompson, Ottawa; A. Wilson, Belleville; J. A. Kerr, Belleville; D. S. Wright, Brockville; C. M. Richardson, Trenton; T. A. Webster, Landdowne; R. S. McLennan, Lancaster; H. L. Flanagan, Cornwall; Mrs. Grange, Miss Prun, Miss Prun, W. K. Prun, II. Travers, Zina Howe, Napans; B. Smith, Miss Emma, Syracuse, N.Y.; Miss Mabel Cannon, Mr. and Mrs. S. W. Salt, Brooklyn; G. W. Gieseler and wife, A. S. Koenig and wife, Newark, N.J.; W. H. Straus and wife, B. Hyman, A. T. Nellis and wife, New York; W. A. Barber, W. J. Blackwell, L. B. Zeller, A. W. Petty, Trenton, N.J.; J. J. Reamer, Franklin, Pa.; William B. D. T. Reamer, Meadville, Pa.; Mr. and Mrs. Wilmot, Philadelphia.

A party of twenty-five Americans came down on the steamer on Kingston this morning, and went to Sharbot Lake for a week's fishing.

Solid comfort in each box of talcum powder you buy at Gibson's Red Cross drug store. Price 25c.

There was a heavy shower of rain on Howe Island, Sunday night. Kingston was not in this.

Secured New Position.
Ex-Conductor Joseph Thompson, of London, Ont., whose name became famous through his connection with a recent wreck on the G.T.R., at which he was held responsible, has been offered, and accepted, a position as conductor on the Canadian Northern railway, running out of Edmonton.

Not Fit to Handle.
Inspector McNeil stopped the men working on the steamer Nevada, to-day. The grain in the steamer's hold is in such a state that it cannot be handled, and he has ordered that the cargo is full of maggots. The steamer will likely take her cargo up the lake again. Richardson Bros. have a drying kiln, but the grain was in no shape to be received.

Kingston Lacrosseists Defeated.
The Kingston lacrosse team went down to defeat in Picton, yesterday, before the Trenton boys. At the end of the game the Trenton team were victorious. The Trenton team are a fine bunch of players, and are leading in their league, defeating the Toronto Shamrocks on Saturday last. A return game, however, is planned here on Labor day, when the home team expects to make a better showing.

Recovered His Wheel.
John Baltany, caretaker at the city hall, has recovered the wheel he lost on Friday last. His own wheel, it will be remembered, was taken from in front of the post-office, and another one left in its place. The article in the Whig concerning the wheel for Mr. Baltany's wheel was taken by a party in mistake, and as soon as that party learned who the owner of the wheel was, an exchange was soon made.

Rev. Dr. Winter's Health.
Rev. David Winter, president of the Montreal Methodist conference, has recovered sufficiently to be removed, a few days ago, from Winchester, Ont., to his home, to Ottawa, where, with his family, he has taken up his residence under superannuation. He is now able to lie in bed after having to sit up for several weeks past owing to difficulty of breathing and heart trouble. At the same time his condition is reported to be very low.

A Serious Accident.
What might have proved a very serious accident to the street railway happened on the depot line, Saturday night. The car was on its way out, and when below Russell street the trolley came off, striking the span of a trolley. A moment afterwards a loud crash was heard, and upon looking about it was found that one of the poles lay across the track. Had the pole fallen on top of the car the motorman and some of the passengers might have been electrocuted, where they sat, if the trolley wire had fallen on top of the car.

Cancer of the Tongue.
As the result of a cancer upon the tongue, John A. Bleeker, of Sidney, died on Thursday last, after months of suffering. Deceased was sixty-seven years of age, was born in the township of Sidney, and had resided there all his life. He was well and favorably known and had a large circle of relatives and friends, who will learn with regret of his demise. Mr. Bleeker was a member of the Methodist church. Some nine years ago Miss Bleeker preceded him to the tomb. A son, John A., of Sidney, is the only surviving member of the family.

B. W. Folger Run Over.
On Monday afternoon at five o'clock B. W. Folger was knocked down and run over by a team of horses. Mr. Folger was standing on the edge of the sidewalk in front of B. H. Toy's store, conversing with another man, when the private carriage of F. Albram came along. For some unknown reason the coachman drove almost on the walk, the horse struck Mr. Folger and knocked him into the road, the carriage passing over his body. Luckily Mr. Folger was not seriously injured, he sustained a wrench to his right foot, and his side was hurt by his fall. After a few moments' rest he was able to proceed home.

Allan Studholme, M.P.P. was in Brockville before coming to Kingston, speaking on the immigration question.

Only all-cream ice cream in the city at Price's.

Indian Curios.
Of all kinds including chief outfits, banners, wigwags, etc., are to be had in Kingston only at **Kingston's Famous Fur Store.**

TO MARK THE EVENT.
The engagement is announced of Alexander Abramsky to a young lady who has just come from Russia. The announcement was made on Sunday night at the home of Joseph Abramsky, where a jolly party was given to mark the event. The marriage will take place in September.

It is reported that blueberry pickers are scarce in this district. The growers have but shortly come from Russia but the market has had a very small offering.

THE VALERIA SOLD
THERE MAY BE A NEW STEAMBOAT LINE.
From Alexandria Bay to Buffalo—Hard Work in Getting the Dredge Boat—The Harbor Tidal.

The tug Loretta has commenced dredge work on the Hudson. The steamer Albatross took nearly a hundred passengers to Ogdensburg, this morning.

The steamer Mississippi made its regular trip up the river to Kingston, to-day.

The tug Sir Richard has resumed duty, after being laid up, having her crane repaired.

The schooner Christie Marshall has cleared from the post for Oswego, to load coal for the steamer at Richardson's. The steamer Wahconda cleared for Port William; the steamer Phoenix arrived from Chicago, with 35,000 bushels of corn.

WAGERED \$100.
That Toronto Baseball Club Will Stay in Lead.
The Toronto returned on Sunday in good spirits after a successful jaunt to Buffalo, having won the series three to two, making a tie to date on an eight-hour day, just as the Toronto Corcoran arrived from Port William with 50,000 bushels of wheat.

There is talk in steamboat circles of a new line between Alexandria Bay and Toronto. The Ontario Navigation company has long looked upon the scheme with favor and may carry the matter through. Travelling Passenger Agent Convin denies any knowledge of the company's plans but says that such may be their intention.

It was with surprise that Morrisburg citizens learned that the popular ferry boat Valeria had been sold to a party in Montreal, this evening. No vessel of this name has been available to make any progress, the chains breaking on every attempt to raise her. The work at the present time is at a standstill.

Since yesterday morning the government dry-dock gate has been undergoing repairs. The gate had been moved out to locate an obstruction and the passage in the evening. No vessel, however, has been able to pass through it. The rollers on which it operated were also completely over. Some mason work has also been done around the sides. It is expected that the work will be completed this evening.

Ready 15th November.
The work of reconstructing Hotel Quebec is progressing slowly. The mason work upon the building proper is all completed, and the additional storey is a great improvement to the appearance of the structure. At present an addition to the rear of the building is being added. This is a boiler room, which will be but one storey in height. To the two wings of the main building additions of twenty-two feet in length will be added. A representative of the Intelligence asked Mr. Jenkins when he expected the hotel would be ready for opening and his answer was "About the middle of November."

A Wife's Secret.
"A Wife's Secret," Spencer and Aborn's successful emotional dramatic production, will be seen at the Grand on Saturday, August 17th, matinee and night. From all reports, this offering should meet with the undivided approval of the patrons of emotional plays here, for it is said to contain story of human nature, beautiful comedy, thrilling sensations, a cast of general excellence, and an elaborate scenic production.

The "Pratice Boys" excursion to Picton Monday proved a most enjoyable one. The steamer America arrived back with the excursionists at 9:30 p.m.

Blood coolers, Eno's salt, Abbey's salt, Saling laxative and grape fruit salt, all fresh at Gibson's Red Cross drug store.

WILL THEY DRAW
IN ORDER TO START DOMESTIC SCIENCE?
Position of the Board of Education—Has No Money for the Department—The Views of a Trustee.

"What will you do about inaugurating domestic science in the public schools when the city council has refused to grant the necessary money?" a member of the Board of Education was asked.

"Well, we can easily get over that difficulty," he replied. "We can inaugurate the class, and overdraw our appropriation."

"But can you do that when your budget does not provide the money?" he was asked. The answer was that the board could very easily overcome that difficulty.

"Well, was the further query, "if you would overdraw your appropriation for domestic science, couldn't you do the same thing in order to keep down the Collegiate Institute fees?"

"Certainly not," he replied. "There is no reason for reducing the collegiate fees. The only people who want them reduced are those who have children at the institute. There are only 300 Kingston pupils at the collegiate. The other sixty are from the county. Why should the fees be reduced for the benefit of the 300, and hundreds of other people, including the poor, to be asked to pay increased taxes for educating other people's children. I'll guarantee that if a plebiscite be taken, that four to one would vote for the increased fees. It's only those who have children at the collegiate who are demanding that the fees be lowered. No one else is asking it."

To Introduce The Class.
A special meeting of the management and property committees of the board of education was held, last evening. It was decided to inaugurate the class on Thursday evening, that domestic science be inaugurated in the public schools at the beginning of the September term and that Miss Susan Bowler, of this city, appointed teacher. There will be \$500 for the class till the end of the year. Of this sum Queen's University will pay \$200 for the benefit of the pedagogical students.

The committee of management will also recommend that a teacher be advertised for who can fill the position of principal of Frontenac school and also be qualified to consult with the dean of the faculty of pedagogy on various school matters.

No Petition Received.
No petition has yet been received by the board, asking that the collegiate fees be not raised. There will be a special meeting of the board, on Thursday evening. If any trustee desires he can move for a reconsideration of the board's recent action in raising the fees, and have the question discussed.

Baby Cut Mother's Head.
Swinging a stick at his play, the little son of Mrs. L. Webster, 215 St. George street, Montreal, struck his mother a blow over the eye, inflicting a nasty gash. Inflammation followed, and the wound looked very ugly, when a box of Zam-Buk was obtained. The pain was soothed, the inflammation subsided, and the wound healed. Mrs. Webster, "and healing commenced. In four or five days the wound was closed, the inflammation gone, and there was only a faint red line showing where the gash had been. Even this mark is now gone. Zam-Buk is such a wonderful healer it should be in every home where there are children."

Imagine a combination of the finest healing balms and essences procurable from the best medicinal plants all over the world. Add to this combination high antiseptic powers. Mix it not with a base of coarse animal fats or oils (as most ointments are), but use a vegetable base. Distill, concentrate and purify the whole. That is what Zam-Buk is!

It heals cuts, sores, bruises, abrasions. It cleanses and cures eczema, patches, blood poisons, ulcers, abscesses, heat sores, etc. It takes the poison out of stings, cools and cures sore feet, and it is the best known cure for piles. All mothers should keep it handy. Fifty-cent a box, at all stores and druggists, or Zam-Buk Co., Toronto, for price. Three boxes for one twenty-five. Send one cent stamp for trial box.
